Draft Order approving certain protective measures relating to certain products of animal origin intended for animal feed and imported from Ukraine

The Draft Order establishes the Protective Measures for some animal origin products intended for animal consumption and imported from Ukraine transposing into national legislation the provisions of Directive (EC) 2002/805, including the restrictive measure: of a temporary interdiction or a special authorization regime on import of powdered milk and powdered formula obtained from powdered milk for animal feed, originating from Ukraine; and the obligation of sampling to detect the presence of chloramphenicol for every batch of this type, before market placement. The act aims to protect animal health, ensure a rigorous mechanism for verification of conformities, harmonize the legal framework with European standards, and facilitate international trade.

Milk and dairy products

Draft Order of the Ministry of Agrarian Policy and Food of Ukraine “On Amendments to the Order of the Ministry of Agrarian Policy and Food of Ukraine No. 118 of 12 March 2019” (concerning the Requirements for the Safety and Quality of Milk and Dairy Products)

The draft Order proposes amendments to Order of the Ministry of Agrarian Policy and Food of Ukraine of 12 March 2019 No. 118 "On Approval of the Requirements for Safety and Quality of Milk and Dairy Products", in particular with regard to: establishing specific calendar dates for the mandatory application of criteria to raw milk, replacing the reference to the date of termination or cancellation of martial law, namely 1 January 2029 and 1 January 2028, respectively; adding a definition of the term “milk raw material” and clarifying the terminology in accordance with the legislation; extending the exemption for own consumption to the preparation, processing and storage of dairy products; introducing requirements for demonstrating the representativeness of raw milk samples with regard to fat and protein content, as well as criteria for sample unsuitability and the consequences of determining such unsuitability; supplementing the list of research (testing) methods with reference methods for determining fat and protein content and expanding the list of alternative analytical methods; clarifying the conditions for the use of milk and colostrum that do not meet the established requirements. The draft Order is also notified under the TBT Agreement as regards requirements for materials and articles intended to come into contact with milk and dairy products, as well as identification marking and related information requirements.

Veterinary medicinal products

Draft Order of the Ministry of Agrarian Policy and Food of Ukraine “On Approval of the Requirements for Good Distribution Practice of Veterinary Medicinal Products”

The draft Order provides for the approval of the Requirements for Good Distribution Practice of Veterinary Medicinal Products. These Requirements are mandatory for veterinary medicinal product market operators holding a licence to carry out activities involving the manufacture and import of veterinary medicinal products and their wholesale distribution, as well as for veterinary medicinal product market operators holding a licence to carry out wholesale distribution of veterinary medicinal products, including those operating under special customs regimes, such as free zones or customs warehouses.

The draft Order establishes Good Distribution Practice requirements for veterinary medicinal products regarding:

- quality management, including the quality system;
- personnel, including personnel training;
- premises, equipment, computerized systems, qualification of equipment and validation of processes;
- documentation, procedures and record-keeping;
- operations, including the approval of suppliers and customers, requirements for the receipt and storage of veterinary medicinal products, the destruction of unsuitable veterinary medicinal products, order picking, supply and export;
- handling of complaints, returned and falsified veterinary medicinal products, and the recall of veterinary medicinal products from the market;
- activities of third-party contractors;
- self-inspections;
- transportation of veterinary medicinal products, including those requiring special transportation conditions.

G/SPS/N/EU/975 02/10/2026	European Union	<i>Preparations of a kind used in animal feeding (HS code(s): 2309)</i> Draft Commission Implementing Regulation concerning the authorisation of anise tinctures from <i>Pimpinella anisum</i> L. as feed additives for certain animal species and anise essential oil from <i>Pimpinella anisum</i> L. as a feed additive for certain animal species and the withdrawal from the market of these feed additives for all other animal species (Text with EEA relevance)	01/12/2026

Two anise tinctures and anise essential oil from *Pimpinella anisum* L. were initially authorised in accordance with Directive 70/524/EEC as feed additives for all animal species in the category of 'sensory additives' and in the functional group 'flavouring compounds'. Applications were later submitted for the reauthorisation of these substances in accordance with article 10 of Regulation (EC) No 1831/2003. Based on the conclusions of the scientific assessments of the dossiers submitted by the applicants, conducted by the European Food Safety Authority (EFSA), it is proposed to reauthorise these substances as feed additives for certain animal species in the additive category of 'sensory additives' and in the functional group 'flavouring compounds', under certain conditions detailed in the Annex to the draft Act. In addition, the proposed measure aims to withdraw the placing on the market of these substances in respect of the animal species and categories other than those mentioned in the Annex. Transitional periods are laid down for the interested parties to prepare themselves to meet the requirement concerning the new authorisation of the concerned substances and their withdrawal from the market in respect of the animal species and categories other than those mentioned in the Annex.
