The VHT pathway for lychee and mango from Taiwan were suspended due to interception of fruit flies on lychee consignment at the New Zealand border. The VHT pathway for mango from Taiwan will be reinstated, however, the VHT pathway for lychee from Taiwan will remain suspended while an assessment of efficacious treatment is undertaken to manage the risk of fruit flies on lychee from Taiwan.</p>	
G/SPS/N/THA/469 05/01/22	Thailand	<p><i>Live prawns and prawn carcasses (including Penaeus vannamei, P. monodon and P. stylirostris) (HS Code: 0306)</i></p> <p>DLD order on temporary suspension of importation of live prawns and prawn carcasses (including Penaeus vannamei, P. monodon and P. stylirostris) from Ecuador to prevent the spread of White Spot Syndrome Virus (WSSV), Infectious Hypodermal and Hematopoietic Necrosis Virus (IHHNV) and Yellow Head Virus (YHV)</p> <p>G/SPS/N/THA/469 According to White Spot Syndrome Virus (WSSV), Infectious Hypodermal and Hematopoietic Necrosis Virus (IHHNV) and Yellow Head Virus (YHV) have been detected in frozen marine</p>	Emergency measure

shrimps imported from Ecuador. The announcement of the Government Gazette dated 17 September 2021, the suspension for importation of live prawns and prawn carcasses (including *Penaeus vannamei*, *P. monodon* and *P. stylirostris*) from Ecuador has expired on 16 December 2021. In addition, the evaluation of disease control system of Ecuador for frozen marine shrimps exported to Thailand is still in progress. Therefore, it is necessary for Thailand to prevent the entry of White Spot Syndrome Virus (WSSV), Infectious Hypodermal and Hematopoietic Necrosis Virus (IHHNV) and Yellow Head Virus (YHV) into the country. By the virtue of Animal Epidemics Act B.E. 2558 (2015), the importation of live prawns and prawn carcasses (including *Penaeus vannamei*, *P. monodon* and *P. stylirostris*) from Ecuador is temporarily suspended for a period of 90 days since 17 December 2021 onward in the Thai Royal Gazette.

Notification of Emergency Measures for Plant Quarantine Requirements for Import of Pinus spp. in Countries Suffering from Bursaphelenchus lignicolus

G/SPS/N/CHN/1243 In order to prevent the introduction of Bursaphelenchus xylophilus in imported Pinus spp. into China, General Administration of Customs has decided to, from February 1, 2022, adopt the following quarantine measures for imported Pinus spp. (including logs and sawn timbers) from countries identified as occur areas of Bursaphelenchus xylophilus (Canada, Japan, South Korea, Spain, Mexico, Portugal and the United States): 1. Laboratory testing and quarantine treatment before export Logs: Before export, the plant quarantine department of the exporting country shall conduct sampling and laboratory testing of Bursaphelenchus xylophilus for every batch of logs exported to China. Where Bursaphelenchus xylophilus is detected, such batch of logs shall not be exported to China; where Bursaphelenchus xylophilus is not detected, before export, such batch of logs shall be subject to fumigation by methyl bromide and sulfuryl fluoride to kill the forest pests such as long-horned beetles. Sawn timbers: Before export, each batch of sawn timbers to be exported shall be subject to heat treatment to kill forest pests such as Bursaphelenchus xylophilus and long-horned beetles; where the heat treatment is not carried out, the samples shall be taken for the detection of Bursaphelenchus xylophilus; where Bursaphelenchus xylophilus is detected, such batch of sawn timbers shall not be exported to China, where Bursaphelenchus xylophilus is not detected, such batch of sawn timbers shall be subject to fumigation. 2. Imported Pinus spp. shall enter China from the port designated by China and located in an occur area of Bursaphelenchus xylophilus identified by China. 3. Upon entry of Pinus spp. the Chinese port shall carry out quarantine. Where the Pinus spp. live pests such as Bursaphelenchus xylophilus or long-horned beetles are detected, such batch of Pinus spp. shall be returned or destroyed, and the import of Pinus spp. from the corresponding enterprises and growing area shall be suspended, if appropriate.

Measures for Administration of Quarantine Access of Entry Animals and Plants (Draft)

G/SPS/N/CHN/1244 To further clarify the procedures for quarantine access of entry animals and plants, based on the actual access over the years, the General Administration of Customs, P. R. China has institutionalized relevant works and formulated the Measures for Administration of Quarantine Access of Entry Animals and Plants (Draft) on the basis of the Administrative Provisions on Risk Analysis of Entry Animals and Animal Products and the Administrative Provisions on Risk Analysis of Imported Plants and Plant Products and in accordance with the Biosecurity Law of the People's Republic of China dated 15 April 2021. These Measures state the quarantine access of animals and plants, animal and plant products,

07/03/2022

and other quarantine objects that are first imported from or, after a suspension, resumed for import from a country or region. Generally, the procedures for quarantine access include the access application, questionnaire distribution and collection, written assessment, field assessment, technical consultation, result notification, agreement signing (or confirmation of quarantine requirements), issuance of quarantine requirements, update of access list, and other links. Only animals and plants, animal and plant products, and other quarantine objects that have obtained quarantine access can enter China.

The draft Order of the Ministry of Economy of Ukraine "On approval of amendments to the Procedures for the State Registration of food establishments, maintenance of the State Register of food business operators' establishments and provision of information from the State Register to the stakeholders" G/SPS/N/UKR/169 The amendments to the Procedures for the State Registration of food establishments include: - a new version of the application form for the state registration of food establishments; - provisions on the cumulative state registration of vehicles used by food business operators exclusively for transportation of food products and conditions under which these vehicles are exempt from the state registration; - clarification of the deadline for food business operators to apply for the state registration of food establishments, change in the deadline for taking a decision to register food establishments or to refuse such registration (10 calendar days instead of 15 working days); - the right of food business operators to start the operations of food establishments based on the principle of tacit consent, if within 15 working days following the application for the state registration of the food establishment the competent authority has neither taken the decision to refuse the state registration of the food establishment nor provided the copy of such decision to the food business operator; - provisions on the maintenance of the State Register and introduction of

changes to the State Register by the competent authority in electronic format using its own material and technical resources. The competent authority provides open and free access to the State Register by publishing it on its official website. The relevance and feasibility of amendments to the Procedures for the state registration of food establishments is related to the need to bring it into line with the provisions of the Law of Ukraine "On the Basic Principles and Requirements for Food Safety and Quality" and to eliminate differences in the interpretation of the legislation in the process of the state registration of food establishments.
