The DLD order on temporary suspension of importation of live domestic pigs and wild pigs and their carcasses from Myanmar to prevent the spread of African Swine Fever

According to the announcement of the Government Gazette dated 7 March 2023, the suspension for importation of live domestic and wild pigs and their carcasses from Myanmar has expired on 5 June 2023. However, Myanmar has no self-declaration for the recovery of country freedom from African swine fever from WOA. Therefore, it is necessary for Thailand to prevent the entry of African Swine Fever disease into the country. By the virtue of Animal Epidemics Act B.E. 2558 (2015), the importation of live domestic and wild pigs and their carcasses from Myanmar is temporarily suspended for a period of 90 days since 6 June 2023 onward in the Thai Royal Gazette.

Maltogenic alpha-Amylase from Bacillus subtilis ROM in bread, flour, whole wheat flour, and unstandardized bakery products (ICS codes: 67.220.20)

22/08/2023

Notice of Modification to the List of Permitted Food Enzymes to Enable the Use of Maltogenic alpha-Amylase from Bacillus subtilis ROM in Bread, Flour, Whole Wheat Flour, and Unstandardized Bakery Products

Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of maltogenic alpha-amylase (α -amylase) from *Bacillus subtilis* ROM in bread, flour, whole wheat flour, and unstandardized bakery products. The requested maximum level of use for this food enzyme is Good Manufacturing Practice. The results of the premarket assessment support the safety maltogenic α -amylase from *B. subtilis* ROM for its requested uses. Consequently, Health Canada has enabled the use of maltogenic α -amylase from this source as described in the information document by modifying the List of Permitted Food Enzymes, effective 9 June 2023. The purpose of this information document is to publicly announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.
