G/SPS/N/SAU/572 16/09/2025	Saudi Arabia, Kingdom of	<i>Poultry meat, eggs and their products</i> Notice of Administration Order of Saudi Food and Drug Authority Ref. No. 9063 dated 31 August 2025 entitled "Temporary ban on importation of poultry meat, eggs and their products originating from Buenos Aires in Argentina" Following the WOAHP report dated 20 August 2025, a Highly pathogenic avian influenza (HPAI) virus outbreak has occurred in Buenos Aires in Argentina. In compliance with the World Organization for Animal Health (WOAH), Terrestrial Animal Health Code Chapter 10.4, it is deemed necessary for the Kingdom of Saudi Arabia to prevent the entry of the HPAI virus into the country. Therefore, the import of poultry meat, eggs and their products from Buenos Aires in Argentina to the Kingdom of Saudi Arabia is temporarily suspended (with the exception of processed poultry meat and egg products exposed to either heat or other treatments that ensure deactivation of the HPAI virus, as long as it conforms with the approved health requirements, and standards, with a health certificate issued by the official bodies in Argentina prove that the product is free from the virus).	Emergency notifications (SPS)																																								
G/SPS/N/EU/882 17/09/2025	European Union	<i>Preparations of a kind used in animal feeding (HS code(s): 2309)</i> Commission Implementing Regulation (EU) 2025/1795 of 9 September 2025 concerning the authorisation of riboflavin (vitamin B2) produced with <i>Bacillus subtilis</i> CGMCC 7.449 and a preparation of riboflavin produced with <i>Bacillus subtilis</i> CGMCC 7.449, as feed additives for all animal species (Text with EEA relevance)																																									

This Regulation authorises for the first time in the European Union and for a period of ten years riboflavin (vitamin B2) produced with *Bacillus subtilis* CGMCC 7.449 and a preparation of riboflavin produced with *Bacillus subtilis* CGMCC 7.449 as feed additives belonging to the additive category ‘nutritional additives’ and in the functional group ‘vitamins, pro-vitamins and chemically well-defined substances having similar effect’ for all animal species. This authorisation is based on the favourable conclusions of a scientific assessment of the dossier submitted by the applicant, conducted by the European Food Safety Authority (EFSA). The terms of the authorisation are detailed in the Annex to the Act.

MRLs proposed to be raised: Tomatoes (0231010); Gojiberries/wolfberries (0231010-005/0231010-006); Aubergines/eggplants (0231030); Okra/lady's fingers (0231040); Gherkins (0232020); Courgettes (0232030); Others – cucurbits – edible peel (0232990); Tea

16/11/2025

Proposed GB MRLs for dinotefuran amending the GB MRL Statutory Register

Dinotefuran is not an approved active substance in Great Britain (GB). An application was received by the Health and Safety Executive to set new MRLs for various commodities. Following assessment, new MRLs have been introduced to set Import Tolerances. The Evaluation Report and draft Reasoned Opinion supporting the new MRLs is available at the following link: The review of the MRLs and the evaluation of new MRLs for dinotefuran in or on various commodities.docx This contains full details of HSE's assessment. The residue levels arising in food and feed from the MRLs for tomatoes, aubergines/ eggplants, okra/ lady's fingers, gherkins, courgettes, other cucurbits with edible peel and tea result in UK consumer exposures below the toxicological reference values and therefore harmful effects on human health are not expected. The MRL (0.3 mg/kg) for tomatoes will apply to all varieties listed in Part 1 of the GB MRL Statutory Register, except gojiberries/wolfberries, for which a specific MRL of 0.6 mg/kg is proposed to be adopted. For peaches (the GB MRL also applies to nectarine), grapes and celeries following a review of all the available evidence, the UK's appropriate level of protection has not been met for the current GB MRLs and it is proposed to lower the MRLs to 0.01* mg/kg. For a number of commodities, no specific MRLs have been established in the GB MRL Statutory Register. Therefore, the default LOQ MRL of 0.01* mg/kg currently applies. Specific MRLs at 0.01*mg/kg – 0.05* mg/kg are proposed to be included in the GB MRL Statutory Register for these commodities. Details of these can be found in the notified document. This measure retains the previous MRLs for all other commodities.

Fish and fishery products (ICS code(s): 67.120.30)
Ministerial Decree No. 248 /2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 287 "Canned Sardines and sardine-type products"

17/11/2025

This standard specifies the basic requirements and descriptive criteria for canned sardines and sardine-type products packed in water, oil, or other suitable packing medium, as well as the methods of their inspection and testing. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.

