Live poultry (HS code: 0105), day-old chicks (HS code: 0105.11), hatching eggs, and poultry products including poultry meat (HS code: 0207) except heat-treated products
United Arab Emirates is imposing a temporary ban on the importation of domestic and wild birds and their untreated by-products from Ireland.

Following the notification published by the World Organization for Animal Health (OIE) regarding the outbreak of Highly Pathogenic Avian Influenza Virus (HPAI) in Ireland, the United Arab Emirates is applying a precautionary sanitary measure to prevent the risk of introducing HPAI virus through the imports of live birds and their products from Ireland.

These measures include:

1. Temporary ban on the importation of domestic and wild birds and their untreated by-products and day-old chicks and hatching eggs from Ireland to the United Arab Emirates;
2. Continue to allow the importation of heat-treated poultry products (treated meat and treated egg products) in addition to the heat-treated by-products from Ireland;
3. Continue to allow the entry of consignments of unheat-treated table eggs according to the health certificate approved between the two countries;
4. Allow the entry of consignments of unheat-treated poultry meat from areas (according to the second administrative division (county)) that are not infected, by provided the approved health certificate appendix for export of poultry meat and its products;
5. Consignments of unheat-treated poultry meat and its products produced after 1 November 2022 from Monaghan in Ireland are not allowed to be exported to the United Arab Emirates.

Feed additives

Notifying Great Britain's register of feed additive authorisations and the authorisation of eleven feed additives for the GB market.

The UK Food Safety Authorities are notifying Members of GB's feed additives authorisation register and the authorisation of eleven feed additives for use in the GB market consisting of new authorisations, renewals, modifications and a re-evaluation of an existing feed additive.

These authorisations are made on the basis of the uses and specifications set out in the consultations linked in section 9.

The eleven feed additives are:

Authorisation as a new feed additive (or new use):

- RP15 (3b509) - Manganese chelate of lysine and glutamic acid
- RP27 (1k20759) - Lactobacillus buchneri DSM 29026
- RP65 (4a13) - Serine protease (EC 3.4.21.)-produced by Bacillus licheniformis DSM19670
- RP161 (4b1828) -Bacillus licheniformis DSM 28710
- RP808 (4a32) -6-phytase produced by Komagataella phaffii-DSM 32854

Renewal of authorisation:

- RP96 (3a831) - Pyridoxine hydrochloride (vitamin B6)
- RP130 (4b1702) -Saccharomyces cerevisiae CNCM I-4407

Renewal and a new use:

- RP664 (4b1830) - Clostridium butyricum FERM BP-2789

Renewal, modification and new use:

- RP131 (4b1823) - Bacillus velezensis ATCC PTA-6737 (formerly Bacillus subtilis ATCC PTA-6737)

Re-evaluation:

- RP1030 (51756i) - Decoquinat (Deccox®)

Modification:

- RP419 (51756ii) - Decoquinat (Avi-Deccox®)

For more information on the authorisations please see the table in the attached Annex.

Poultry meat and egg products

Import suspension of poultry meat and egg products from Logan County in Kentucky and Warren County in New Jersey in the United States of America.

In order to prevent the introduction of High Pathogenicity Avian Influenza (HPAI) virus into Japan, MAFF has suspended the import of poultry meat and egg products from Logan County in Kentucky and Warren County in New Jersey in the United States of America, including those

		<p>shipped through third countries, since 21 October 2022, based on Articles 37 and 44 of the "Act on Domestic Animal Infectious Disease Control" and "Animal Health Requirements for the poultry meat etc. to be exported to Japan from the United States".</p>	
<p>G/SPS/N/JPN/1150 25/11/2022</p>	Japan	<p><i>Live poultry, poultry meat and egg products</i></p> <p>Import suspension of live poultry, poultry meat and egg products from the State of Delaware in the United States of America.</p> <p>In order to prevent the introduction of High Pathogenicity Avian Influenza (HPAI) virus into Japan, MAFF has suspended the import of live poultry, poultry meat and egg products from the State of Delaware in the United States of America, including those shipped through third countries, since 3 October 2022, based on Articles 37 and 44 of the "Act on Domestic Animal Infectious Disease Control", "Animal Health Requirements for day-old chicks and hatching eggs to be exported to Japan from the United States" and "Animal Health Requirements for the poultry meat etc. to be exported to Japan from the United States".</p>	
<p>G/SPS/N/JPN/1151 25/11/2022</p>	Japan	<p><i>Poultry meat and egg products</i></p> <p>Import suspension of poultry meat and egg products from the State of Utah in the United States of America.</p> <p>In order to prevent the introduction of High Pathogenicity Avian Influenza (HPAI) virus into Japan, MAFF has suspended the import of poultry meat and egg products from the State of Utah in the United States of America, including those shipped through third countries, since 20 October 2022, based on Articles 37 and 44 of the "Act on Domestic Animal Infectious Disease Control" and "Animal Health Requirements for the poultry meat etc. to be exported to Japan from the United States".</p>	
<p>G/SPS/N/MAR/92 25/11/2022</p>	Morocco	<p><i>Oiseaux de toutes espèces, de volailles, œufs, ovoproduits et aliments pour animaux</i></p> <p>Use of a Non-Destructive Surface Sampling Device To Sample Domestic Beef Manufacturing Trimmings and Bench Trim.</p> <p>Suite à la déclaration des cas d'influenza aviaire hautement pathogène chez la volaille au Danemark, l'importation de la volaille, des oiseaux autres que la volaille, d'œufs et d'ovoproduits est suspendue à partir de ce pays. Cette interdiction ne concerne pas les ovoproduits ayant subi un traitement thermique permettant la destruction du virus de la grippe aviaire hautement pathogène, conformément aux recommandations de l'OIE. Ainsi, à l'importation, les produits précités doivent être accompagnés, en plus du certificat sanitaire, d'une attestation délivrée par les autorités sanitaires du Danemark précisant qu'ils ont subi le traitement précité.</p>	
<p>G/SPS/N/USA/3359 25/11/2022</p>	United States of America	<p><i>Bovine meat products</i></p> <p>Suspension de l'importation de la volaille, des oiseaux de toute espèce, d'œufs et d'ovoproduits à partir du Danemark.</p> <p>On 1 February 2023, the US Department of Agriculture, Food Safety and Inspection Service (FSIS) intends to stop</p>	23/01/2023

using the N60 excision sampling method to sample domestic beef manufacturing trimmings and bench trim for adulterant Shiga toxin-producing Escherichia coli (E. coli)(STEC) and Salmonella. FSIS intends to replace the N60 excision sampling method with a non-destructive surface sampling method that uses a cloth manual sampling device. FSIS has found that the cloth sampling method is as effective as the N60 excision sampling method at recovering organisms in beef manufacturing trimmings. Additionally, the cloth sampling method is faster and safer for FSIS inspection program personnel (IPP) to use because it does not require IPP to use hooks or knives to collect samples. Moreover, the cloth sampling method allows FSIS to sample without destroying product, which reduces food waste.
