G/TBT/N/EGY/340 06/02/2023	Egypt	<i>Acids (ICS code(s): 71.060.30)</i> Draft of Egyptian standard ES 382-3 "alcohol -part:3 requirements for absolute alcohol"; This draft of Egyptian standard specifies the technical requirements for absolute alcohol, used as a raw material, as well as the methods of sampling and testing, which are also used as a reagent and solvent in the chemical and pharmaceutical industries and for the production of energy alcohol and for this purpose it is partially or completely converted. Worth mentioning is that this draft standard is technically identical with IS 321/ 1964 (reaffirmed 2001).	07/04/2023
G/TBT/N/EGY/341 06/02/2023	Egypt	<i>Paper products (ICS code(s): 85.080)</i> Draft of Egyptian standard ES 1119 "Notebooks"; This draft of Egyptian standard is concerned with the requirements that must be met in all types of Notebooks used for academic purposes, including the following types: School notebooks, Lecture brochures, Notebooks for special study purposes and Lesson topic brochures. Worth mentioning is that this draft standard complies with JIS S 5504 /2015.	07/04/2023
G/TBT/N/EGY/342 06/02/2023	Egypt	<i>Drinking water (ICS code(s): 13.060.20); Water supply systems (ICS code(s): 91.140.60)</i> Draft of Egyptian standard ES 6121-1 "Water conditioning equipment inside buildings -Active media filters –Part 1: Requirements for performance, safety and testing"; This draft of Egyptian standard specifies requirements relating to the construction, performance and methods of testing for active media filters for drinking water installations inside buildings, with a maximum working pressure of at least 1000 kPa and a maximum working temperature of less than 30 °C. It only concerns units, which are permanently connected to the mains supply at the point of entry or point of use. This standard applies only to filter systems comprising a housing and filter media tested together. This standard cancels and supersedes its last edition in 2007. Worth mentioning is that this draft standard is technically identical with EN 14898:2006+A1 :2007.	07/04/2023
G/TBT/N/EU/952 06/02/2023	European Union	<i>Wine products; Alcoholic beverages (ICS 67.160.10)</i> Draft Commission Delegated Regulation amending Delegated Regulation (EU) 2019/33 as regards certain provisions on protected denominations of origin and protected geographical indications for wine and on the presentation of compulsory particulars for grapevine products and specific rules for the indication and designation of ingredients for grapevine products, and Delegated Regulation (EU) 2018/273 as regards the certification of imported wine products; Amendment of Commission Delegated Regulation (EU) 2019/33 and Commission Delegated Regulation (EU) 2018/273, to complete the rules on presentation of certain	07/04/2023

compulsory particulars in labelling and presentation of grapevine products, in particular concerning the indication of the list of ingredients. It also provides for technical amendments necessary to make Delegated Regulation (EU) 2019/33 consistent with Regulation (EU) No 1308/2013.

Ireland

The Act relates to the sale, labelling, advertising, marketing, and display of alcohol products. Beer made from malt (HS code(s): 2203); Wine of fresh grapes, incl. fortified wines; grape must, partly fermented and of an actual alcoholic strength of > 0,5% vol or grape must with added alcohol of an actual alcoholic strength of > 0,5% vol (HS code(s): 2204); Vermouth and other wine of fresh grapes, flavoured with plants or aromatic substances (HS code(s): 2205); Cider, perry, mead and other fermented beverages and mixtures of fermented beverages and non-alcoholic beverages, n.e.s. (excl. beer, wine or fresh grapes, grape must, vermouth and other wine of fresh grapes flavoured with plants or aromatic substances) (HS code(s): 2206); Undenatured ethyl alcohol of an alcoholic strength of < 80%; spirits, liqueurs and other spirituous beverages (excl. compoundalcoholic preparations of a kind used for the manufacture of beverages) (HS code(s): 2208)

07/04/2023

Public Health (Alcohol) (Labelling) Regulations 2022

The Public Health (Alcohol) Bill was notified to the WTO Committee on Technical Barriers to Trade in 2016. Section 12 of that Bill contained the obligation to provide health information and health warnings on the labels of alcohol products and in other settings. The Public Health (Alcohol) Bill was subsequently enacted in 2018. Draft Regulations under Section 12 of the Public Health (Alcohol) Act 2018 are currently being notified to the TBT Committee of the WTO. These draft regulations provide the detail in relation to the health warnings and health information. The draft regulations do not contain the requirement for such warnings as this is contained in section 12 and this was enacted in 2018. The consumption of alcohol has been identified as causing significant public health harm in Ireland. In response to this threat, the Irish Government enacted the Public Health (Alcohol) Act 2018 for the protection of human health. Under Section 12 of the Public Health (Alcohol) Act, the Minister for Health is empowered to make regulations to require that the labels of alcohol products should contain:

