G/SPS/N/COL/357 03/06/2024	Colombia	<i>Plántulas in vitro</i> de <i>Echinacea Moench</i> Proyecto de resolución "Por medio de la cual se establecen los requisitos fitosanitarios para la importación a Colombia de plántulas in vitro de Echinacea Moench de origen y procedencia India". La medida busca establecer los requisitos fitosanitarios para la importación a Colombia de plántulas in vitro de Echinacea Moench de origen y procedencia india.	02/08/2024
G/SPS/N/COL/358 03/06/2024	Colombia	<i>Semillas de col (Brassica oleracea L.)</i> Proyecto de Resolución "Por medio de la cual se establecen los requisitos fitosanitarios para la importación a Colombia de semillas de col (Brassica oleracea L.) originarias de la República de Turquía". La medida busca establecer los requisitos fitosanitarios para la importación a Colombia de semillas de col (Brassica oleracea L.) originarias de Türkiye.	02/08/2024
G/SPS/N/PHL/531 03/06/2024	Philippines	<i>Live cattle, meat and meat products, bovine processed animal proteins and semen derived from cattle</i> Department of Agriculture Memorandum Order No. 20 Series of 2024, Temporary ban on the importation of live cattle, meat and meat products, bovine processed animal proteins and semen derived from cattle originating from the United Kingdom. The Order bans the importation of live cattle, meat and meat products, including bovine processed animal proteins and semen from the United Kingdom and immediately suspends the processing, evaluation of the application and issuance of Sanitary and Phytosanitary (SPS) import clearance to the above-stated commodities. All shipments coming from the mentioned areas of the United Kingdom that are INTRANSIT/LOADED/ACCEPTED UNTO PORT before the official communication of this Order to the British authorities shall be allowed provided that the products were slaughtered/produced on or before 10 April 2024. Shipments which have not complied with the conditions set forth in Item 3 shall be dealt with as per DA AC 06 S. 2022 Article VI, Section III. More rigorous and tight inspection on all arrivals of meat and meat by-products derived from cattle including live animals and bovine processed animal proteins by DA Veterinary Quarantine Officers assigned at ports of entry.	
G/SPS/N/ECU/337 04/06/2024	Ecuador	<i>Semillas de ptilotus (Ptilotus spp.)</i> Resolución 0001: Requisitos fitosanitarios obligatorios para la importación de semillas de Ptilotus spp. para siembra, originarias de Alemania. Establecer los requisitos fitosanitarios de cumplimiento obligatorio para la importación de semillas de ptilotus (Ptilotus spp.), para la siembra, originarias de Alemania.	
G/SPS/N/ECU/338 04/06/2024	Ecuador	<i>Semillas de cáñamo (Cannabis sativa)</i>	03/08/2024

