<a href="#">G/SPS/N/EU/905</a> 1/19/2026	European Union	<p><i>Preparations of a kind used in animal feeding (HS code(s): 2309)</i></p> <p><b>Commission Implementing Regulation (EU) 2025/2566 of 18 December 2025 concerning the authorisation of L-lysine sulphate and L-lysine monohydrochloride produced with <i>Corynebacterium glutamicum</i> CGMCC 7.453 as feed additives for all animal species (Text with EEA relevance)</b></p> <p>This Regulation authorises for the first time in the European Union and for a period of ten years L-lysine sulphate and L-lysine monohydrochloride produced with <i>Corynebacterium glutamicum</i> CGMCC 7.453 as feed additives belonging to the category ‘nutritional additives’ and in the functional group ‘amino acids, their salts and analogues’ for all animal species. This authorisation is based on the favourable conclusions of a scientific assessment of the dossier submitted by the applicant, conducted by the European Food Safety Authority (EFSA). The terms of the authorisation are detailed in the Annex to the Act.</p>	
<a href="#">G/SPS/N/ARM/63</a> 1/20/2026	Armenia	<p><i>Sunflower kernels; sunflower halva; sunflower seed gozinaki (HS codes 1206, 170490, 2006)</i></p> <p><b>Draft Decision of the Collegium of the Eurasian Economic Commission on Amendment to Section 1 of Chapter II of the Common Sanitary-Epidemiological and Hygienic Requirements for Products Subject to Sanitary-Epidemiological Supervision (Control)</b></p> <p>The Draft Decision amends Common Sanitary-Epidemiological and Hygienic Requirements for Products Subject to Sanitary-Epidemiological Supervision (Control) with a requirement for maximum residues level (MRL) for cadmium (Cd) in sunflower kernels not to exceed 0.20 mg/kg. It also updates the existing MRLs for cadmium regarding specific confectionery products as follows:– Sunflower halva: 0.11 mg/kg;– Sunflower gozinaki (confectionery made of sunflower seeds): 0.14 mg/kg. The Technical Regulation TR CU 021/2011 “On Food Safety” will be updated accordingly.</p>	17/02/2026
<a href="#">G/SPS/N/EU/906</a> 1/20/2026	European Union	<p><i>Genetically modified micro-organisms as or in products</i></p> <p><b>Proposal for a Directive of the European Parliament and of the Council amending Directives 2001/18/EC and 2010/53/EU as regards the placing on the market of genetically modified micro-organisms and the processing of organs</b></p> <p>This proposal for a Directive covers two topics, the placing on the market of genetically modified micro-organisms (GMMs) and the processing of organs. This notification concerns only the part on GMMs (Article 1 of the proposed Directive), which is the relevant part under the SPS Agreement. Amendment (as regards GMMs) to Directive 2001/18/EC on the deliberate release into the environment of genetically modified organisms Directive 2001/18/EC regulates the deliberate release into the environment of genetically modified organisms (GMOs) for any other purposes than placing on the</p>	21/03/2026

market within the European Union (Part B of the Directive) and the placing on the market of genetically modified organisms as or in products within the European Union (Part C). This Directive does not apply to the market authorisation of food and feed containing, consisting of or produced from GMOs. The proposed amendments introduce specific provisions in Part C of the Directive applicable to the placing on the market of GMMs as or in products (other than food and feed) with the aim of tailoring the requirements of the regulatory framework to GMMs while maintaining a high safety level for human health and the environment. The provisions proposed relate to the risk assessment, to the validity of the consent granted for the placing on the market, and to detection methods applicable to all GMMs. In relation to a tailored risk assessment, provision is made for the information requirements in Annex III of Directive 2001/18/EC to be amended by the European Commission by way of delegated act in order to adapt them to the specificities of GMMs, respecting the general principles for the environmental risk assessment of Annex II of Directive 2001/18/EC. The validity of consent granted by the competent authorities would last for an unlimited period of time for GMMs. The modalities to comply with detection method requirements in cases where it is not feasible to provide a method that detects, identifies and quantifies are also adapted in the proposal. Further, the proposal would also introduce specific provisions for low-risk GMMs, including scientific criteria to establish this status, a streamlined authorisation procedure and adaptation of the requirement for post-market environmental monitoring.