- i. A warning to inform people of the danger of alcohol consumption.
- ii. A warning to inform people of the danger of alcohol consumption when pregnant.
- iii. A warning to inform people of the direct link between alcohol and fatal cancers.
- iv. The quantity of grams of alcohol contained in the product.
- v. The number of calories contained in the alcohol product.
- vi. A link to a health website which gives information on alcohol and related harms. In addition, section 12 provides that those selling alcohol in on-licensed premises will be required to display a notice containing the same health warnings, a link to the public health website and an indication to the customer that the alcohol and calorie content of alcohol products for all 'poured drinks' is available in a

document on request. The draft labelling regulations apply to all alcohol products sold in Ireland, whether produced locally or imported into the State. The draft regulations notified to the WTO, TBT provide the detail for the obligation under section 12. In relation to the requirements for health warnings, the requirement under 12(i) to provide for a warning to inform people of the danger of alcohol consumption has been specified as a warning on the risk of liver disease. In addition, the requirement for a pregnancy warning under 12(ii) can be fulfilled through using a specified pictogram. The health website required at 12(vi) is www.askaboutalcohol.ie. The draft regulations also provide that for alcohol products which have a small surface area the health warnings and information can be of a smaller size or a flag label can be used. Finally, the regulations specify that websites which sell alcohol products must display the same information as would be available to the consumer in a physical shop so that the online consumer has all the information at the point of purchase. The purpose of this provision is to ensure that important and necessary public health information is communicated to the Irish consumer at the point of purchase so that the consumer can make an informed choice about their alcohol consumption. In addition, evidence shows that health information on the labels of alcohol products leads to a reduction in alcohol consumption and therefore in the health harms caused by alcohol. Currently, there is no regulatory requirement for the display of health warnings or health information on alcohol products sold in Ireland. This is despite the well settled scientific evidence that alcohol causes conditions such as alcoholic liver disease and alcohol induced pancreatitis as well as cancers, cardiovascular disease and other conditions being attributable to alcohol. Ireland's objective is to reduce the disease and death caused by the way alcohol is currently consumed here and to do so using methods that do not exceed what is necessary to achieve that objective. In the case of labelling, Ireland is taking the minimal action of requiring the risks associated with the product to be stated for the benefit of the consumer.

G/TBT/N/CHL/621 08/02/2023	Chile	<i>Plaguicidas de uso agrícola</i> Prohíbe la fabricación, importación, exportación, distribución, venta, tenencia y uso de plaguicidas que indica; y ordena actualizar listados sistematizados de plaguicidas Prohibidos con sustancias activas y con productos formulados; y modifica resoluciones que indica.	09/04/2023

La medida notificada considera prohibir sustancias activas de plaguicidas que están listados en el anexo III del Convenio de Róterdam por tener efectos no deseables para la salud de las personas, los animales y efectos en el medioambiente y, además, una sustancia activa del Convenio de Estocolmo que se ha incorporado en el Anexo A. Ninguno de los plaguicidas que se prohíben cuenta con productos vigentes o nunca han sido autorizados para la agricultura chilena. Por medio de esta medida, el Servicio Agrícola y Ganadero (SAG) prohíbe la fabricación, importación, distribución, venta, tenencia y aplicación de las siguientes plaguicidas: Binapacril, Captafol, Clorobencilato, Dicloruro de etileno, el DNOC y sus sales, Dinoseb y sus sales y ésteres, Fluoroacetamida, Forato, Fosfamidón, el HCH, Monocrotofos, Óxido de etileno, Triclorfón y Dicofol. Adicionalmente prohíbe la fabricación, importación, distribución, venta, tenencia y aplicación de las formulaciones de polvo seco (DP) con $\geq 7\%$ de Benomilo, $\geq 10\%$ de Carbofurano y $\geq 15\%$ de Tiram. La propuesta de medida sistematiza en dos listados de plaguicidas prohibidos, una de sustancias activas, que puedan estar en cualquier formulación y otra de productos formulados cuyas formulaciones sean peligrosas, aunque sus sustancias activas no sean prohibidas, considerando los actos administrativos originales. Con la creación de este listado se facilita la coordinación entre el SAG, el Servicio Nacional de Aduanas, el Ministerio de Salud, el Ministerio del Medio Ambiente, al Servicio Nacional de Pesca y Acuicultura, a la Dirección Nacional de Aduanas, a la Dirección General del Territorio Marítimo y de Marina Mercante a la vez que se entrega información sistematizada para las empresas titulares de las autorizaciones de plaguicidas, así como las organizaciones no gubernamentales, las universidades y centro de estudios, y en general, de todas las personas interesadas en las materias de los plaguicidas de uso agrícola. Mayores detalles pueden ser revisados en el documento adjunto a esta notificación.

