Ukraine

Materials and articles intended to come into contact with foodstuffs

25/11/2023

Draft Order of the Ministry of Agrarian Policy and Food of Ukraine "On approval of the Requirements for a written declaration of the conformity of materials and articles intended to come into contact with food and a list of documents confirming the information specified in the declaration".

The draft Order is developed in order to confirm by the market operator of materials and articles intended for contact with food compliance with the requirements for the relevant material or article, as well as to implement the provisions of the EU food legislation. Approval of the Requirements is provided for by the Law of Ukraine of 3 November 2022 No. 2718-IX "On Materials and Articles Intended to Come into Contact with Food", notified in document G/SPS/N/UKR/150/Rev.1. Materials and articles intended to come into contact with foodstuffs, as well as products of intermediate stages of their processing, and their components and/or substances, should be accompanied by

a written declaration, which confirms the fulfillment of the requirements for the relevant material or article at all stages of its circulation, except at the points of sale to end consumers. The purpose of the declaration of conformity is to demonstrate that materials and articles meet the requirements of the law and are safe for use. The draft Order suggests approving the Requirements to the declaration of conformity in terms of:

- General provisions;
- Requirements to the information to be contained in the declaration of conformity;
- List of supporting documents.

The Requirements cover the following materials and articles: active materials and articles, intellectual materials and articles, glues, ceramics, cork, rubber, glass, ion exchange resins, metals and alloys, paper and cardboard, plastic, printing inks, regenerated cellulose, silicon, textile, varnishes and coatings, wax, wood. The draft Order also stipulates that materials and articles intended to come into contact with foodstuffs produced before the entry into force of this Order may be in circulation until the expiry date. The draft Order is also notified under the TBT Agreement.

G/SPS/N/UKR/210 26/09/2023	Ukraine	<i>Bees including queen bees, worker bees, drones, bee families</i> Draft Resolution of the Cabinet of Ministers of Ukraine "On Amendments to the Rules for Transportation of Animals" . The draft Resolution establishes rules for: -the welfare of bees during transportation; -the welfare of bees during operations related to their transportation. The draft Resolution provides for the implementation of Ukrainian legislation in accordance with the requirements of Regulation (EU) No. 2016/429, Regulation (EU) No. 2020/688 and Regulation (EU) No. 2020/692.	25/11/2023
G/SPS/N/BRA/2217 27/09/2023	Brazil	<i>Environment. Health protection. Safety (ICS code(s): 13)</i> Draft Resolution 1205, of 21 September 2023. This draft resolution proposes the inclusion of active ingredient P74 -PRESTIA MEGATERIUM on the Monograph List of Active Ingredients for Pesticides, Household Cleaning Products and Wood Preservatives, which was published by Normative Instruction 103 on 19 October 2021 in the Brazilian Official Gazette (DOU -Diário Oficial da União).	24/11/2023
G/SPS/N/EU/680 27/09/2023	European Union	<i>Food products</i> Draft Commission Regulation amending Annex I to Regulation (EC) No. 1334/2008 of the European Parliament and of the Council as regards the removal of certain flavouring substances from the Union list (text with EEA relevance). The text removes from the Union List of flavourings as laid down in Annex I to Regulation (EC) No. 1334/2008 a number of flavouring substances for which when the European Food Safety Authority had requested additional scientific data in order to complete their assessment the operators responsible for placing the following eight substances on the market as flavouring substances did not submit the required data and withdrew their respective applications. The substances concerned are: 2-Phenylpent-2-enal (FL No. 05.175); 2-	26/11/2023

		Phenyl-4-methyl-2-hexenal (FL No. 05.222); 2-(sec-Butyl)-4,5-dimethyl-3-thiazoline (FL No. 15.029); 4,5-Dimethyl-2-ethyl-3-thiazoline (FL No. 15.030); 2,4-Dimethyl-3-thiazoline (FL No. 15.060); 2-Isobutyl-3-thiazoline (FL No. 15.119); 5-Ethyl-4-methyl-2-(2-methylpropyl)-thiazoline (FL No. 15.130); 5-Ethyl-4-methyl-2-(2-butyl)-thiazoline (FL No. 15.131)	
G/SPS/N/EU/681 27/09/2023	European Union	<i>Food products</i> Draft Commission Regulation amending Annex I to Regulation (EC) No. 1334/2008 of the European Parliament and of the Council as regards the introduction of restrictions on these of certain flavouring substances (text with EEA relevance). The text limits the conditions of use of 2-Phenyl-2-butenal (FL No. 05.062), 5-Methyl-2-phenyl-2-hexenal (FL No. 05.099) and 4-Methyl-2-phenyl-2-pentenal (FL No. 05.100) to their current use, following an evaluation by the European Food Safety Authority that could not rule out an in vivo potential aneugenicity for these substances and pending the re-evaluation by the Authority of the additional data from the interested business operators	26/11/2023
G/SPS/N/CHE/95 27/09/2023	Switzerland	<i>Invasive alien plants; live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage (HS code(s): 06); environmental protection (ICS code(s): 13.020)</i> Draft amendments to the Ordinance of 10 September 2008 on the Handling of Organisms in the Environment. Since 2008, it is prohibited in Switzerland to handle, i.e. to deliberately use, 14 invasive alien plant and animal species (or groups of species) in the environment. Exempt from the ban are measures to control these species and the handling of therapeutic products, food and animal feed. In order to bring legislation in line with the current state of scientific knowledge and thus to better protect human, animal and plant health as well as biodiversity against the threats posed by invasive alien plants, the prohibition shall be extended to eleven other plant species (or groups of species). In addition to this, by means of the draft project, a ban on marketing 27 invasive alien plant species will be introduced. Their sale as well as their import will be prohibited. Thus the marketing of a total of 49 invasive alien plant species (or group of species) will be banned. The draft amendments implement Switzerland's obligations under the CBD. Similar restrictions exist in the EU.	26/11/2023
G/SPS/N/CHL/769 28/09/2023	Chile	<i>Castañas de Cajú (Anacardium occidentale)</i> Establece requisitos fitosanitarios de importación para frutos secos de castañas de Cajú (Anacardium occidentale) producidos en todo origen. Se establecen requisitos fitosanitarios de importación para frutos secos de castañas de Cajú (Anacardium occidentale) producidos en cualquier origen, entre los cuales se destacan aspectos sobre: -Certificado Fitosanitario Oficial del país de origen, con la siguiente declaración adicional: "El envío fue sometido a un tratamiento para el control de Trogoderma granarium (Col., Dermestidae) y Corcyra cephalonica (Lep., Pyralidae) " -Tratamientos de fumigación aceptados -Declaración adicional alternativa aceptada	27/11/2023
