**D-98-08 Entry requirements for wood packaging material into Canada G/SPS/N/CAN/1425** Canada is proposing revisions to the Canadian Food Inspection Agency's (CFIA) directive on wood packaging material (WPM): **D-98-08 Entry requirements for wood packaging material into Canada.** This directive provides the requirements for the entry of all wood packaging materials (WPM) including dunnage, pallets, or crating made from wood entering Canada from all areas except the continental United States (U.S.). Revisions to D-98-08 are intended to mirror recent ISPM 15 updates and more importantly to include the new shipborne dunnage program, which was notified to the SPS Committee in G/SPS/N/CAN/1359 and G/SPS/N/CAN/1359/Add.1. The shipborne dunnage program combines forest pest mitigation measures with a flexible and easy-to-apply approach that also promotes and encourages the use of ISPM 15 compliant material.

**Draft Regulation of Indonesian Food and Drug Authority of The Republic of Indonesia on Heavy Metals Contaminants Requirements in Processed Food**

G/SPS/N/IDN/142 Due to developments in food science and technology, Indonesian Food and Drug Authority of The Republic of Indonesia has revised the requirements of heavy metal contaminants in processed food. This regulation sets out the maximum levels of specified heavy metals, i.e. arsenic, cadmium, mercury, lead and tin, in processed food. Once this new regulation is issued, the previous regulation (Regulation of Indonesian Food and Drug Authority of The Republic of Indonesia Number 5 Year 2018 on Maximum Level of Heavy Metals Contaminants in Processed Food) is declared to be invalid.