Proposal for Amendments to the Legal Inspection Requirements for Petroleum Products;

With a view to enhancing the quality of petroleum products, the Bureau of Standards, Metrology and Inspection (BSMI) is proposing to adopt the updated version of CNS as inspection standards. The proposed changes are made for purpose of enhancing consistent management. The conformity assessment procedures remain the same, i.e. Monitoring Inspection (MI) or Monitoring Inspection of Products from Premises with Registered Management System (MS-Based Monitoring Inspection).

Corded window coverings, including those under HS 3925.30. 09/05/2023

Discussion paper: Options to address safety risks of corded window coverings

The New Zealand Government is considering regulating corded window coverings under a product safety standard to address the risk that they pose to young children. This discussion document seeks feedback on the nature and scale of the problem, the options, benefits, costs and other impacts of the options, and implementation. The feedback from the consultation will be used to inform policy development and advice to Ministers on next steps.

The discussion document seeks feedback on two possible approaches to product safety regulations:

1. Mandatory design requirements for corded window coverings (similar to Australia Trade Practices (Consumer Product Safety Standard -Corded Internal Window Coverings) Regulations 2010 and Competition and Consumer (Corded Internal Window Coverings) Safety Standard 2014

2. Prohibiting window coverings with exposed cords (similar to the recently updated 16 CFR 1120 and new regulation under 16 CFR 1260 in the United States. This deems the presence of hazardous window covering cords on stock and custom window coverings, which have been adequately addressed by the voluntary standard for window coverings, ANSI/WCMA A100.1 –2018, American National Standard for Safety of Corded Window Covering Products (ANSI/WCMA-2018), as a "substantial product hazard," as defined in section 15(a)(2) of the CPSA.).

Air purifier 09/04/2023

Draft Notification of the Committee on Labels, entitled Air purifiers are label-controlled products B.E. ...;

The draft notification prescribes air purifier as label-controlled goods. This draft notification applies to air purifier, a product that works by means of drawing air into the machine and using air filters, chemicals, ions or other techniques as a medium for air purification with the purpose of filtering or purifying the air or disposing of airborne contaminants. This draft notification excludes the medical air purifiers according to the law on medical devices and air

purifiers intended for industrial use. This label of label-controlled product shall indicate the text, figure, invention or image as appropriate, and shall not cause misunderstanding about the essence of the product. The label also shall be in Thai language or foreign language with Thai for explanation. This label of label-controlled product does not apply to the label of products manufactured for export and not for sale in Thailand.

G/TBT/N/USA/1962 08/02/2023	United States of America	<i>Unmanned aircraft systems; Powered aircraft "e.g. helicopters and aeroplanes"; spacecraft, incl. satellites, and suborbital and spacecraft launch vehicles (HS code(s): 8802); Aircraft and space vehicles in general (ICS code(s): 49.020)</i>	09/03/2023
Spectrum Rules and Policies for the Operation of Unmanned Aircraft Systems;			
<p>Proposed rule -In this document, the Federal Communications Commission ("FCC" or "Commission") seeks comment on rules to promote access by unmanned aircraft system (UAS) operators to licensed spectrum to support UAS operations. First, this document seeks comment on service rules for the 5030-5091 MHz band that will provide UAS operators with access to licensed spectrum with the reliability necessary to support safety-critical UAS command-and-control communications links. Second, due to the increasing interest in operating UAS using existing terrestrial flexible-use spectrum networks, this document seeks comment on whether the Commission's current rules are adequate to ensure co-existence of terrestrial mobile operations and UAS use or whether changes to these rules are necessary. Third, to further promote the safe integration of unmanned aircraft operations in controlled airspace and facilitate flight coordination, this document proposes a process for UAS operators to obtain a license in the aeronautical very high frequency (VHF) band to communicate with air traffic control and other aircraft. Together, these measures will help to promote the growth and safety of UAS operations.</p>

		Safety Standard and Notification Requirements for Button Cell or Coin Batteries and Consumer Products Containing Such Batteries;	
		Notice of proposed rulemaking -As required by Reese's Law, to eliminate or adequately reduce the risk of injury from ingestion of button cell or coin batteries by children 6 years old and younger, the U.S. Consumer Product Safety Commission (CPSC or Commission) proposes a rule to establish performance requirements for battery compartments on consumer products that contain, or are designed to use, one or more button cell or coin batteries. The proposed rule also requires warning labels on the	

packaging of button cell or coin batteries, as well as on the packaging, battery compartments, and accompanying instructions and manuals of consumer products containing button cell or coin batteries. In addition to implementing Reese's Law, the proposed rule requires manufacturers and importers of button cell or coin batteries, and consumer products containing such batteries, to notify consumers of performance and technical data related to the safety of such batteries at the point of sale, both online and in stores. If the rule is finalized, consumer products subject to the rule must be tested and certified as compliant with the rule.

