G/SPS/N/MEX/415 19/12/2022	Mexico	<i>Semilla de cebada (Hordeum vulgareL.)</i> Requisitos fitosanitarios para la importación a México de semilla de cebada (Hordeum vulgareL.), para uso simiente. Con base al Acuerdo sobre la Aplicación de Medidas Sanitarias y Fitosanitarias, se comunica que la Secretaria de Agricultura y Desarrollo Rural y el Servicio Nacional de Sanidad, Inocuidad y Calidad Agroalimentaria determinó los requisitos fitosanitarios para la importación a México de semilla de cebada (HordeumvulgareL.), para uso simiente originaria y procedente de Alemania.	17/02/2023
G/SPS/N/MEX/416 19/12/2022	Mexico	<i>Semilla de albahaca(Ocimum basilicum)para uso simiente</i> Requisitos fitosanitarios para la importación a México de semilla de albahaca (Ocimum basilicum), para uso simiente. Con base al Acuerdo sobre la Aplicación de Medidas Sanitarias y Fitosanitarias, se comunica que la Secretaria de Agricultura y Desarrollo Rural y el Servicio Nacional de Sanidad, Inocuidad y Calidad Agroalimentaria determinó los requisitos fitosanitarios para la importación a México de semilla de albahaca (Ocimumbasilicum), para uso simiente, originaria y procedente de Italia.	17/02/2023
G/SPS/N/PER/1000 19/12/2022	Peru	<i>Semillas de tomate, para siembra (Código SA: 120991)</i> Resolución Directoral No. 0037-2022-MIDAGRI-SENASA-DSV. La norma modifica la Resolución Directoral No. 0018-2022-MIDAGRISENASA-DSV, e incluye una nueva opción de declaración adicional para la importación de semillas de tomate (Solanum lycopersicum) de origen y procedencia: Alemania, Australia, Estado Plurinacional de Bolivia, Chile, China, República Popular Democrática de Corea, República de Corea, Dinamarca, Estados Unidos de América, Francia,Guatemala, India, Israel, Italia, Japón, Kenya, Letonia,Marruecos, México, NuevaZelandia, PaísesBajos, Pakistán, República Democrática Popular Lao, Sudáfrica, Tailandia, TaipeiChino, Tanzania, TürkiyeyVietNam.	
G/SPS/N/CAN/1468 20/12/2022	Canada	<i>Pesticide floryprauxifen-benzyl in or on various commodities (ICScodes: 65.020, 65.100, 67.040, 67.060, 67.080, 67.100, 67.120, 67.200)</i> Proposed Maximum Residue Limit: Florpyrauxifen-benzyl (PMRL2022-23). The objective of the notified document PMRL2022-23 is to consult on the listed maximum residue limits (MRLs) for floryprauxifen-benzyl that have been proposed by Health Canada's Pest Management Regulatory Agency (PMRA). The commodities included in the listed crop groups/subgroups can be found on theResidueChemistry Crop Groups webpage in the Pesticides section of the Canada.ca website.	28/02/2023

G/SPS/N/BRA/2122 21/12/2022	Brazil	<p><i>Zucchini seeds (Cucurbita pepo)</i> ORDINANCE SDA No. 715, OF 15 DECEMBER 2022 -Establish the phytosanitary requirements for importing zucchini seeds (Cucurbita pepo) from any source, with the exception of MERCOSUR. Establish the phytosanitary requirements for importing zucchini seeds (Cucurbita pepo) from any source, with the exception of MERCOSUR.</p>
G/SPS/N/BRA/2123 21/12/2022	Brazil	<p><i>Chili and Pepper seeds (Capsicum annum)</i> ORDINANCE SDA No. 717, OF 16 DECEMBER 2022 -Establishes the phytosanitary requirements for the importation of Chili and Pepper seeds (Capsicum annum) from any origin, with the exception of MERCOSUR.Language(s):Portuguese. Establishes the phytosanitary requirements for the importation of Chili and Pepper seeds (Capsicum annum) from any origin, with the exception of MERCOSUR.</p>
G/SPS/N/JPN/1164 21/12/2022	Japan	<p>– <i>Seeds for planting (originated in Thailand) of the following plants: Sweet pepper (chili pepper, shishito pepper, bell pepper) (Capsicum annum), tomato (including Lycopersicon esculentum(syn. Solanum lycopersicum), Solanum arcanum, Solanum cheesmaniae, Solanum chilense, Solanum galapagense, Solanum peruvianum, Solanum pimpinellifolium)</i> – <i>Live plants and plant parts being capable of planting for cultivation (excluding seeds and fruits) (originated in Thailand) of the following plants:Gloxinia(Seemannia) gymnostoma, Gloxinia(Seemannia) nematanthodes, Gloxinia(Seemannia) purpurascens, Columnea erythrophaea, Solanum stramoniiifolium, sweetpepper (chili pepper, shishito pepper, bell pepper) (Capsicum annum), tomato (including Lycopersicon esculentum(syn. Solanum lycopersicum), Solanum arcanum, Solanum cheesmaniae, Solanum chilense, Solanum galapagense, Solanum peruvianum, Solanum pimpinellifolium), Nematanthus wettsteinii, Brunfelsia undulata</i> Emergency measures to mitigate the risk of introducing Columnea latent viroid(CLVd). To prevent the introduction of CLVd into Japan, the Ministry of Agriculture, Forestry and Fisheries of Japan (MAFF) will require National Plant Protection Organizations (NPPO) of exporting countries to certify that: a) for seeds for planting originated in Thailand i) The samples randomly taken from parent plants and ones with suspected symptoms are tested by an appropriate genetic method such as RT-PCR assay and found to be free from Columnea latent viroid; or ii) The seeds are tested prior to export by an appropriate genetic method such as RT-PCR assay and found to be free from Columnea latent viroid; 4,600 seeds are randomly taken from a lot as samples in accordance with the International Seed Testing Association (ISTA) procedures; or in case that the number of seeds of a lot is less than 46,000, 10% of the seeds are used for the testing; they are divided into at most 400 seeds as sub-samples. b) for live plants and plant parts for planting for cultivation originated in Thailand (excluding seeds and fruits):</p>

