Saudi Arabia,  
Kingdom of

*Poultry meat, eggs and their products*

**Notice of Administration Order of Saudi Food and Drug Authority Ref. No. 21224 dated 13 February 2024 entitled "Temporary ban on importation of poultry meat, eggs and their products originating from Wielkopolskie in Poland".**

Following the WOAHP report dated 7 February 2024, a Highly Pathogenic Avian Influenza (HPAI) virus outbreak has occurred in Wielkopolskie in Poland. In compliance with the World Organization for Animal Health (WOAH), Terrestrial Animal Health Code Chapter 10.4, it is deemed necessary for the Kingdom of Saudi Arabia to prevent the entry of the HPAI virus into the country. Therefore, the import of poultry meat, eggs and their products from Wielkopolskie in Poland to the Kingdom of Saudi Arabia is temporarily suspended (with the exception of processed poultry meat and egg products exposed to either heat or other treatments that ensure deactivation of the HPAI virus, as long as it conforms with the approved health requirements, and

standards, with a health certificate issued by the official bodies in Poland prove that the product is free from the virus).

These restrictions apply to the import of highly pathogenic avian influenza virus and related products from the municipalities of Varde and Vordingborg in Denmark. The restricted items include live poultry and hatching eggs, fluff and feathers, poultry meat, and all types of poultry products that have not undergone proper heat treatment (at least 70 °C). It also includes feed and feed additives for birds, excluding feed additives of chemical and microbiological synthesis. Furthermore, hunting trophies, such as feathered games, and used equipment for keeping, slaughtering, and butchering birds are prohibited. Additionally, the transit of live birds from the above-mentioned territories through Kazakhstan is not permitted. However, for goods shipped before 22 November 2023, the decision regarding their admission should follow the usual procedure.

An application was received by the Health and Safety Executive to set a new MRL for oats. Following assessment, a new MRL has been introduced to accommodate a new authorisation of a plant protection product in Great Britain. The Evaluation Report and Reasoned Opinion supporting the new MRL is available at the following link: <a href="https://www.hse.gov.uk/pesticides/assets/docs/new-and-raised-GB-mrls-ppp.xlsx">https://www.hse.gov.uk/pesticides/assets/docs/new-and-raised-GB-mrls-ppp.xlsx</a> The residue levels arising in food from the notified use results in consumer exposures below</p>

the toxicological reference values and therefore harmful effects on human health are not expected. As the residue levels exceed the current MRL in force, a new MRL is being adopted.
