G/SPS/N/UKR/207 05/09/2023	Ukraine	<p><i>Active substances of veterinary medicinal products</i></p> <p>Draft Order of the Ministry of Agrarian Policy and Food of Ukraine "On Approval of the Requirements of Good Practice for Distribution of Active Substances used in Veterinary Medicinal Products"</p> <p>The draft Order provides for the approval of the requirements of good practice for distribution of active substances used in veterinary medicinal products. These requirements will apply to importers and market operators, as well as to manufacturers who distribute the active substances they have manufactured with the aim of using them as starting material in veterinary medicinal products. The adoption of the Order will ensure compliance with the basic principles and rules, which guarantee that the distributed active substances are registered in accordance with the established law; their storage conditions are constantly observed, including during transportation; contamination of one with another is excluded; and delivery of goods is ensured within the specified time limits. The draft Order is aimed at improving the production of veterinary medicinal products and implementing into Ukrainian legislation the provisions of Commission Implementing Regulation (EU) 2021/1280 of 2 August 2021 as regards measures on good distribution practice for active substances used as starting materials in veterinary medicinal products in accordance with Regulation (EU) 2019/6 of the European Parliament and of the Council.</p>	04/11/2023
G/SPS/N/AUS/575 06/09/2023	Australia	<p><i>Live horses</i></p> <p>Animal biosecurity advice notice: Update to equine piroplasmiasis import conditions for horses from approved countries</p> <p>The Australian Government Department of Agriculture, Fisheries and Forestry (the department) has updated the equine piroplasmiasis related import conditions for horses from approved countries. This is in response to the World Organisation for Animal Health (WOAH) updating the Terrestrial Animal Health Code chapter for equine piroplasmiasis. The department will contact affected trading partners directly to update veterinary health certification. Trade may continue uninterrupted from countries approved to export horses to Australia.</p>

Veterinary drugs, food of animal origin

05/11/2023

Draft Law of Ukraine "On Amendments to the Law of Ukraine of 4 February 2021 No. 1206-IX on "Veterinary Medicine""

The draft Law of Ukraine "On Amendments to the Law of Ukraine of 4 February 2021 No. 1206-IX on "Veterinary Medicine"" is developed in order to improve the current legislation in the field of animal health and welfare and remove inconsistencies with the legislation of the European Union. The draft Law suggests the comprehensive regulation of the key issues related to:

- 1) ensuring animal welfare in terms of improving the procedure for financing veterinary and sanitary measures;
- 2) improvement of state veterinary and sanitary control (supervision) measures to ensure animal welfare and marketing of veterinary drugs;
- 3) production, marketing, registration and use of veterinary drugs;
- 4) issuance of accompanying veterinary documents and international veterinary certificates;
- 5) the activities of licensed veterinarians and veterinarians of licensed veterinary establishments;
- 6) alignment of licensing of business activities relating to veterinary practice, production of veterinary medicinal drugs,

wholesale and retail sale of veterinary medicinal drugs, import of veterinary medicinal drugs with the requirements of the licensing legislation;7) empowering the central executive body that implements the state policy in the field of veterinary medicine and animal welfare to approve:- criteria, the compliance with which will give educational institutions as well as organisations (unions, associations) of the relevant field the opportunity to be authorised to train specialists on the issues of compliance with the requirements of the animal welfare legislation;

- training programmes for specialists on the issues of compliance with the requirements of the animal welfare legislation;

- the form of the certificate to be issued to confirm that the relevant persons have sufficient knowledge acquired as a result of the training;8) authorisation of the central executive body that implements the state policy in the field of veterinary medicine and animal welfare to ensure the organisation of training for specialists on the issues of compliance with the requirements of the animal welfare legislation.