i) The plants randomly taken from a lot and plants with suspected symptoms are tested during the growing season or prior to export by an appropriate genetic method such as RT-PCR assay and found to be free from Columnnea latent viroid.

Therefore, the NPPO of exporting countries will be required to include an additional declaration stating that "Fulfills item 26 of the Annexed Table 2-2 of the Ordinance for Enforcement of the Plant Protection Act (MAF Ordinance No. 73/1950)."

Livestock products

Proposed amendments to the Standards and Specifications for Food Additives.

The main proposed amendments are as follows:

- Newly inserted a regulation that states: "In cases where the imported livestock products that were subjects of laboratory inspections or random sample tests are being re-declared for importation after being either withdrawn by the person who applied for declaration or rejected by the head of the Regional Offices of Food and Drug Safety, the relevant livestock products must go through the relevant laboratory inspections or random sample tests."
- Newly inserted a regulation that states: "The procedure for the exemption of the document review and field test for the annually planned volume of importation for livestock products imported by good importers."

Foods

Procedures and Requirements for On-site Inspection of Foreign Food Facilities and Foreign Establishments.

1) Amendment of regulations concerning remote inspection (Article 5, etc.)

- Inclusion of remote inspection-related content following the establishment of Article 9-2 of the Special Act on Imported Food Safety Control;

2) Deletion of regulations specified in other public notices (Article 2, etc.)

- Removal and amendment of related regulations following the establishment of the Notice "On-site Sanitation Inspection Standards and Sanitation Audit Procedures of Imported Food, Etc. by Original Equipment Manufacturing" established on 14 June 2021;

3) Amendment of control standards for foreign food facilities and establishments (Annex 1-3)

- Improvement including addition, integration and deletion of control standards (evaluation items) in consideration of international food sanitation and safety control standards;

- Unification of standard words for each facility (establishment) type.

Alstroemerianursery stock

27/01/2023

Import Health Standard: Importation of Nursery Stock(155.02.06).

NZ MPI invites comment from trading partners on measures for Broad bean wilt virus 2 and on the addition of the two countries (India and South Africa) for Alstroemeria tissue culture. Proposes phytosanitary measures for BBWV-2 on Alstroemeria tissue culture include:

- a) Alstroemeria tissue culture can be imported from a 'pest-free area' (PFA) where Broadbean wilt virus 2 is not known to occur;
- b) Alstroemeria tissue culture can be imported if it is derived from parent plants that have been tested by PCR OR ELISA and found free from Broad bean wilt virus 2.

Proposals to Amend the New Zealand (Maximum Residue Levels for Agricultural Compounds) Food Notice.

The document contains technical details on proposals to amend the current Notice issued under the Food Act 2014 that lists the maximum residue levels (MRLs) for agricultural compounds in New Zealand.

MPI proposes the following amendments to the Notice:

- a) The addition of new entries in the Notice for the following compound: Triclabendazole: 0.1 mg/kg for goat fat, meat and offal; 0.005(*) mg/kg for milk;
- b) The removal of the existing entry in the Notice for the following compound: Pirlimycin;(*) indicates that the maximum residue level has been set at or about the limit of analytical quantification.
- c) The addition of one new entry in Schedule 2 for agricultural chemicals for which no maximum residue level applies: S-abcisic acid when used as a plant growth regulator;
- d) The addition of one new entry in Schedule 3 for veterinary medicines for which no maximum residue level applies: Alfalfa extract when used to aid in the treatment or prevention of gastric ulceration in horses.

Singapore

Infant cereal products (HS code: 190110)

20/02/2023

Pre-Import Requirements for Infant Cereal Products.

A new set of pre-import control measures will be introduced as a voluntary scheme for infant cereal products. Importers who are able to meet the import conditions under the voluntary scheme can register their suppliers with the Singapore Food Agency (SFA), and will be exempted from the current requirement for Aflatoxin B1 testing for every consignment. For importers who do not wish to join the voluntary scheme, the current pre-import control measures remain applicable and unchanged.

A summary of the pre-import control measures can be found through the link in Item 5.
