G/SPS/N/NZL/780 20/01/2025	New Zealand	<i>Cats and dogs</i> Draft Import Health Standard: Cats and Dogs. In 2021 a proposed cat and dog import health standard (IHS) consulted on changes to the proposed IHS since that consultation is outlined in the Review of Submissions under 'Other relevant documents' below. Responses to submissions made by competent authorities are not included in this Review of Submissions. NZ MPI will send out individual responses to each competent authority. This is the second consultation of this IHS. The proposed IHS was not implemented after the first consultation in 2021 because of concerns about fraudulence relating to the rabies and residency import requirements. During the period between consultations, the rabies and residency requirements were reviewed and further risk work on Brucella canis and Babesia spp. was completed.	13/03/2025

G/SPS/N/PER/1076 20/01/2025	Peru	<i>Mercancías pecuarias que puedan transmitir o sirvan de vehículo del virus que causa la enfermedad de la fiebre aftosa</i> RESOLUCIÓN DIRECTORAL No D000003-2025-MIDAGRI-SENASA-DSA que suspende la importación de mercancías pecuarias que puedan transmitir o sirvan de vehículo del virus que causa la enfermedad de la fiebre aftosa, de origen y/o procedencia de la República Federal de Alemania, y dictan otras disposiciones. The Federal Service for Veterinary and Phytosanitary Surveillance (Rosselkhoz nadzor) introduced a temporary restriction on import of live swine, meat of swine and products containing pork from Sri Lanka due to the registration of outbreaks of African swine fever (ASF).
G/SPS/N/URY/87 20/01/2025	Uruguay	<i>Animales vivos, productos de origen animal y material genético de las especies animales susceptibles a la fiebre aftosa</i> Resolución de la Dirección General de Servicios Ganaderos DGSG/No 009A/2025 -Suspensión temporal de las importaciones de animales vivos, productos de origen animal y material genético de las especies animales susceptibles a la fiebre aftosa provenientes de Alemania.

Con el fin de preservar la situación sanitaria de Uruguay, sesuspenden temporalmente las importaciones originarias de Alemania de animales vivos, productos de origen animal y material genético de las especies animales susceptibles a la fiebre aftosa, hasta que ese país recupere el estatus de libre de fiebre aftosa reconocido por la Organización Mundial de Sanidad Animal (OMSA).

G/SPS/N/NZL/781 21/01/2025	New Zealand	<i>In vitro</i>produced embryos from bovines Amendment toBovine germplasm Import Health Standard. New Zealand has amended the Import Health Standard for bovine germplasm which includes semen and in vivoderived embryos to expand the scope with new biosecurity requirements for in vitro produced embryos. Minor changes are also proposed for the existing import requirement. Worth noting are the changes for bovine genital campylobacteriosis in semen and lumpy skin disease in in vivoderived embryos.	15/03/2025
G/SPS/N/THA/781 21/01/2025	Thailand	<i>Food in general (ICS code: 67.040)</i> Draft Ministry of Public Health Notification (MOPH), No.... B.E. ..., entitled "Food Containing Pesticide Residues (Pesticide Residues in Food) (No.5)". For consumer protection, the Ministry of Public Health (MOPH) is proposing to revise the MOPH notification concerning the maximum residue level of pesticides in food through a risk-based framework focused on either short-term (acute) or long-term (chronic) exposures using Thai food consumption data and field trial data. The main elements of the draft MOPH notification are as follows: 1.Revision ofthe MRLs/EMRLs set forth in Annexes2 and 4 of the MOPH notification; 2.Revision ofthe Default limit set forth in Annex 3 of the MOPH notification; 3.Addition ofthe provision "In cases other than those specified in Annexes2 and 4 and Codex,the pesticide residues in food shall not exceed the ASEAN MRLs". This MOPH notification shall come into force after the date of its publication in the Government Gazette.	22/03/2025