		Resolución 0056: Requisitos fitosanitarios obligatorios para la importación de semillas de cáñamo (Cannabis sativa) para la siembra, originarias de Uruguay. Establecimiento de requisitos fitosanitarios obligatorios para la importación de semillas de cáñamo (Cannabis sativa) para la siembra, originarias de Uruguay.	
G/SPS/N/ECU/339 04/06/2024	Ecuador	<i>Plantas en sustrato de cáñamo (Cannabis sativa)</i> Resolución 0058: Requisitos fitosanitarios obligatorios para la importación de plantas en sustrato de cáñamo (Cannabis sativa) para cultivar, originarias de Uruguay. Establecimiento de los requisitos fitosanitarios de cumplimiento obligatorio para la importación de plantas en sustrato de cáñamo (Cannabissativa) para plantar, originarias de Uruguay.	03/08/2024
G/SPS/N/ECU/340 04/06/2024	Ecuador	<i>Plantas in vitro de cáñamo (Cannabis sativa)</i> Resolución 0059: Requisitos fitosanitarios obligatorios para la importación de plantas en sustrato de cáñamo (Cannabis sativa) para cultivar, originarias de Uruguay. Establecimiento de los requisitos fitosanitarios de cumplimiento obligatorio para la importación de plantas in vitro de cáñamo (Cannabissativa) para plantar, originarias de Uruguay.	03/08/2024
G/SPS/N/EU/765 04/06/2024	European Union	<i>Preparation of a kind used in animal nutrition (HS code: 2309)</i> Commission Implementing Regulation (EU) 2024/1325 of 8 May 2024 concerning the authorisation of a preparation of cyanocobalamin (vitamin B12) produced with Ensifer adhaerens CGMCC 21299 as a feed additive for all animal species. Commission Implementing Regulation (EU) 2024/1325 authorizes cyanocobalamin (vitamin B12) produced with Ensifer adhaerens CGMCC 21299 as a feed additive in the category 'nutritional additives' and in the functional group 'vitamins, pro-vitamins and chemically well-defined substances having similar effect', subject to certain conditions (Text with EEA relevance).	
G/SPS/N/EU/766 04/06/2024	European Union	<i>Preparation of a kind used in animal nutrition (HS code: 2309)</i> Commission Implementing Regulation (EU) 2024/1196 of 25 April 2024 concerning the renewal of the authorisation of a preparation of Lentilactobacillus buchneri DSM 19455 as a feed additive for all animal species and repealing Implementing Regulation (EU) No 774/2013 (Text with EEA relevance). The substance specified in this Act was initially authorized for a period of ten years as a feed additive for all animal species in the category 'technological additives' and in the functional group 'silage additives'. An application was submitted for the renewal of this authorization. Further to the favourable assessment by the European Food Safety Authority, the authorization of this substance is renewed, subject to certain conditions.	
G/SPS/N/EU/767 04/06/2024	European Union	<i>Preparation of a kind used in animal nutrition (HS code: 2309)</i> Commission Implementing Regulation (EU) 2024/1185 of 24 April 2024 concerning the renewal of the authorisation of orthophosphoric acid as a feed additive	

		for all animal species and repealing Implementing Regulation (EU) No1055/2013. The substance specified in this Act was initially authorized for a period of ten years as a feed additive for all animal species in the category 'technological additives' and in the functional group 'preservatives'. An application was submitted for the renewal of this authorization. Further to the favourable assessment by the European Food Safety Authority, the authorization of this substance is renewed, subject to certain conditions.	
G/SPS/N/EU/768 04/06/2024	European Union	<i>Preparation of a kind used in animal nutrition (HS code: 2309)</i> Commission Implementing Regulation (EU) 2024/1193 of 24 April 2024 concerning the renewal of the authorisation of sodium hydroxide as a feed additive for cats, dogs and ornamental fish and repealing Implementing Regulation (EU) No 161/2013. The substance specified in this Act was initially authorized for a period of ten years as a feed additive for cats, dogs and ornamental fish in the category 'technological additives' and in the functional group 'acidity regulators'. An application was submitted for the renewal of this authorization. Further to the favourable assessment by the European Food Safety Authority, the authorization of this substance is renewed, subject to certain conditions.	
G/SPS/N/EU/769 04/06/2024	European Union	<i>Preparation of a kind used in animal nutrition (HS code: 2309)</i> Commission Implementing Regulation (EU) 2024/1189 of 24 April 2024 concerning the renewal of the authorisation of a preparation of <i>Lactiplantibacillus plantarum</i> LMG P-21295 as a feed additive for all animal species and amending Implementing Regulation (EU) No 1065/2012. The preparation specified in this Act was initially authorized for a period of ten years as a feed additive for all animal species in the category 'technological additives' and in the functional group 'silage additives'. An application was submitted for the renewal of this authorization. Further to the favourable assessment by the European Food Safety Authority, the authorization of this preparation is renewed, subject to certain conditions.	
G/SPS/N/PAN/87 04/06/2024	Panama	<i>Cebada (<i>Hordeum vulgare</i>) en granos secos; Apio (<i>Apium graveolens</i>) frescos para consumo humano y/o transformación</i> Requisitos Fitosanitarios de Importación (RFI), para consumo humano y/o transformación: RFI Cebada (<i>Hordeum vulgare</i>), origen de Estados Unidos de América (Illinois), Argentina, Chile, Canadá, México, España, Francia, Italia, China; RFI Apio (<i>Apium graveolens</i>), origen de Estados Unidos de América (Arizona, California, Florida), Canadá, Guatemala, Honduras, Costa Rica, República Dominicana, Venezuela, Ecuador, Perú, Chile. En cumplimiento de las facultades legales otorgadas al Ministerio de Desarrollo Agropecuario (MIDA) mediante la Ley 206 de 30 de marzo de 2021, que crea la Agencia Panameña de Alimentos (APA), la Dirección Nacional de Sanidad Vegetal del MIDA notifica a las Autoridades Fitosanitarias de sus socios comerciales que ha	03/08/2024