G/SPS/N/EGY/164 18/09/2025	Egypt	<i>Fish and fishery products (ICS code(s): 67.120.30)</i> Ministerial Decree No. 248 /2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 414-2 “Canned Shrimps and Canned Crab Meat – part 2: Canned Crab Meat” This standard specifies the basic requirements and descriptive criteria for Canned Crab Meat, as well as the methods of its inspection and testing. It does not apply to specialty products where crabmeat constitutes less than 50 percent m/m of the contents. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/165 18/09/2025	Egypt	<i>Fish and fishery products (ICS code(s): 67.120.30)</i> Ministerial Decree No. 248 /2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 414-1 "Canned Shrimps and Canned Crab Meat- part 1: Canned Shrimps or canned prawns" This standard specifies the basic requirements and descriptive criteria for canned shrimps or (prawns), as well as the methods of their inspection and testing. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/166 18/09/2025	Egypt	<i>Milk and processed milk products (ICS code(s): 67.100.10)</i> Ministerial Decree No. 248 /2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 154-2 “Milk and its products Part 2: cream and prepared creams” This standard specifies the basic requirements and descriptive standards for cream and cream prepared for direct consumption or for other manufacturing purposes. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/167 18/09/2025	Egypt	<i>Cheese (ICS code(s): 67.100.30)</i> Ministerial Decree No. 248/2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 8390 "General Standard for Cheese" This standard applies to all products, intended for direct consumption or further processing, in conformity with the definition of cheese in this standard. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/168 18/09/2025	Egypt	<i>Sugar. Sugar products. Starch (ICS code(s): 67.180)</i> Ministerial Decree No. 248/2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 1903 “Powdered Sugar (icing sugar)” This standard specifies the basic requirements and descriptive characteristics for powdered sugar intended for human consumption. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025

G/SPS/N/EGY/169 18/09/2025	Egypt	<i>Animal feeding stuffs (ICS code(s): 65.120)</i> Ministerial Decree No. 248/2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 3-5 "Processed feeds- animal feeding stuffs - part 5: barley kernels in animal feed" This standard specifies the basic requirements and descriptive criteria for barley kernels used in the manufacture of feed and raw feed materials. It is worth mentioning that this standard complies with: Minister of Agriculture and Land Reclamation Decree No. 1498/1996 regarding the regulation, manufacture, circulation and control of feed; USDA Grain Inspection Handbook Book 11 Barley 2013. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/170 18/09/2025	Egypt	<i>Cheese (ICS code(s): 67.100.30)</i> Ministerial Decree No. 248/2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 1008-4 "Soft cheese - part 4: karish cheese" This standard specifies the basic requirements and descriptive characteristics for Karish cheese, together with the methods of examination and testing. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/EGY/171 18/09/2025	Egypt	<i>Animal feeding stuffs (ICS code(s): 65.120)</i> Ministerial Decree No. 248/2025 that gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 3-6 "Processed feed- animal feeding stuffs - part 6: sorghum in animal feed" This standard specifies the basic requirements and descriptive standards for sorghum grains used in the production of feed and raw feed materials. It's worth mentioning that this standard complies with: Minister of Agriculture and Land Reclamation Decree No. 1498/1996 regarding the regulation, manufacture, circulation and control of feed; USDA Grain Inspection Handbook Book 11 Barley 2013. Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.	17/11/2025
G/SPS/N/SGP/89 18/09/2025	Singapore	<i>Chilled raw pork (HS Codes: 0203, 0206, 0209, 0504)</i> Veterinary Conditions for Importation of Pork and Pork Products Following a review of the conditions for the importation of chilled pork, Singapore will be making trade facilitative amendments to the existing conditions and removing this particular condition in its entirety "Chilled pork has been produced under strict hygienic condition, vacuum packed and have a shelf life of over 6 weeks. With advancements in the meat industry, there is no longer a need to prescribe the type of packaging and shelf-life. The strict hygiene condition is also covered under existing accreditation requirements and therefore duplicative. Hence, the proposed amendments were made to facilitate trade. Other existing conditions for the importation of chilled pork will continue to apply.	

