G/SPS/N/BRA/2313 22/07/2024	Brazil	<p><i>Fresh tangerine, clementine and citron fruits</i></p> <p>ORDINANCE SDA/MAPA No. 1.145, of 16 July 2024 - Establishes phytosanitary requirements for the import of fresh tangerine, clementine and citron fruits from the Kingdom of Morocco</p> <p>The phytosanitary requirements for the import of fresh fruits (Category 3) of tangerine (<i>Citrus reticulata</i>), clementine (<i>Citrus clementina</i>) and citron (<i>Citrus medica</i>) produced in Morocco are established.</p>	
G/SPS/N/BRN/4 22/07/2024	Brunei Darussalam	<p><i>Food products</i></p> <p>Food Order, 2024</p> <p>The Draft Food Order, 2024 has been developed to replace the Public Health Act (Food) Chapter 182 with the intention of further strengthening the scope and enforcement of the legislation in ensuring food safety and public health in relation to the regulation of food in Brunei Darussalam.</p>	20/09/2024
G/SPS/N/CAN/1564 22/07/2024	Canada	<p><i>Natamycin(ICS code: 67.220.20)</i></p> <p>Modification to the List of permitted preservatives to extend the use of natamycin</p> <p>Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of natamycin in unstandardized processed cheese products, standardized cream cheeses, unstandardized cream cheese products, ranch-flavoured dressings for salads and ranch-flavoured dips. The results of the premarket assessment support the safety and efficacy of natamycin for use as a preservative in unstandardized processed cheese products, standardized cream cheeses, unstandardized cream cheese products, ranch-flavoured dressings for salads and ranch-flavoured dips. Consequently, Health Canada has extended the use of natamycin as described in the information document above by modifying the List of permitted preservatives effective 30 May 2024. The purpose of this communication is to publicly announce the Department's intention in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.</p>	18/09/2024
G/SPS/N/CAN/1565 22/07/2024	Canada	<p><i>Nisin(ICS code: 67.220.20)</i></p> <p>Modification to the List of permitted preservatives to extend the use of nisin</p> <p>Health Canada's Food Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of nisin in egg-white wraps. The results of the premarket assessment support the safety and efficacy of nisin for use as a preservative in egg-white wraps. Consequently, Health Canada has extended the use of nisin as described in the information document above by modifying the List of permitted preservatives effective 30 May 2024. The purpose of this communication is to publicly announce the Department's intention in this regard and to provide the</p>	18/09/2024

appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.

G/SPS/N/EU/788 22/07/2024	European Union	<p><i>Cereals (HS codes: 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008), foodstuffs of animal origin (HS codes: 0201, 0202, 0203, 0204, 0205, 0206, 0207, 0208, 0209, 0210) and certain products of plant origin, including fruit and vegetables</i></p> <p>Draft Commission Regulation amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for dithiocarbamates in or on certain products (Text with EEA relevance)</p> <p>The proposed draft Regulation updates the MRLs for substances belonging to the group of dithiocarbamates (such as maneb, mancozeb, metiram, propineb, thiram and ziram). They degrade to carbon disulfide (CS₂), which also occur naturally in plants as phytochemical sulfur compounds and with the existing methodologies in place cannot be distinguished from the presence of residues resulting from the use of dithiocarbamates. The draft Regulation is also proposing a new residue definition for monitoring the presence on these substances.</p>	20/09/2024
G/SPS/N/CHL/797 22/07/2024	Chile	<p><i>Products of animal origin for human consumption or use</i></p> <p>Regula la internación a Chile de productos pecuarios, para consumo o uso humano, mediante monografías de procesos de producción (Text regulating the importation into Chile of livestock products, for human consumption or use, with production process monographs)</p> <p>This new draft Resolution establishes the guidelines and information to be included in monographs, the documents describing the industrial process of a product containing ingredients of animal origin, intended for human consumption or use, in order to assess the risk and the possibility of entry into the country.</p>	20/09/2024
G/SPS/N/KEN/292 22/07/2024	Kenya	<p><i>Microbiology in general (ICS code(s): 07.100.01)</i></p> <p>DKS 2455:2024 Food safety – General standard</p> <p>This draft Kenya Standard specifies the basic safety requirements, sampling and test methods for foods intended for direct human consumption and/or further processing where there is no specific product standard.</p>	04/08/2024
G/SPS/N/URY/82 22/07/2024	Uruguay	<p><i>Captive birds (wild or ornamental)</i></p> <p>Proyecto de Decreto que incorpora al ordenamiento jurídico nacional la Resolución MERCOSUR/GMC No 16/23 "Requisitos Zoonosológicos de los Estados Partes para la importación de aves cautivas (silvestres u ornamentales) (Derogación Resolución GMC No 19/20)" (Draft Decree incorporating into national legislation Resolution MERCOSUR/GMC No. 16/23, "Animal health requirements of the States Parties for the importation of captive birds (wild or ornamental) (Repeal of GMC Resolution No. 19/20)"</p> <p>The notified draft Decree updates the animal health requirements for the importation of wild or ornamental captive birds, approved by GMC Resolution No. 16/23, "Animal health requirements of the MERCOSUR States Parties for the importation of captive birds (wild or ornamental)", and the</p>	20/09/2024