actualizado los RFI para cebada y apios para consumo humano y/o transformación, originarios de los países indicados en cada RFI. En este sentido, se adjunta los veintidós RFI para que los socios comerciales indicados en el punto 4, puedan emitir comentarios de considerarlo necesario y sean remitidos al correo: vigilanciafito@mida.gob.pa.

Brazil

Samples of animal feed products without commercial value, in addition to products for human consumption
Health certificate for exporting samples without commercial value to Brazil.

Please be informed that Circular Letter No.108/2024/DHC/CGI/DIPOA/SDA/MAPA was published on 9 May 2024. This document introduces the Health Certificate model for exporting non-commercial samples to Brazil. It should be noted that the health certificate model itself has not changed. The only modification is an addition to item 1 of the Circular Letter, which now references Decree No. 6.296 of 11 December 2007. This ordinance permits the use of this certificate for the import of samples of animal feed products without commercial value, in addition to products for human consumption. Furthermore, we also acknowledge that the model health certificate issued will not necessarily have the same format as the attached model, due to the diversity of the computer systems used in different countries. However, all certificates must include the fields and items of this model. It is to be noted that countries that do not have a bilaterally certificate agreed with Brazil for exporting a certain product, but need to send samples of products suitable for human or animal consumption and without commercial value to Brazil (such as for participation in international competitions or for scientific research purposes) should use this model.

Preparation of a kind used in animal nutrition (HS code: 2309)
Commission Implementing Regulation (EU) 2024/1194 of 24 April 2024 concerning the renewal of the authorization of nicotinic acid and niacinamide as feed additives for all animal species and repealing Implementing Regulation (EU) No 642/2013.

The substances specified in this Act were initially authorized for a period of ten years as feed additives for all animal species in the category 'nutritional additives' and in the functional group 'vitamins, pro-vitamins and chemically well-

defined substances having similar effect'. An application was submitted for the renewal of this authorization. Further to the favourable assessment by the European Food Safety Authority, the authorization of these substances is renewed, subject to certain conditions.

G/SPS/N/TUR/146 05/06/2024	Türkiye	<i>Foodstuffs</i> Turkish Food Codex Communiqué on the Methods of Sampling and Analysis for the Control of the Plant Toxins in Foodstuffs. This Communiqué has been prepared to establish sampling and analysis method criteria for the official control of plant toxins in food. It also establishes the performance criteria with which the method of analysis used for official control has to be complied. The Draft Communiqué has been prepared taking into account Commission Implementing Regulation (EU) 2023/2783 of 14 December 2023 laying down the methods of sampling and analysis for the control of the levels of plant toxins in food and repealing Regulation (EU) 2015/705.	04/08/2024
G/SPS/N/CAN/1555 06/06/2024	Canada	<i>Pesticide broflanilide in or on various commodities (ICS codes: 65.020, 65.100, 67.040, 67.060, 67.080)</i> Proposed Maximum Residue Limit: Broflanilide (PMRL2024-08) The objective of the notified document PMRL2024-08 is to consult on the listed maximum residue limits (MRLs) for broflanilide that have been proposed by Health Canada's Pest Management Regulatory Agency (PMRA).	13/08/2024
G/SPS/N/CAN/1556 06/06/2024	Canada	<i>Pesticide metsulfuron-methyl in or on oats (ICS codes: 65.020, 65.100, 67.040, 67.060)</i> Proposed Maximum Residue Limit: Metsulfuron-methyl (PMRL2024-09) The objective of the notified document PMRL2024-09 is to consult on the listed maximum residue limit (MRL) for metsulfuron-methyl that has been proposed by Health Canada's Pest Management Regulatory Agency (PMRA).	13/08/2024
