**Proposals to Amend the New Zealand (Maximum Residue Levels for Agricultural Compounds) Food Notice.**

The document contains technical details on proposals to amend the current Notice issued under the Food Act 2014 that lists the maximum residue levels (MRLs) for agricultural compounds in New Zealand.

MPI proposes the following amendments to the Notice:

a) The setting of new entries in Schedule 1, Maximum Residue Levels for Agricultural Compounds, for the following compounds and commodities:

- Altrenogest, to set MRLs at 0.004 mg/kg in horse fat, 0.001(\*) mg/kg in horse meat, and 0.004 mg/kg in horse offal;
  - Isofetamid, to set MRLs at 0.08 mg/kg for grapes, 0.01(\*) mg/kg for mammalian meat, 0.01(\*) mg/kg for mammalian offal, and 0.01(\*)mg/kg for milk; and
  - Oleandomycin, to set MRLs at 0.1 mg/kg for cattle meat, 0.1 mg/kg for cattle offal, and 0.05 (\*) mg/kg for cattle milk;(\*) indicates that the maximum residue level has been set at or about the limit of analytical quantification.
- b) The amendment of existing entries in Schedule 1, Maximum Residue Levels for Agricultural Compounds, for the following compounds and commodities:
- Abamectin, to set MRLs at 0.02 mg/kg for cattle liver, 0.01 mg/kg for cattle kidney, 0.003(\*) mg/kg for milk, 0.02 mg/kg for deer liver, 0.01 mg/kg for deer kidney, 0.01 mg/kg for deer fat, and 0.01 mg/kg for deer meat;
  - Nitroxylin, to add a MRL of 0.02(\*) mg/kg for cattle milk; -Maldison (Malathion), to align the crop grouping for 'Fruiting Vegetables' with that set by Codex;
  - Sulfoxaflor, to align the crop grouping for 'Fruiting Vegetables' with that set by Codex;
- (\*) indicates that the maximum residue level has been set at or about the limit of analytical quantification.
- c) The removal of existing entries in Schedule 1, Maximum Residue Levels for Agricultural Compounds, for azocyclotin and kanamycin;
- d) The amendment of an existing entry in Schedule 2, for Agricultural Chemicals for Which No Maximum Residue Level Applies, for the following compounds:
- Phosphorous acid, to adjust the wording of the condition of applied to the Schedule 2 listing to clarify its scope.

Zealand

*Capsicum, Cucumis, Cucurbitaceae, Lotus, Panicum, Phaseolus, Pisum, Raphanus sativus, Solanum, Solanum lycopersicum, Zeaseeds for sowing*

13/08/2022

**Import Health Standard: Seeds for Sowing (155.02.05).**

The New Zealand Ministry for Primary Industries is publicly consulting on the following proposed amendments to the Import Health Standard (IHS): Seeds for Sowing (155.02.05):

Trade facilitating measures:

- Adding the option for small seed lots of species eligible to import under the specific requirements in the IHS for Capsicum (capsicum), Solanum (Solanum melongena only)(eggplant), Solanum lycopersicum(tomato) and Zea(corn) to be tested as composite samples for the presence of quarantine pests;
- Adding the option for Phaseolus(bean) and Pisum(pea) seeds be tested for the presence of quarantine pests offshore prior to export;
- Adding *Matthiola incana* and *Cyperus papyrus* to the list of species approved for import as pelleted seed;
- Removing measures for the fungal pests *Rhizopus maydis* and *Phaeocystroma ambiguon* Zea(corn) seed, *Cercospora lotion* Lotus (lotus) seed and *Peronosclerospora sorghia* and *Sclerospora graminicola* on Panicum(panicum) seed.

Other measures:

– Adding a phytosanitary certificate as a requirement for Raphanus sativus(radish) seeds for sowing.

The full details of the proposed amendments can be found in the MPI Risk Management Proposal: Amendments to the Import Health Standard Seeds for Sowing (155.02.05).