**Projet de décret modifiant l'arrêté viziriel du 18 jourmada I 1357 (16 juillet 1938) tendant à faciliter la résorption des excédents de vin (Draft Decree amending Viziriel Order of 18 jourmada I 1357 (16 July 1938) facilitating the disposal of surplus wine)**

The notified draft Decree, drawn up in consultation with the departments concerned, seeks to address certain gaps by establishing a clear and coherent regulatory framework for controlling and monitoring imports of alcohol according to intended use. The text sets out specific modalities and requirements for importing alcohol according to the field of activity of each competent authority concerned, with a view to ensuring safety, quality, and conformity with the standards applied in the food, industrial, pharmaceutical and energy sectors.

*Poultry meat, eggs and their products*

**Notice of Administration Order of Saudi Food and Drug Authority Ref. No. 30263 dated 11 January 2026 entitled "Temporary ban on importation of poultry meat, eggs and their products originating from Côtes-d'Armor in France"**  
Following the WOAHP report dated 31 December 2025, a Highly pathogenic avian influenza (HPAI) virus outbreak has occurred in Côtes-d'Armor in France. In compliance with the World Organisation for Animal Health (WOAH), Terrestrial Animal Health Code Chapter 10.4, it is deemed necessary for the Kingdom of Saudi Arabia to prevent the entry of the HPAI virus into the country. Therefore, the import of poultry meat,

		eggs and their products from Côtes-d'Armor in France to the Kingdom of Saudi Arabia is temporarily suspended (with the exception of processed poultry meat and egg products exposed to either heat or other treatments that ensure deactivation of the HPAI virus, as long as it conforms with the approved health requirements, and standards, with a health certificate issued by the official bodies in France prove that the product is free from the virus).

**Proposal M1023 – 2024 MRL Harmonisation Proposal:  
Call for submissions report, and supporting  
documentation**

This Proposal seeks to amend Schedule 20 of the Australia New Zealand Food Standards Code to align maximum residue limits (MRLs) relating to residues of agricultural and veterinary (agvet) chemicals in food with: (a) the Australian Pesticide and Veterinary Medicines Authority MRL Standard; (b) Codex Alimentarius Commission; and (c) other trading partner standards, following a rigorous assessment that the MRL is scientifically justified, risk-based, transparent as well as non-discriminatory. This Proposal also includes corrections of typographical and formatting errors, necessary to improve the integrity of Schedule 20. For further information, please contact the MRL Team at FSANZ (MRL.contact@foodstandards.gov.au). Agvet chemicals where increased or new MRLs are being considered for specified plant commodities: Benzovindiflupyr, Bifenthrin, Boscalid, Broflanilide, Captan, Carbendazim, Carbofuran, Carfentrazone-ethyl, Chlorantraniliprole, Clofentezine, Clothianidin, Cyantraniliprole, Cyflufenamid, Cyflumetofen, Cyhexatin, Cypermethrin, Cyprodinil, Deltamethrin, Diafenthiuron, Difenoconazole, Diflubenzuron, Dimethenamid-P, Dimpropyridaz, Dinocap, Diuron, Emamectin, Etofenprox, Fenamidone, Fenbuconazole, Fenbutatin oxide, Florylpicoxamid, Flubendiamide, Fluopyram, Flutianil, Fluxapyroxad, Folpet, Fomesafen, Hexythiazox, Imazapyr, Indaziflam, Iprodione, Isocycloseram, Isoflucypram, Isotianil, Mefentrifluconazole, Mepiquat, Metalaxyl, Methiocarb, Metolachlor, Metsulfuron-methyl, Milbemectin, Napropamide, Novaluron, Oxathiapiprolin, Pendimethalin, Phorate, Phosmet, Pirimicarb, Prochloraz, Propiconazole, Pymetrozine, Pyridaben, Pyrimethanil, Pyriproxyfen, Pyroxasulfone, Quizalofop-P-tefuryl, Spiromesifen, Spiropidion, Sulfoxaflor, Tebuconazole, Traniliprole, Thiabendazole, Thiophanate-methyl, Tiafenacil, Trichlorfon, Tricyclazole and Triflumuron. Agvet chemicals where increased or new MRLs are being considered for specified animal commodities: 1,4-dimethylnaphthalene, Cyantraniliprole, Florylpicoxamid, Fluopyram, Fluxapyroxad, Isocycloseram, Isotianil, Mepiquat, Methiocarb, Nicarbazin, Propiconazole, Pyrimethanil, Tetracycline and Tricyclazole. Agvet chemicals where deletions or reductions in MRLs are being proposed for specified plant commodities: Afidopyropen, Carbofuran, Chlorantraniliprole, Cyantraniliprole, Cyflumetofen, Cypermethrin, Difenoconazole, Diquat, Florylpicoxamid, Fluopyram, Fluxapyroxad, Glyphosate, Haloxyfop, Imidacloprid, Indoxacarb, Ioxynil, Iprodione, Linuron, Lufenuron, Metalaxyl, Methiocarb, Naphthalene acetic acid, Napropamide, Novaluron, Oxathiapiprolin, Penthiopyrad, Pyraclostrobin, Pyridaben, Pyrimethanil, Sulfoxaflor, Tebuconazole, Tetracycline and Thiabendazole. Agvet chemicals where deletions or reductions in MRLs are being proposed for specified animal commodities: Lufenuron and Tetracycline. New chemicals proposed for inclusion in schedule 20 of the Australia New Zealand Food Standards Code are: Isoflucypram and Tricyclazole. Agvet chemicals where consequential amendments were required to (a) add or

