G/TBT/N/EU/949 30/1/2023	European Union	<p><i>Household tumble dryers</i></p> <p>Draft Commission Regulation implementing Directive 2009/125/EC of the European Parliament and of the Council with regard to ecodesign requirements for household tumble dryers, amending Commission Regulation (EC) No 1275/2008, and repealing Commission Regulation (EU) No 932/2012</p> <p>This draft Commission Regulation covers products designed for the drying of household laundry to be placed on the EU market. The draft regulation lays down minimum energy performance requirements, in particular on power demand in active mode and for the low power modes of household tumble dryers; minimum condensation efficiency performance; appropriate requirements contributing to circular economy objectives in particular, requirements on resource efficiency including availability of necessary spare parts and maximum delivery time thereof, access to repair and maintenance information, information requirements for refrigerant gases, requirements for disassembly for the purpose of repair and for material recovery and recycling, and information requirements. In accordance with the Ecodesign Directive 2009/125/EC, household tumble dryers not meeting these requirements will not be allowed to be placed on the EU market. The draft Regulation is based on the findings of technical, environmental and economic studies and takes into account the opinions of the different stakeholders.</p>	31/3/2023
G/TBT/N/EU/950 30/1/2023	European Union	<p><i>Household tumble dryers</i></p> <p>Draft Commission Delegated Regulation supplementing Regulation (EU) 2017/1369 of the European Parliament and of the Council with regard to energy labelling of household tumble dryers and repealing Commission Delegated Regulation (EU) No 392/2012</p> <p>This draft Commission Delegated Regulation applies to household tumble dryers to be placed on the EU market and repeals Regulation (EU) No 392/2012 with regard to energy labelling of household tumble dryers. It requires suppliers, before products can be placed on the EU market, to upload the label data, the product information sheet and the technical documentation into a product registration database. The draft Commission Delegated Regulation is based on the findings of a review study and of a long discussion process with stakeholders.</p>	31/3/2023
G/TBT/N/KEN/1378 31/1/2023	Kenya	<p><i>Articles of cement, concrete or artificial stone, whether or not reinforced (HS code(s): 6810); Concrete and concrete products (ICS code(s): 91.100.30)</i></p> <p>DKS 829: 2023 Specification for precast concrete channels, edgings and quadrants</p> <p>This Kenya Standard specifies the requirements for the following precast concrete products: a) Channels; b) Edgings; c) Quadrants. These precast concrete products, referred to as a product or products in this standard, are</p>	2/4/2023

G/TBT/N/UKR/243 31/1/2023	Ukraine	<p><i>Chicken eggs</i></p> <p>Draft Order of the Ministry of Agrarian Policy and Food of Ukraine “On the Approval of the Requirements for Chicken Eggs”</p> <p>The draft Order provides for approving the requirements for chicken eggs (hereinafter – the Requirements) in terms of: sorting of eggs by quality and weight; stamping of eggs, labeling of packages (containers) and transport containers for eggs, containers for industrial eggs and providing information to the consumer in the case of individual sales of eggs; packaging and repackaging of eggs, and record-keeping requirements to be maintained by market operators. Chicken eggs imported (sent) to the customs territory of Ukraine have to comply with the provisions of Sections I-IV of the Requirements, or equivalent requirements of the exporting country. The draft Order is developed taking into account the EU legislation, in particular: Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007; Commission Regulation (EC) No 589/2008 of 23 June 2008 laying down detailed rules for implementing Council Regulation (EC) No 1234/2007 as regards marketing standards for eggs; Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin; Commission Directive 2002/4/EC of 30 January 2002 on the registration of establishments keeping laying hens, covered by Council Directive 1999/74/EC; Council Directive 1999/74/EC of 19 July 1999 laying down minimum standards for the protection of laying hens. The draft Order is also notified under the SPS Agreement.</p>	1/4/2023
G/TBT/N/PHL/299 1/2/2023	Philippines	<p><i>Medical equipment (ICS code(s): 11.040); Pharmaceuticals (ICS code(s): 11.120)</i></p> <p>Updated Guidelines for Availing Compassionate Special Permit for the Restricted Use of Unregistered or Unauthorized Drug Products including Vaccines and Medical Devices</p> <p>The proposed policy aims to repeal the current policy on the national guidelines for availing a Compassionate Special Permit (CSP) for the restricted use of unregistered or unauthorized drug products including vaccines and medical devices, and provide the updated guidelines which allows additional covered products and medical condition, and streamlines the submission of applications and post-approval commitment reports to ensure compliance of CSP applicants and holders to the requirements.</p>	9/2/2023

G/TBT/N/SVN/121 1/2/2023	Slovenia	<p>Terms and Definitions, Scope, Objectives, General principles of conformity assessment procedures, Fundamentals of developing conforming models, Products Self-Conformity models (First Party), models for issuing conformity products certificates (certification bodies / third party), Appendix (flow charts for models, Matrix of conformity assessment models for products, Supplier Declaration of Conformity form)</p> <p><i>Cereals and buckwheat: wheat, rye, barley, oats, spelt, corn, millet, buckwheat</i></p> <p>The specification “selected quality” - production and processing of cereals and buckwheat: wheat, rye, barley, oats, spelt, corn, millet, buckwheat.</p> <p>A specification was prepared by producers and processors, represented by the The Chamber of Agriculture and Forestry of Slovenia, The Chamber of Commerce and Industry of Slovenia - Chamber of Agricultural and Food Enterprises, Cooperative Union of Slovenia and the The Chamber of Craft and Small Business of Slovenia. The specification was also approved by the Slovenian Chamber of Commerce. The proposed specification lays down additional requirements for the cereals sector, which mainly concern production. A 5-year crop plan is required, prohibiting the production of the same type of cereal twice in a row on the same area. Due to the risk of fusariosis, the ban on the cultivation of wheat and barley in a two-field maize field is further applied. In the production of cereals, in order to avoid the possibility of infection with fungal pathogens, organic residues must be mixed into the soil. Fertilisation with digestate or compost from urban waste water treatment plants shall be prohibited. Plant protection products authorised in integrated or organic production may be used. All cereals and buckwheat ingredients used in processing must have a "selected quality" certificate. All other basic ingredients used like milk and milk products, fruits,...), for which there are valid specifications for the "selected quality" scheme, also must have certificate. The specification refers to the labelling of cereals and products for which the basic raw material is produced and processed in the same country. The requirements of the proposed specification therefore relate to the labelling of the ‘select quality’ logo indicating the country of production and processing of the basic raw material. The indication of the country of production and processing in logo is interchangeable.</p>	2/4/2023
G/TBT/N/LTU/49 2/2/2023	Lithuania	<p><i>All non-harmonised construction products</i></p> <p>Draft Order of the Minister for Environment of the Republic of Lithuania amending the Order No D1-901 of the Minister for Environment of the Republic of Lithuania of 10 December 2015 approving the Technical Construction Regulation STR 1.01.04:2015 „Assessment, verification of constancy of performance of construction products for which there are no harmonized technical specifications and declaration of performance of such products. EPCA also requires the U.S. Department of Energy ("DOE") to periodically determine whether more-stringent, standards would be technologically feasible and economically justified, and would result in significant energy savings. In this notice of proposed rulemaking ("NOPR"), DOE proposes amended energy conservation standards for EPSs, and also announces a public meeting to receive comment on these proposed standards and associated analyses and results.</p>	3/4/2023
