G/SPS/N/THA/813 20/07/2026	Thailand	<i>Food products in general (ICS code: 67.040)</i> Draft Notification of the Ministry of Public Health (MOPH) (No. ...) B.E. issued by virtue of the Food Act B.E. 2522 Re: Food Containing Pesticide Residues (Pesticide Residues in Food) (No. 2). In order to protect human health and the environment, the Thai government by the Ministry of Industry is prohibiting the use of "dicofol", effective 8 July 2025. Therefore, the Ministry of Public Health (MOPH) proposes to revise Annex 1, List of hazardous substance type 4 (banned pesticide), and Annex 2, Maximum Residue Levels (MRLs), of Notification of the Ministry of Public Health No. 460 (B.E. 2568) (2025) Re: Food Containing Pesticide Residues (Pesticide Residues in Food), issued on 12 June 2025. This revised MOPH Notification shall be called the Notification of the Ministry of Public Health (No. ...) B.E. issued by virtue of the Food Act B.E. 2522, entitled "Re: Food Containing Pesticide Residues (Pesticide Residues in Food) (No. 2)", which are amended as follows: 1. Add the pesticide defined as hazardous substance type 4 under the Hazardous Substance Act B.E. 2535 (1992) in the annex 1 of the Notification of MOPH No. 460, namely	18/09/2026

"Dicofol", which the amounts of pesticide residues in food shall not be detected (at the limit of detection (LOD) specified in Annex 5);

2. Delete the Maximum Residue Limit (MRLs) of Dicofol in food from annex 2 of the MOPH Notification No. 460;

3. This draft notification shall come into force after the date of its publication in the Government Gazette.

19/09/2026

Circular Promulgating the National Technical Regulation QCVN 8-1:2026/BYT on Maximum Limits of Mycotoxin Contaminants in Food.

The draft National Technical Regulation QCVN 8-1:2026/BYT establishes maximum levels (MLs) for six groups of mycotoxins in food, namely aflatoxins, ochratoxin A, patulin, deoxynivalenol, zearalenone, and total fumonisins. While maintaining the same six groups of mycotoxins regulated under QCVN 8-1:2011/BYT, the draft updates and expands the scope of regulated food categories and revises certain maximum levels to harmonize with relevant international standards. The main amendments include:

- Aflatoxins: expansion to 21 food categories, including eight new categories based on Codex standards 2025, one category for foods intended for infants and young children based on Commission Regulation (EU) 2023/915, and a more detailed classification of oilseeds;
- Ochratoxin A: expansion to 25 food categories, including three new categories based on Codex standards 2025, twelve categories based on Commission Regulation (EU) 2023/915, and revised maximum levels for dried grapes and dried figs, roasted and ground coffee, instant coffee, and dried spices;
- Deoxynivalenol: revision of maximum levels for cereals intended for further processing, inclusion of wheat, maize

and barley flour, and addition of foods intended for infants and young children and foods for special medical purposes for infants and young children;

- Total fumonisins: inclusion of maize flour as an additional regulated food category in accordance with Codex standards 2025;

- Patulin and zearalenone: maintenance of the existing scope of regulated food categories, with updated definitions for foods intended for infants and young children to align with Commission Regulation (EU) 2023/915.

The draft national technical regulation applies to:

- Organizations and individuals importing, producing, and trading food products at risk of mycotoxin contamination;
- Related organizations and individuals.

The Draft Circular Promulgating the National Technical Regulation QCVN 8-1:2026/BYT on the limits of mycotoxins contamination in food specifies transitional provisions as follows:

- Food products that have been granted a Product Declaration Registration Certificate or have undergone self-declaration before the effective date of this Circular, if they do not conform to the standards issued with this Circular, may continue to be imported, traded, and distributed until the product's expiration date, except in cases where there is a food safety warning;

- Applications for product declaration/self-declaration submitted before the effective date of this Circular shall continue to be processed according to the regulations in effect at the time of submission;

- From the effective date of this Circular, for products that have been granted a Certificate of Acceptance of Product Declaration Registration or have undergone self-declaration, if the Manufacturer's Standard is not in accordance with the regulations issued with this Circular, the organization or individual shall adjust the Manufacturer's Standard to conform to the regulations and notify as prescribed in Clause 4, Article 5 and Clause 4, Article 8 of Government Decree No. 15/2018/ND-CP dated 2 February 2018, detailing the implementation of a number of articles of the Law on Food Safety.

Goods (products) subject to veterinary control

18/09/2026

1) Draft Decision of the Collegium of the Eurasian Economic Commission on Amendments to the Regulation on Common veterinary (sanitary and veterinary) requirements for goods subject to veterinary control (surveillance);

and 2) Draft Decision of the Collegium of the Eurasian Economic Commission on Amendments to the Forms of the Common Veterinary Certificates for Regulated Goods Imported into the Customs Territory of the Eurasian Economic Union from Third Countries.

The draft decision amends the Common veterinary (sanitary and veterinary) requirements for goods subject to veterinary control (surveillance) in terms of the following matters:

- amendments of a legal and technical nature;
- addition of new terms and definitions used in the text;
- amendments to the provisions that establish conditions for the importation of regulated goods into the territory of the EAEU;

- harmonization of nosological names of animal diseases;
- harmonization of wording for certain provisions that are repeated multiple times in the text;
- revision of specific chapters related to live animals regarding requirements for contagious animal diseases;
- repeal of certain provisions contained in the section "Final and Transitional Provisions".

The second draft decision updates the forms of common veterinary certificates accordingly.

Main amendments include:

- ☐ Abolish the administrative procedure for the re-issuance of permits and certificates;
- ☐ Clarify the responsibilities of commune-level People's Committees in responding to risk incidents;
- ☐ Revise and clarify certain provisions governing confined field trials and contained use.