13. Wallcovering in roll form -Finished wallpaper, wall vinyl and plastics wallcoverings (HS: 4814.90.00; 4814.20.10; 4814.20.91; 4814.20.99)
14. Wall emulsion paints (HS: 3209.10.90)
15. Gypsum board and Fiber-reinforced gypsum panel (HS: 6809.11.00; 6809.19.90)
16. Wood-based panels (HS: 4411.12.00; 4411.13.00; 4411.14.00; 4411.92.00; 4411.93.00; 4411.94.00; 4410.11.00; 4418.99.00)
- IX Water supply and drainage pipe products*
17. PVC pipes and fittings (couplings) for water supply and drainage systems under pressure (HS: 3917.23.00; 3917.40.00)
18. PE pipes and fittings (couplings) for water supply and drainage systems under pressure (HS: 3917.21.00; 3917.40.00; 3917.32.99; 3917.33.90)
19. PP pipes and fittings (couplings) for water supply and drainage systems under pressure (HS: 3917.22.00; 3917.40.00)
20. Pipes and fittings (couplings) of glass fiber reinforced thermosetting plastics (GRP) on an unsaturated polyester resin basis (UP) (HS: 3917.29.25; 3917.40.00)
21. Ductile iron pipes and fittings (couplings) of ductile iron for water conduit works (HS: 7303.00.11; 7307.19.00; 7303.00.19)
- X Other products and goods of construction materials*
22. Asbestos for the production of asbestos-cement corrugated board (HS: 2524.90.00)
23. Aluminum profiles and aluminum alloys (HS: 7610.90.99; 7604.29.90)
24. Cable ladder system and cable tray made of iron or steel used in electrical installation of the building (HS: 7308.90.60; 7326.90.99)
25. Pipes and fittings (couplings) for the protection and installation of conductors electricity in the house (HS: 3917.21.00; 3917.22.00; 3917.23.00; 3917.40.00)
26. Waterproofing sheet based on modified bitumen (HS: 6807.10.00)
27. Water blocking tape PVC (HS: 3919.90.99)
28. Structural silicone Sealants (HS: 3910.00.90)

Draft national technical regulation on Products, Goods of Building Materials

This draft National technical regulation stipulates the limits of technical characteristics and requirements for management of products and goods of building material listed in Table 1, Part 2, belonging to Group 2 according to the provisions of the Law on Product Quality, Goods (hereinafter referred to as products, goods of building materials) produced domestically, imported, traded, circulated on the market and used in construction works in the territory of Viet Nam. This draft National technical regulation does not regulate products and goods of building materials imported in the form of test samples, sample goods, goods displayed at exhibitions and fairs; goods temporarily imported for re-export, goods that are not consumed and used in Viet Nam, goods in transit. This draft technical regulation applies to Vietnamese and foreign organizations and individuals manufacture, import, trade and use products and goods of construction materials; testing and certification organizations that assess

and certify the conformity of construction materials, products and goods to technical regulation; and relevant state management agencies on the quality of construction materials and products. This draft National technical regulation is intended to supersede QCVN 16:2019/BXD.

Draft Circular specifying the List of products and goods with unsafe capability under management responsibility of Ministry of Information and Communications;

This draft Circular specifies the List of products and goods with unsafe capability under management responsibility of Ministry of Information and Communications, which is in line with the Law on quality of products and goods. The List of products and goods is divided into 2 sub-lists, which are detailed in the Annex I and Annex II. Each sub-list has its own principles for mandatory quality management (ie, certification, declaration of conformity), according to the Circular No.30/2011/TT-BTTTT dated October 31, 2011 specifying mandatory certification and declaration of products and goods in information technology and communications sector and the Circular No.15/2018/TT-BTTTT dated November 15, 2018, the Circular No.10/2020/TT-BTTTT dated May 07, 2020 providing modifications and amendments for the Circular No.30/2011/TT-BTTTT. This draft Circular is intended to supersede the Circular No. 02/2022/TT-BTTTT dated May 16, 2022 of the Minister of Information and Communications specifying the List of products and goods with unsafe capability under management responsibility of Ministry of Information and Communications.
