		Physalis peruviana (L.), of the Solanaceae family, to be supplied fresh to the consumer. Cape gooseberries for industrial processing are excluded.	
G/SPS/N/TZA/250 3/3/2023	Tanzania	<p><i>Fresh or chilled cauliflowers and headed broccoli (HS code(s): 070410); Vegetables and derived products (ICS code(s): 67.080.20)</i></p> <p><b>AFDC 26 (1117), Broccoli - Specification</b></p> <p>This standard specifies quality and safety requirements, methods of sampling and test of broccoli varieties (cultivars) grown from Brassica oleracea var. italica Plenck to be supplied fresh to the consumer. Broccoli for industrial processing are excluded.</p>	Tanzania
G/SPS/N/TZA/251 3/3/2023	Tanzania	<p><i>Grapes, fresh or dried (HS code(s): 0806); Fruits, vegetables and derived products in general (ICS code(s): 67.080.01)</i></p> <p><b>AFDC 26 (1110), Table grapes – Specification</b></p> <p>This standard specifies quality and safety requirements, methods of sampling and test of table grapes grown from Vitis vinifera L., of the Vitaceae family, to be supplied fresh to the consumer. Grapes for industrial processing are excluded.</p>	Tanzania
G/SPS/N/GBR/28 3/3/2023	United Kingdom	<p><i>Products (and associated GB commodity codes*): Cultivated fungi (except oyster mushrooms) (0280010) and Oyster mushrooms (0280010-008)* For reference, the full list of GB commodity codes is set out in Part 1 of the GB pesticides Maximum Residue Level statutory register which is made available</i></p> <p><i>here:FoodAndFeedProductsToWhichMRLsApply.pdf (pesticides.gov.uk)</i></p> <p><b>Newtemporary Maximum Residue Levels (tMRLs) for chlormequat amending the GB MRL Statutory Register</b></p> <p>Chlormequat is an approved active substance in Great Britain. An application was received by the Health and Safety Executive to reassess the continued validity of the temporary MRLs (tMRLs) for chlormequat residues in cultivated fungi, including oyster mushrooms. The tMRLs were previously established to address residues that may arise in cultivated fungi as a result of being grown on cereal straw lawfully treated with chlormequat. The latest monitoring data show that the tMRL of 0.9 mg/kg is still valid for cultivated fungi and the decision has been taken to re-establish this for seven years (except oyster mushrooms). For oyster mushrooms the latest monitoring data supports the decision to raise the tMRL from 6 mg/kg to 7 mg/kg and establish this for seven years. The Evaluation Report and Reasoned Opinion supporting the new tMRLs is available at the following link. A complete list of the new tMRLs is available within this document, see page 5: The evaluation of supplementary information to support the tMRL for chlormequat in or on cultivated fungi. These re-established tMRLs should be reassessed in seven years with the submission of monitoring data to confirm their continued validity.</p>	United Kingdom
G/SPS/N/GBR/29 3/3/2023	United Kingdom	<p><i>Products (and associated GB commodity codes*): Avocados (0163010)* For reference, the full list of GB commodity codes is set out in Part 1 of the GB pesticides Maximum Residue</i></p>	United Kingdom

G/SPS/N/PHL/525 3/3/2023	Philippines	<p><i>Level statutory register which is made available here:FoodAndFeedProductsToWhichMRLsApply.pdf (pesticides.gov.uk)</i></p> <p><b>New GB MRL for lambda cyhalothrin amending the GB MRL Statutory Register</b></p> <p>Lambda cyhalothrin is an approved active substance in Great Britain. An application was received by the Health and Safety Executive to set a new MRL for avocados. Following assessment, a new (raised) MRL has been introduced to set import tolerances. The Evaluation Report and Reasoned Opinion supporting the new MRL is available at the following link. Details on the MRL can be found within this document, see page 4. The evaluation of a new MRL for lambda-cyhalothrin in or on avocados The residue levels arising in food from the notified use results in consumer exposures below the toxicological reference values and therefore harmful effects on human health are not expected. As the residue levels exceed the current MRL in force, a new MRL is being adopted.</p>	Philippines
		<p><i>Agricultural and fish and fish/fishery aquatic products; animal feeds, feed ingredients and feed additives; and, feed fertilizers, pesticides and other agricultural chemical fertilizers</i></p> <p><b>Department of Agriculture Administrative Order No. 6 Series of 2022 - Revised Rules and Regulations Governing the Importation of Agricultural and Fish and Fishery/Aquatic Products; Animal Feeds, Feed Ingredients and Feed Additives; and, Fertilizers, Pesti</b></p> <p>The Circular, signed on 22 June 2022, governs the rules and regulations on the importation of agri-fishery products, such as but not limited to, live animals; meat and meat by-products; animal products and by-products, including eggs and honey; other products of animal origin, i.e. embryos and semen; animal feeds, feed ingredients and feed additives; plant and plant products; fish and other aquatic resources; fertilizers, pesticides and other agricultural chemicals; into the Philippines for the information, guidance and compliance of all concerned.</p>