**Siluriformes Fish Salmonella Sampling.**

13/07/2022

The US Department of Agriculture, Food Safety and Inspection Service (USDA FSIS) is announcing that, starting 13 July 2022, it will suspend its current FSIS Salmonella sampling program for Siluriformes fish and fish products based on consumer cooking practices, lack of recent outbreaks attributed to Siluriformes fish, and low percent positives detected. Full text for this Federal Register notice (87 FR 35720) can be accessed at: [https://www.regulations.gov/document/FSIS\\_FRDOC\\_0001-0723.U](https://www.regulations.gov/document/FSIS_FRDOC_0001-0723.U)

SDA FSIS invites interested persons to submit comments on this notice. Please submit comments on or before 13 July 2022. USDA FSIS will suspend Salmonella sampling in domestic and imported Siluriformes fish and fish products on 13 July 2022.

Comments may be submitted by one of the following methods:

- Federal eRulemaking Portal: This website provides commenters the ability to type short comments directly into the comment field on the web page or to attach a file for lengthier comments. Go to <https://www.regulations.gov>. Follow the on-line instructions at that site for submitting comments;
- Mail: Send to Docket Clerk, US Department of Agriculture, Food Safety and Inspection Service, 1400 Independence Avenue SW, Mailstop 3758, Washington, DC 20250-3700;
- Hand-or Courier-Delivered Submittals: Deliver to 1400 Independence Avenue SW, Jamie L. Whitten Building, Room 350-E, Washington, DC 20250-3700.

Instructions: All items submitted by mail or electronic mail must include the Agency name and docket number FSIS-2022-

0009. Comments received in response to this docket will be made available for public inspection and posted without change, including any personal information, to <https://www.regulations.gov>.

Docket: For access to background documents or comments received, call +(202) 720 5627 to schedule a time to visit the FSIS Docket Room at 1400 Independence Avenue SW, Washington, DC 20250-3700.

**Commission Implementing Regulation (EU) 2022/913 of 30 May 2022 amending Implementing Regulation (EU) 2019/1793 on the temporary increase of official controls and emergency measures governing the entry into the Union of certain goods from certain third countries implementing Regulations (EU) 2017/625 and (EC) No 178/2002 of the European Parliament and of the Council (Text with EEA relevance).**

Regulation (EU) 2019/1793 lays down rules concerning the temporary increase of official controls upon entry into the Union on certain food and feed of non-animal origin from certain third countries (in Annex I); special import conditions for certain food and feed from certain third countries due to the contamination risk by mycotoxins, including aflatoxins, pesticide residues, pentachlorophenol and dioxins and microbiological contamination (in Annex II - increased official border controls and official certificate accompanied by the results of sampling and analysis in the third country).

This Implementing Regulation amends Annexes I and II to Implementing Regulation (EU)2019/1793 by introducing the following changes:

1. Modification of measures/ new measures:

- Inclusion in Annex I of oranges from Egypt due to risk of contamination by pesticide residues;
- Delisting from Annex I and inclusion in Annex II of palm oil from Ghana;
- Inclusion in Annex I of rice from India and Pakistan due to risk of contamination by pesticide residues, extension of CN codes for possible contamination with aflatoxins and ochratoxine A and setting of 5% of identity and physical checks for these commodities;
- Inclusion in Annex I of Yardlong beans and guava from India due to risk of contamination by pesticide residues;
- Lifting of special import conditions for nutmeg from India by delisting from Annex II and inclusion in Annex I;
- Increase in the frequency of identity and physical checks laid down in Annex I for hazelnuts from Georgia and for peppers of the genus *Capsicum*(other than sweet) from Thailand and in Annex II for nutmeg from Indonesia.

2. Technical adjustments to existing measures:

- CN codes 2008 19 1340 and 2008 19 93 40 from entries concerning groundnuts from Argentina in Annex I and from Egypt, The Gambia, Ghana, India and Sudan in Annex II are deleted;
