G/SPS/N/EU/888 29/09/2025	European Union	<i>Products of animal origin, animal by-products and composite products</i> Draft Commission Implementing Regulation amending Implementing Regulation (EU) 2021/632 as regards the lists of products of animal origin, animal by-products and composite products subject to official controls at border control posts. In accordance with Regulation (EU) 2017/625 on official controls on the agri-food chain, the Commission shall, by means of implementing acts, establish lists of animals, products of animal origin, germinal products, animal by-products and derived products, composite products, hay and straw that are subject to official controls at the border control posts. The lists have been established by way of Commission Implementing Regulation (EU) 2021/632. It is necessary to update the Annex to Implementing Regulation (EU) 2021/632 to include certain products of animal origin, animal by-products, and composite products, which are currently missing from the list of products subject to official controls at border control posts. It is therefore appropriate to add the headings and CN codes 1301, 2008 19, 2106 90 55, 2933, 3002 13, 3002 14, 3002 15, 3105 90, 3821, 3823 and 3824 in the list set out in the Annex to Implementing Regulation (EU) 2021/632 in order to avoid any ambiguity as regards which consignments of goods are subject to official controls at border control posts.	28/11/2025
G/SPS/N/JPN/1375 29/09/2025	Japan	<i>Phytase as a feed additive</i> Proposed revision of Ministerial Ordinance on the Specifications and Standards of Feeds and Feed Additives. MAFF will add standards and specifications of Phytase No. 2(8) to the "Ministerial Ordinance on the Specifications and Standards of Feeds and Feed Additives" (Ordinance No. 35 of 24 July 1976 of the Ministry of Agriculture and Forestry). With this amendment, Phytase No.2(8) as a feed additive will become eligible for import into Japan.	
G/SPS/N/COL/399 30/09/2025	Colombia	<i>Semilla de pimentón (Capsicum annuum)</i> Proyecto de resolución "Por medio de la cual se establecen los requisitos fitosanitarios para la importación a Colombia de semillas de pimentón (Capsicum annuum) de origen y procedencia India, para uso siembra, comercial y ensayo". La medida busca establecer los requisitos fitosanitarios para la importación a Colombia de semillas de pimentón (Capsicum annuum) de origen y procedencia India, para siembra, uso comercial y ensayo.	29/11/2025
G/SPS/N/COL/400 30/09/2025	Colombia	<i>Tallos Porta Yemas de Rosa sp. para ensayo, uso comercial y siembra</i> Proyecto de resolución del Instituto Colombiano Agropecuario "Por medio de la cual se establecen los requisitos fitosanitarios para la importación a Colombia	29/11/2025

		de Tallos Porta Yemas de Rosa sp. de origen y procedencia de Dinamarca para ensayo, uso comercial y siembra". La medida busca establecer los requisitos fitosanitarios para la importación a Colombia de Tallos Porta Yemas de Rosa sp. de origen y procedencia Dinamarca para ensayo, uso comercial y siembra.

Import restrictions on pistachios and pistachio products from the Islamic Republic of Iran and changes to Canadian Food Inspection Agency requirements for Import of pistachios and pistachio products from other origins.

The Canadian Food Inspection Agency (CFIA) is the competent authority responsible for establishing, implementing, and enforcing Canada's import requirements for food products.

□Imported pistachios and pistachio-containing products originating from the Islamic Republic of Iran are currently implicated in several illnesses(<https://www.canada.ca/en/public-health/services/public-health-notices/2025/outbreak-salmonella-infections-pistachios-related-products.html>) and recalls(<https://inspection.canada.ca/en/inspection-and-enforcement/food-safety-investigations/pistachio-recall-salmonella>) in Canada due to contamination with Salmonella.

□Temporary Import Restriction for products from Islamic Republic of Iran.

Effective 27 September 2025, the Canadian Food Inspection Agency will refuse entry of pistachios and pistachio products originating from the Islamic Republic of Iran that are exported on or after this date. Shipments exported prior to this date and currently in transit will be subject to hold-and-test requirements before being released into commerce. This will be reflected in the Canadian Food Inspection Agency's Automated Import Reference System (AIRS).

□Licence Condition for products from all other origins

o The Canadian Food Inspection Agency will implement a condition under the Safe Food for Canadians licence for all shipments of pistachios and pistachio products originating from all countries other than the Islamic Republic of Iran. The licence condition will have two elements:

□ Importers will have to provide a proof of origin demonstrating non-Iranian origin of the shipment; OR

□ If a proof of origin is not provided, the shipment will be subject to the hold and test requirements.

These measures will remain in place while the Canadian Food Inspection Agency analyzes information from its ongoing food safety investigations, surveillance and inspections of importers.

G/SPS/N/CAN/1615 02/10/2025	Canada	<i>Any articles of chapter 44 with components of ash wood (Fraxinus spp.), mostly ash logs (HS code: 44.03.99) and ash lumber (HS code: 44.07.95)</i> RMD-25-01 Emerald Ash Borer management in Canada. With most of the ash (Fraxinus spp.) population being infested in Eastern Canada (Ontario, Québec, New Brunswick and Nova Scotia) and the pest continuing to spread, the Canadian Food Inspection Agency (CFIA) intends to reevaluate its management strategy for the emerald ash borer (Agrilus planipennis), and consult with partners, industry, stakeholders and Indigenous Peoples on the best way forward. The risk management document (RMD) outlines four options for managing EAB in Canada that are proposed for consultation. The CFIA is supporting option 2, which expands the regulated area to include entire provinces where EAB is already present in Eastern Canada. The CFIA will review the feedback received through this consultation and make a final decision in early 2026. Any resulting changes are expected to be implemented in March 2026.	30/11/2025
G/SPS/N/KEN/344 02/10/2025	Kenya	<i>Cloves, whole fruit, cloves and stems, crushed or ground (HS code(s): 090720); Spices and condiments (ICS code(s): 67.220.10)</i> DEAS 918: 2025, Cloves, whole and ground (powdered) — Specification, Second Edition. Proposed GB MRLs for emamectin amending the GB MRL Statutory Register.

Emamectin is not an approved active substance in Great Britain (GB); its approval status expired on 30 November 2024. An application was received by the Health and Safety Executive to set new maximum residue level (MRL) for apricots, cherries (sweet), peaches, kiwi (green, red, yellow), and herbal infusions (leaves and herbs). Following an assessment, the following MRLs have been increased to set Import Tolerances for emamectin on various commodities: Apricots 0.05mg/kg, Cherries (sweet) 0.04mg/kg, Peaches 0.05mg/kg, Kiwi (green, red, yellow) 0.15mg/kg, Herbal infusions (leaves and herbs) 2.0mg/kg. The Evaluation Report/ Reasoned Opinion supporting these new MRLs is available at the following link: <https://www.hse.gov.uk/pesticides/assets/docs/mrln-abq-0985.pdf>. The residue levels arising in food from the notified uses result in consumer exposures below the toxicological reference values and therefore harmful effects on human health are not expected. As the residue levels exceed the current MRLs in force, new MRLs are being adopted.