remove exceptions for some commodities; (b) correct typographical errors; (c) convert a temporary MRL to a permanent MRL; (d) amend or update the commodity name; but there are no changes made to MRLs: Acequinocyl, Afidopyropen, Azoxystrobin, Benzovindiflupyr, Bifenazate, Bifenthrin, Boscalid, Broflanilide, Bromacil, Captan, Carbaryl, Carfentrazone-ethyl, Chlorantraniliprole, Clothianidin, Cyflumetofen, Cyfluthrin, Cyhalothrin, Cypermethrin, Cyprodinil, Dicamba, Difenoconazole, Dodine, Fenbutatin oxide, Fenoxycarb, Flonicamid, Fluazifop-p-butyl, Flubendiamide, Fludioxonil, Fluopyram, Fluquinconazole, Flutriafol, Glyphosate, Hexythiazox, Imazalil, Imazapyr, Indoxacarb, Iprodione, Isocycloseram, Isofetamid, Lufenuron, Mefentrifluconazole, Metalaxyl, Metamitron, Metolachlor, Myclobutanil, Napropamide, Pacllobutrazol, Pendimethalin, Phorate, Phosmet, Pydiflumetofen, Pyraclostrobin, Pyridaben, Pyrimethanil, Pyriproxyfen, Pyroxasulfone, Quizalofop-P-tefuryl, Spinetoram, Spiropidion, Sulfoxaflor, Tebufenozide, Tebufenpyrad, Tetraniliprole, Tiafenacil, Trichlorfon, Triforine. Agvet chemical where the residue definition is being updated: Azocyclotin, Cyhexatin and Dicamba. Agvet chemicals where a new or amended All other foods except animal food commodities MRL is being proposed: Cyflufenamid, Fenbutatin oxide, Fomesafen, Indoxacarb, Lufenuron, Mepiquat, Metsulfuron-methyl, Pyridaben, spiromesifen, Triflumuron and Triforine.

*Oil seeds and oleaginous fruits; Miscellaneous grains, seeds and fruit; Industrial or medicinal plants; Straw and fodder (HS code(s): 12)*

**DA Department Circular No. 15, Series of 2025: Guidelines Governing the Phytosanitary Requirements for International Movement of Seeds for Planting and Research Purposes**

The guideline describes the phytosanitary requirements for the importation and exportation of seeds for planting and research purposes, recognizing the need to translate ISPM 38 into a

national law to harmonizing approaches in managing risks associated with international seed movement.

Philippines

*Live Animals (HS code(s): 01); Animal husbandry and breeding (ICS code(s): 65.020.30); Meat and meat products (ICS code(s): 67.120.10); Animal and vegetable fats and oils (ICS code(s): 67.200.10)*

**Department of Agriculture Administrative Circular No. 12, Series of 2025, Guidelines on the Bilateral Recognition of Regionalization of African Swine Fever from Accredited Countries for Export of Swine, and Swine Products into the Philippines**

The Department of Agriculture (DA) Administrative Circular No. 12, series of 2025, titled “Guidelines on the Bilateral Recognition of Regionalization of African Swine Fever from Accredited Countries for Export of Swine, and Swine Products into the Philippines”, introduces a new policy for the safe importation of swine and pork products.

In essence, the circular implements an African Swine Fever (ASF) regionalization scheme, replacing the previous blanket country-wide ban policy. This means the Philippines will now recognize ASF-free regions (Administrative regions) within countries that are already accredited to export to the Philippines, in line with the standards set by the World Organisation for Animal Health (WOAH).