G/SPS/N/CAN/1609 19/09/2025	Canada	<i>Pectin (ICS codes: 67.220.20)</i> Modification to the List of Permitted Emulsifying, Gelling, Stabilizing or Thickening Agents to extend the use of pectin Health Canada's Food and Nutrition Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of pectin in human milk fortifier and infant formula at a maximum level of 2,000 ppm as consumed. The results of the premarket assessment support the safety of pectin for its requested uses. Consequently, Health Canada will authorize the use of pectin as described in the notice by modifying the List of Permitted Emulsifying, Gelling, Stabilizing or Thickening Agents https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/4-emulsifying-gelling-stabilizing-thickening-agents.html on 20 October 2025. This modification will come into force on the day it is published in the list. The purpose of the notice of modification (notified document) is to publicly announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.	29/11/2025
G/SPS/N/CAN/1610 19/09/2025	Canada	<i>Polysorbate 80 (ICS codes: 67.220.20)</i> Modification to the List of Permitted Emulsifying, Gelling, Stabilizing or Thickening Agents to extend the use of polysorbate 80 Health Canada's Food and Nutrition Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of polysorbate 80 in unstandardized dips at a maximum level of 0.05%. The results of the premarket assessment support the safety of polysorbate 80 for its requested uses. Consequently, Health Canada will authorize the use of polysorbate 80 as described in the notice by modifying the List of Permitted Emulsifying, Gelling, Stabilizing or Thickening Agents https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/4-emulsifying-gelling-stabilizing-thickening-agents.html on 20 October 2025. This modification will come into force on the day it is published in the list. The purpose of the notice of modification (notified document) is to publicly announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.	29/11/2025
G/SPS/N/CAN/1611 19/09/2025	Canada	<i>Pullulanase from Klebsiella pneumoniae AE-PUL (ICS codes: 67.220.20)</i> Modification to the List of Permitted Food Enzymes to authorize the use of pullulanase from a new source Health Canada's Food and Nutrition Directorate completed a premarket safety assessment of a food additive submission seeking authorization for the use of pullulanase from <i>Klebsiella pneumoniae</i> AE-PUL to be used as a food enzyme in brewers' mash and beer. The requested maximum level of use for this food enzyme is "Good Manufacturing Practice". The results of the premarket assessment support the safety of pullulanase from <i>K. pneumoniae</i> AE-PUL for its requested uses. Consequently, Health Canada will authorize	29/11/2025

the use of pullulanase from this source as described in the notice by modifying the List of Permitted Food Enzymes (<https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/5-enzymes.html>) on 20 October 2025. This modification will come into force on the day it is published in the list. The purpose of the notice of modification (notified document) is to publicly announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.

29/11/2025

Modification to the Lists of Permitted Food Additives to remove duplication and harmonize the names of certain food additives

Health Canada's Food and Nutrition Directorate intends to make corrective modifications to certain Lists of Permitted Food Additives in order to eliminate duplicate entries and to replace food additive synonyms that appear in place of the common name in some entries. These modifications will not change the permitted uses of the affected food additives and will have no impact on the labelling of prepackaged foods. Consequently, Health Canada will modify the Lists of Permitted Food Additives (<https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted.html>) as described in the notice on 20 October 2025. These modifications will come into force on the day they are published in the lists. The purpose of the notice of modification (notified document) is to publicly announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of this food additive.

Draft Commission Implementing Regulation concerning the denial of authorisation of great burdock extract from *Arctium lappa* L. as a feed additive for cats and dogs (Text with EEA relevance)

The substance great burdock extract from *Arctium lappa* L. was authorised without a time limit in accordance with Directive 70/524/EEC as a feed additive for cats and dogs. This substance was subsequently entered in the Register of Feed

Additives as existing product, in accordance with Article 10(1), point (b), of Regulation (EC) No 1831/2003. An application was submitted for the authorisation of great burdock extract from *Arctium lappa* L. as a feed additive for cats and dogs, requesting the additive to be classified in the additive category 'sensory additives' and in the functional group 'flavouring compounds'. The European Food Safety Authority (EFSA) conducted a scientific assessment of the dossier submitted by the applicant, showing that the substance does not satisfy the conditions for the authorisation provided for in Article 5 of Regulation (EC) No 1831/2003. Consequently, the proposed Act denies the authorisation and includes transitional periods for the interested parties to adjust to the denial of this substance.

Proyecto de Resolución No 07/23 - Reglamento Técnico MERCOSUR sobre Límites Máximos de Contaminantes Metálicos y Metaloides en Alimentos (Derogación de las Resoluciones GMC No 12/11 y 18/21)

Se establecen los valores máximos permitidos para arsénico, plomo, cadmio, mercurio y estaño en diversas categorías de alimentos. Se detallan criterios generales y específicos de aplicación, se define cómo se determinan los límites en productos procesados, congelados o compuestos, y se incluyen tablas con los valores máximos según tipo de alimento (cereales, carnes, pescados, lácteos, bebidas, frutas, hortalizas, entre otros). Asimismo, se deroga regulaciones anteriores (Resoluciones GMC Nos. 12/11 y 18/21).
