G/SPS/N/AUS/548 25/10/2022	Australia	<i>Live domestic dogs and cats and canine semen</i> Review of the rabies virus risk in imported dogs, cats and canine semen from approved countries –draft report. Australia has released a draft review of the rabies virus risk in imported dogs and cats and canine semen from approved countries for public comment on 20 October 2022. There will be a 30-day consultation period prior to finalisation due to the serious nature of the biosecurity risk. Stakeholders are invited to provide comments on the technical aspects of the proposed measures by 21 November 2022.	21/11/2022
G/SPS/N/AUS/549 25/10/2022	Australia	<i>Mushrooms and truffles : (HS code(s): 07095)</i> Amendments to the additional declaration for mushrooms and truffles for human consumption. Following a review of the mushrooms and truffles for human consumption pathway, the Department of Agriculture, Fisheries and Forestry has updated the text in the additional declaration required to reflect the biosecurity management of fresh truffles. Fresh truffles will now require one of the following additional declarations: "The product was harvested in the wild and are not cultivated" Or "The product was grown on a substrate totally free of animal products including animal by-products and faeces, and has not been subsequently contaminated with animal by-products or faeces" Or "The product was grown on a substrate which was autoclaved at a gauge pressure of 105kPa (15 psi) to achieve a minimum substrate temperature of 121°C for 30 minutes and has not been subsequently contaminated with animal by-products or faeces."	24/12/2022
G/SPS/N/BDI/16 25/10/2022	Burundi	<i>Waters, including natural or artificial mineral waters and aerated waters, not containing added sugar or other sweetening matter nor flavoured; ice and snow (HS code(s): 2201)</i> DEAS 153: 2022, Packaged drinking water — Specification. This Draft East African Standard specifies requirements, sampling and test methods for packaged drinking water for direct human consumption.	24/12/2022
G/SPS/N/BDI/17 25/10/2022	Burundi	<i>Waters, including natural or artificial mineral waters and aerated waters, not containing added sugar or other sweetening matter nor flavoured; ice and snow (HS code(s): 2201)</i> DEAS 12: 2022, Potable water —Specification. This Draft East African Standard specifies requirements, sampling and test methods for potable water intended for direct human consumption, domestic and industrial use.	24/12/2022
G/SPS/N/BDI/18 25/10/2022	Burundi	<i>Vegetable seeds (HS code(s): 120991); Plant growing (ICS code(s): 65.020.20)</i>	24/12/2022

G/SPS/N/BDI/19 25/10/2022	Burundi	<p>DEAS 1099:2022, Tomato seed -Requirements for certification, First Edition.</p> <p>This Draft East Africa Standard specifies the certification requirements for pre-basic, basic and certified seed certification for tomato seeds (<i>Solanum lycopersicum</i>), eligible varieties, application for certification, field requirements, field inspection, sampling, laboratory testing, certificates, packaging, labelling, and post-control tests. This standard also applies to locally produced and imported seeds.</p>	24/12/2022
		<p><i>Other live plants (including their roots), cuttings and slips; mushroom spawn (HS code(s): 0602); Plant growing (ICS code(s): 65.020.20)</i></p> <p>DEAS 1035: 2020, Banana seeds -Requirements for certification, First Edition.</p> <p>This Working Draft East African Standard specifies the requirements for certification for banana (<i>Musasp.</i>) seed. It applies to tissue culture, macro-propagation and conventionally produced planting materials. The Draft Standard specifies the certification requirements for pre-basic, basic and certified seed of banana (<i>Musa L. species</i>). It includes requirements for tissue culture, macro-propagation and conventionally produced planting materials categories, eligible varieties, application for certification, specific nurseries and field requirements, field inspection, size of the suckers and plantlets, certificates, packaging, labelling, and post-control tests.</p>

G/SPS/N/CAN/1462 26/10/2022	Canada	<p><i>Extend the Use of Calcium Lactate and Sodium Alginate to Encapsulated Unstandardized Alcoholic Beverages (ICS Codes: 67.220.20; 67.160.10)</i></p> <p>Notice of Modification to the List of Permitted Food Additives with Other Accepted Uses to Extend the Use of Calcium Lactate and Sodium Alginate to Encapsulated Unstandardized Alcoholic Beverages.</p> <p>Health Canada's Food Directorate completed a premarket safety assessment of two food additive submissions that together sought approval for the joint use of calcium lactate and sodium alginate in to manufacture whisky-based cocktails encapsulated in calcium alginate membrane-bound spheres. Calcium lactate and sodium alginate are already permitted foods additives in Canada. The results of the premarket assessment support the safety of calcium lactate and sodium alginate for manufacturing calcium alginate membrane-bound spheres of whisky-based cocktails and other unstandardized alcoholic beverages. Consequently, Health Canada has extended the use of calcium lactate and sodium alginate described in the information document by modifying the List of Permitted Food Additives with Other Accepted Uses, effective 21 October 2022. The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for those wishing to submit an inquiry or new scientific information relevant to the safety of these food additives.</p>	03/01/2023

Additifs alimentaires autorisés à être utilisés dans les produits primaires et les produits alimentaires

25/12/2022

Projet d'Arrêté conjoint modifiant et complétant l'arrêté conjoint n°1795-14 du 14 mai 2014 fixant la liste et les limites des additifs alimentaires autorisés à être utilisés dans les produits primaires et les produits alimentaires, ainsi qu'aux indications que doivent porter leurs emballages.

Le présent projet d'arrêté conjoint modifiant l'arrêté n°1795-14 du 14 mai 2014 a pour objectif :-La mise à jour de la liste des additifs alimentaires autorisés pour se conformer aux standards internationaux en la matière;-La fixation des spécifications de ces additifs alimentaires afin d'éviter les pratiques frauduleuses pouvant mettre en danger la santé du consommateur. En outre, le présent projet d'arrêté conjoint, dans un souci de transparence vis-à-vis du consommateur, fixe:-une liste des catégories fonctionnelles des additifs alimentaires sur la base de la fonction technologique exercée par l'additif dans le produit alimentaire ; -une liste des colorants alimentaires pour lesquels l'étiquetage des produits alimentaires les contenant doit comporter une mention supplémentaire.

Fresh table grapes

25/12/2022

Ministry for Primary Industries Standard 152.02: Importation and Clearance of Fresh Fruit and Vegetables into New Zealand.

MPI is proposing to change the phytosanitary measure required for importing table grapes from the Republic of Korea, from pest free area to appropriate pest control activities. MPI is also proposing the addition of new phytosanitary treatment options for importing table grapes from Chile (cold treatment) and California, United States of America (cold treatment, combined ozone fumigation and cold treatment, and an additional methyl bromide schedule).

Live poultry and poultry carcasses (HS Code(s): 0105, 0207, 0407, 0408, 0505)

The DLD order on temporary suspension of importation of live poultry and poultry carcasses from Indonesia to prevent the spread of Highly Pathogenic Avian Influenza.

According to the announcement of the Government Gazette dated 11 July 2022, the suspension for importation of live poultry and poultry carcasses from Indonesia has expired on 13 October 2022. However, the WOAHA has reported, Highly Pathogenic Avian Influenza (HPAI) is an endemic disease in Indonesia. Therefore, it is necessary for Thailand to prevent the entry of Highly Pathogenic Avian Influenza (HPAI) disease into the country. By the virtue of Animal Epidemics Act B.E. 2558 (2015), the importation of live poultry and poultry carcasses from Indonesia is temporarily suspended for a period of 90 days since 14 October 2022 onward in the Thai Royal Gazette.
