<u>G/TBT/N/AUS/154</u> 16/01/2023	Australia	Imported and domestically produced packaged alcoholic beverages (HS Chapter 22) containing 0.5% or more alcohol by volume (ABV) that are required to bear a label for sale in Australia and New Zealand. <b>Proposal P1059 Energy labelling on alcoholic beverages:</b> Assessment Report The proposal considers amending the Australia New Zealand Food Standards Code to require energy (kilojoule/kilocalorie) labelling information on packaged alcoholic beverages containing 0.5% or more ABV sold in Australia and New Zealand.FSANZ has undertaken an assessment and developed a proposed draft variation to the Code. Standards affected are: (a) Standard 1.1.2 Definitions used throughout the Code; (b) Standard 1.2.1 Requirements to have labels or otherwise provide information, and; (c) Standard 2.7.1 Labelling of alcoholic beverages and food containing alcohol. The proposed draft variation requires a declaration of energy content information in a prescribed format on packaged alcoholic beverages containing 0.5% or more ABV. The location of the declaration is not prescribed. A three year transition period and a stock-in-trade exemption for products packaged and labelled before the end of the transition period is proposed.	17/03/2023
<u>G/TBT/N/BRA/1471</u> 16/01/2023	Brazil	Regulatory Agenda of the National Traffic Department – SENATRAN Ordinance 1.731, 29 December 2019; This Ordinance establishes the Regulatory Agenda of the National Traffic Department -DENATRAN for the biennium 2023/2024, in order to indicate regulatory issues to be studied in the period.	
<u>G/TBT/N/CAN/688</u> 16/01/2023	Canada	Motor cars and other motor vehicles principally designed for the transport of persons (HS Codes : 87.03) <b>Proposed Regulations Amending the Passenger</b> <b>Automobile and Light Truck Greenhouse Gas</b> <b>Regulations;</b> The Passenger Automobile and Light Truck Greenhouse Gas Emission Regulations have established progressively more stringent greenhouse gas emission standards for new light-duty vehicles since the 2011 model year. In the December 2020 Strengthened Climate Plan, the Government announced its intention to improve the efficiency of light-duty vehicles in the post-2025 period by aligning with the most stringent standards in North America. The 2030 Emissions Reduction Plan subsequently committed the Government to develop a light-duty vehicles (LDV) zero emission vehicle (ZEV) sales mandate, which will set annually increasing requirements towards achieving 100% LDV ZEV sales by 2035, including mandatory interim targets of at least 20% of all new LDVs offeredfor sale by 2026 and at least 60% by 2030. The	16/03/2023

		by amending the current Regulations to add zero-emission vehicle requirements, beginning with model year 2026, as well as making administrative amendments to the current Regulations on pre-2026 model year vehicles, beginning with model year 2023. The most recent publication of Environment and Climate Change Canada's Regulations Amending the Passenger Automobile and Light Truck Greenhouse Gas Emission Regulationswill help Canada achieve its climate commitments.	
<u>G/TBT/N/EU/945</u> 16/01/2023	European Union	oxamyl (pesticide active substance) Draft Commission Implementing Regulation concerning the non-renewal of the approval of the active substance oxamyl, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing Regulation (EU) No 540/2011; This draft Commission Implementing Regulation provides that the approval of the active substance oxamyl is not renewed in accordance with Regulation (EC) No 1107/2009. EU Member States shall withdraw authorisations forplant protection products containing oxamyl as an active substance. The non-renewal of approval is based on the first evaluation of the substance for use as a pesticide active substance in the EU under Regulation (EC) No 1107/2009. The substance was formerly assessed and approved under Directive 91/414/ EEC.This decision only concerns the placing on the market of this substance and plant protection products containing it. Following non-approval and the expiry of all grace periods for stocks of products containing this substance, separate action will likely be taken on MRLs and a separate notification will be made in accordance with SPS procedures.	17/03/2023
<u>G/TBT/N/EU/946</u> 16/01/2023	European Union	Electrical and electronic equipment (ICS –31.020) Draft Commission Delegated Directive amending Directive 2011/65/EU of the European Parliament and of the Council as regards an exemption for lead as a thermal stabilizer in polyvinyl chloride used as base material in sensors used in in-vitro diagnostic medical devices; This draft Commission Delegated Directive concerns applications for a specific and temporary exemption from the RoHS 2 (Directive 2011/65/EU) substance restrictions. The criteria for a new exemption are met and it is proposed to grant a time-limited exemption in Annex IV of that Directive.	17/03/2023
<u>G/TBT/N/NZL/118</u> 16/01/2023	New Zealand	Imported and domestically produced packaged alcoholic beverages (HS Chapter 22) containing 0.5% or more alcohol by volume (ABV) that are required to bear a label for sale in Australia and New Zealand. <b>Proposal P1059 Energy labelling on alcoholic beverages:</b> <b>Assessment Report;</b> The proposal considers amending the Australia New Zealand Food Standards Code to require energy (kilojoule/kilocalorie) labelling information on packaged alcoholic beverages containing 0.5% or more ABV sold in Australia and New Zealand.FSANZ has undertaken an	17/03/2023

## **Proposal for Legal Inspection Requirements for Drones** (less than 2 kilogramsin weight);

Nowadays, drones are frequently used for multiple purposes, for examples, photography and light shows. In order to enhance consumer safety, the BSMI proposes to add drones (less than 2 kilograms in weight) into the scope of legal inspection. Two alternative conformity assessment procedures are made available for the choice of applicants, i.e. Registration of Product Certification (RPC) or Type-Approved Batch Inspection (TABI).

<u>G/TBT/N/URY/71</u> 19/01/2023	Uruguay	Vehículos automotores Proyecto de Decreto del Poder Ejecutivo que reglamenta los artículos 2a 6 de la Ley Nº 19.824; Se reglamentan los artículos 2 a 6 de la Ley No. 19.824 sobre Seguridad Vial. Se determinan los elementos o medidas de seguridad exigibles a distintas categorías de vehículos automotores para garantizar que se cumplan reglas mínimas de protección de los ocupantes y otros usuarios de las vías de tránsito, así como los mecanismos de verificación del cumplimiento de los requisitos correspondientes para los vehículos importados y aquellos ensamblados en territorio nacional.	20/03/2023
<u>G/TBT/N/PHL/297</u> 20/01/2023	Philippines	<ul> <li>Food additives (ICS code(s): 67.220.20)</li> <li>Draft Administrative Order (AO) on Revised Guidelines on Food Additives and Processing Aids, Repealing Administrative Order 88-A s. 1984;</li> <li>These guidelines are meant to achieve the following objectives:</li> <li>A. To establish guidelines prescribing:</li> <li>1. The condition under which a food additive may be safely used; and</li> <li>2. The maximum quantity of food additive which may be used or permitted to remain in or on such food.</li> <li>B. To meet the demand for specific guidance on the use of food additives and ensurefood safety, with the increasing awareness on safe food.</li> <li>C. To harmonize local food regulation with international food control laws, rules andregulations to ensure market access opportunities.</li> <li>D. To update the list of permitted food additives for their use and application in fooddistributed in the Philippines.</li> </ul>	18/03/2023
