Preparations of a kind used in animal feeding (HS code(s): 2309)

Commission Implementing Regulation (EU) 2025/714 of 10 April 2025 concerning the authorisation of indigo carmine as a feed additive for cats, dogs and ornamental fish (Text with EEA relevance).

The substance covered by the Act was authorized as a feed additive for cats, dogs and ornamental fish. An application was submitted for the reauthorization of this substance in accordance with article 10 of Regulation (EC) No 1831/2003. Based on the favourable conclusions of a scientific assessment of the dossier submitted by the applicant, conducted by the European Food Safety Authority (EFSA), this substance is reauthorized as a feed additive for cats, dogs and ornamental fish in the additive category 'sensory additives' and in the functional group 'colourants: substances that add or restore colour in feedingstuffs', under certain conditions detailed in the Annex to the Act. A transitional period is included for the interested parties to meet the new authorization requirements.

Reglamento General de Inocuidad Agroalimentaria.

El Reglamento General de Inocuidad Agroalimentaria tiene como objetivo desarrollar las disposiciones de la Ley Fitozoosanitaria 157-94, modificada mediante Decreto 344-205, en materia de inocuidad e idoneidad alimentaria con el fin de proteger la salud de los consumidores y facilitar el comercio de alimentos. El sistema de inspección y certificación de inocuidad agroalimentaria de la Dirección Técnica de Inocuidad Agroalimentaria (DIA), debe establecer e implementar los programas y requisitos reglamentarios para la aprobación, inspección, certificación, vigilancia y monitoreo basados en los conceptos de análisis de riesgos con el fin de asegurar el suministro de alimentos inocuos. El ámbito de aplicación abarca los rubros de producción de carnes y productos cárnicos, los productos pesqueros y acuícolas, la leche y los productos lácteos, los productos apícolas, las frutas y los vegetales y los piensos en las fases de la producción primaria, la elaboración, el almacenamiento, la importación y la exportación.

Japan

Live plants and plant parts for planting (excluding seeds and fruits) of the host plants of Xylella fastidiosa

Emergency measures to mitigate the risk of introducing Xylella fastidiosa from Colombia.

To prevent the introduction of X. fastidiosa into Japan, MAFF has taken emergency measures for the host plants of X. fastidiosa from Colombia. The measures are taken as follows:

□ For live plants and plant parts for planting (excluding seeds and fruits), the plants randomly taken from a lot and plants with suspected symptoms are tested during leafing stage by an appropriate serological diagnosis method such as ELISA or an appropriate genetic method such as PCR assay and found to be free from Xylella fastidiosa.

□ In addition, National Plant Protection Organizations (NPPO) of Colombia will be required to include an additional declaration stating that "Fulfills item 23 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No. 73/1950)."

Regarding the host plants of Xylella fastidiosa, further details are provided in the document attached.

Ukraine

Plants and plant products

The Resolution of the Cabinet of Ministers of Ukraine No. 540 "On Amendments to the Clause 2 of the Resolution of the Cabinet of Ministers of Ukraine No. 1229 of 25 October 2024" of 9 May 2025.

This Resolution amends the Clause 2 of the Resolution of the Cabinet of Ministers of Ukraine No. 1229 "On Amendments to the Procedure of inspection, survey, phytosanitary examination, supervision, monitoring, disinfection of regulated objects, issuance of certificates in accordance with the Law of Ukraine "On Plant Quarantine", control of inspections in terms of sampling and selective control over the conduct of phytosanitary examination" of 25 October 2024. In view of the amendments introduced, Clause 2 of the Resolution No. 1229 shall be revised to read as follows:"

2. It is established that:

☐ Quarantine certificate forms produced as of the date of entry into force of this Resolution may be used within three months from the date of entry into force of this Resolution. Unused forms shall be disposed of in accordance with the legislation;

☐ Phytosanitary certificate forms and phytosanitary re-export certificate forms produced as of the date of entry into force of this Resolution shall be used until 31 October 2025 for the export or re-export of regulated objects to countries that do not exchange such certificates through ePhyto HUB pursuant to the information posted on the official website of the Secretariat of the International Plant Protection Convention (IPPC). Unused forms shall be disposed of in accordance with the legislation."