model for the international veterinary certificate. The draft Decree also repeals Decree No. 174/022, which incorporated into national legislation GMC Resolution No. 19/20.

Goods (products) subject to veterinary control

13/09/2024

Draft Decision of the Council of the Eurasian Economic Commission on Amendments to the Regulation on the Common Procedure for Joint Inspections of Facilities and Sampling of Goods (Products) Subject to Veterinary Control (Supervision)

The draft provides for amendments to the actions of the inspectors conducting veterinary inspections of third countries establishments. It also authorizes competent authorities to exclude enterprises that have not supplied the goods (products) under control to the customs territory of the Eurasian Economic Union for five years from the Registry of Establishments authorized to export to the the Eurasian Economic Union. The draft also specifies the conditions under which exports of the goods (products) under control from a third-country enterprise are subject to suspension. As well, the draft determines the procedure for the initiator of a joint verification (inspection) of third-country enterprises with respect to the suspension of exports from the enterprises that refuse to carry out verification (inspection) though being selected for it.

Felinos silvestres (Leptailurus serval

RESOLUCIÓN DIRECTORAL No D000023-2024-MIDAGRI-SENASA-DSA

Se aprobaron los requisitos sanitarios para la importación de felinos silvestres de procedencia España.

G/SPS/N/RUS/285 24/07/2024	Russian Federation	<p><i>Live sheep and goats; products produced from meat of sheep and goats; milk and milk products; feed of animal origin and other raw materials and products obtained from sheep and goats slaughter with exception of production subject to the use of technologie</i></p> <p>Letter by the Federal Service for Veterinary and Phytosanitary Surveillance No. FS-ARe-7/6028-3 of 17 July 2024</p> <p>The Federal Service for Veterinary and Phytosanitary Surveillance (Rosselkhoznadzor) introduced a temporary restriction on import and transportation through the territory of the Russian Federation of live sheep and goats; products produced from meat of sheep and goats from Greece due to the outbreak of ovine rinderpest.</p>	
G/SPS/N/USA/3462 24/07/2024	United States of America	<p><i>Meat (including Siluriformes fish and fish products), poultry, and egg products</i></p> <p>Import Presented Refused and Import Refusal Reason datasets</p> <p>The US Department of Agriculture, Food Safety and Inspection Service (FSIS) plans to replace the existing Import Refusals and Import Volume datasets currently available on the FSIS website, Import and Export Data page with two new datasets, Import Presented Refused and Import Refusal Reason. The existing Import Refusals dataset is published at the lot-level, including the foreign processing establishment, whereas the existing Import Volume dataset is published at the Country, Species, Process Category, Product Category, and Product Group level. The new Import Presented Refused dataset will include lot-level information for import volume along with import refusal data at the lot-level, making it easier to compare the proportion of weight refused to weight presented. Import Refusal Reason will be provided as a secondary dataset, providing each refusal reason as its own row to facilitate analysis. Datasets will be updated monthly and will be posted the third Friday of each month, with the first release occurring on 27 September 2024, in lieu of the Import Refusals and Import Volume datasets. Data will be broken out by fiscal year (FY), starting with data from FY 2014 (starting on 1 October 2013) through the most recent FY.</p>	13/09/2024
