G/SPS/N/BRA/2063 15/08/2022	Brazil	<i>Environment. Health protection. Safety (ICS code(s): 13)</i> Draft Resolution number 1107, 4 August 2022. This draft resolution is regarded the proposal for inclusion of active ingredients A18 -Abamectin, A26 -Azoxystrobin, B55 -Emamectin Benzoate, C03 -Carbaryl, C32 -Clethodim, C40 -Chlorfenapyr, C55 -Copper-based compounds, B61 -Beta-cyfluthrin, F49 -Fludioxonil, G05.1 -Glufosinate of Ammonium, H07 -Methyl Haloxyfop-p, I13 -Imidacloprid, I15 -Imazamoxy, L05 -Lufenuron, M37 -Mepiquat and T48 -Thiamethoxam on the Monograph List of Active Ingredients for Pesticides, Household Cleaning Products and Wood Preservers, published by Normative Instruction number 103 - 19 October 2021 on the Brazilian Official Gazette (DOU - Diário Oficial da União).	08/10/2022
G/SPS/N/JPN/1080 15/08/2022	Japan	<i>Poultry meat and egg products</i> Import suspension of poultry meat and egg products from Bethel County in Alaska in the United States of America. In order to prevent the introduction of High Pathogenicity Avian Influenza (HPAI) virus into Japan, MAFF has suspended the import of poultry meat and egg products from Bethel County in Alaska in the United States of America, including those shipped through third countries, since 8 August 2022, based on Articles 37 and 44 of the "Act on Domestic Animal Infectious Disease Control" and "Animal Health Requirements for the poultry meat etc. to be exported to Japan from the United States".	
G/SPS/N/UKR/181 15/08/2022	Ukraine	<i>Foods and food ingredients treated with ionising radiation</i> Draft Order of the Ministry of Health of Ukraine "On Approval of the Requirements for Foods and Food Ingredients Treated with Ionising Radiation". The draft Order provides for the approval of the Requirements for foods and food ingredients treated with ionising radiation. The adoption of the draft Order will bring the legislation of Ukraine concerning the food safety and quality in line with EU legislation and will facilitate the implementation of Directive 1999/2/EC of the European Parliament and of the Council of 22 February 1999 on the approximation of the laws of the member States concerning foods and food ingredients treated with ionising radiation and Directive 1999/3/EC of the European Parliament and of the Council of 22 February 1999 on the establishment of a Community list of foods and food ingredients treated with ionising radiation. Given the existence of provisions concerning the specifics of the labelling of foods treated with ionising radiation, the draft Order is also notified in accordance with the requirements of the Agreement on Technical Barriers to Trade.	14/10/2022
G/SPS/N/EGY/137 16/08/2022	Egypt	<i>Food products</i>	15/10/2022

Decision No. 6 of the year 2022 of the Board of Directors concerning the binding technical rule on the permissible limits of chemical contaminants in food.

This decision governs Egyptian Food Safety Authority approach to manage the risks related to contaminants and determine the maximum limits of chemical contaminants in food for the purpose of controlling and conforming chemical pollutant levels to Codex and relevant international standards in order to achieve NFSA's main objective of ensuring that food safety requirements are fulfilled so that human health and safety can be maintained.

Ethoxyquin (6-ethoxy-1,2-dihydro-2,2,4-trimethylquinoline) as a feed additive and all types of animal feed containing ethoxyquin

Commission Implementing Regulation (EU) 2022/1375 of 5 August 2022 concerning the denial of authorisation of ethoxyquin as a feed additive belonging to the functional group of antioxidants and repealing Implementing Regulation (EU) 2017/962 (Text with EEA relevance).

The authorisation of ethoxyquin used as an antioxidant feed additive for all animal species had been suspended by Commission Implementing Regulation (EU) 2017/962 of 7 June 2017, as amended by Commission Implementing Regulation (EU) 2021/412, on the basis of the opinion of the European Food Safety Authority (EFSA) of 21 October 2015 (cf notification G/SPS/N/EU/190). The authorisation of the additive was suspended pending the submission and assessment of supplementary data to be produced by the applicant for authorisation, in accordance with a time schedule listing the necessary studies to be carried out. Implementing Regulation (EU) 2017/962 provided for a review of the suspension measure by 31 December 2022 at the latest and in any event after the adoption by EFSA of a non-favourable opinion on the safety and efficacy of the additive ethoxyquin. After assessment of the submitted supplementary data, EFSA adopted on 27 January 2022 a new opinion, which was not favourable as regards the safety of the additive, in particular for long-living and reproductive animals, for consumers and for the environment. Therefore, since the conditions for authorisation of the additive laid down by the relevant EU legislation are still not met, the authorisation of ethoxyquin had to be denied, which is the subject matter of Commission Implementing Regulation (EU) 2022/1375. The notified measure therefore confirms the withdrawal from the EU market of the feed additive ethoxyquin for use for all animal species.

G/SPS/N/CAN/1451 19/08/2022	Canada	<p><i>Certain canned vegetables (ICS code: 67.080)</i></p> <p>Notice of Modification to the List of Permitted Firming Agents to More Clearly Identify Certain Canned Vegetables.</p> <p>From time to time, Health Canada may make minor modifications to the Lists of Permitted Food Additives, such as changes to correct errors, improve clarity, achieve consistency in terms used in the Lists, or to align the Lists with amendments of Part B of the Food and Drug Regulations. These minor changes are not intended to alter</p>	18/10/2022

the permitted uses of food additives. To add clarity and to ensure consistency in terminology, Health Canada has replaced "tomatoes" with "canned tomatoes", and "canned vegetables" with "canned (naming the vegetable)" and "unstandardized canned vegetables" in the List of Permitted Firming Agents, effective 5 August 2022. The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for inquiries or feedback on this modification.
