G/TBT/N/CHL/622 14/2/2023	Chile	<p><i>Acidez de manteca de cacao</i></p> <p>Propuesta de Modificación al Reglamento Sanitario de los Alimentos (RSA)DS.977/96, Artículo 248, sobre acidez de manteca de cacao</p> <p>Esta propuesta ha sido elaborada por MINSAL con el fin de actualizar y armonizar las regulaciones del cacao y del chocolate, con las regulaciones internacionales. Se observó que Codex Alimentarius había modificado el parámetro de acidez de la manteca de cacao, lo que se constata en el Codex Stan 86 - 1981, también se revisó el Codex Stan 33-1981 Norma para el aceite de Oliva y Aceite de Orujo de Oliva, por ello se hacen necesarios los siguientes cambios en el segundo inciso del artículo 248 del Reglamento Sanitario de los Alimentos.</p>	15/04/2023

		This draft Malawi standard specifies the requirements and the methods of sampling and test for fruit crush intended for direct human consumption as a ready to drink beverage after dilution with potable water.	
G/TBT/N/MWI/91 14/2/2023	Malawi	<i>(HS code(s): 071340); (ICS code(s): 67.060)</i> DMS 1836:2022, Lentils – Specification This draft Malawi standard specifies the requirements and methods of sampling and test for shelled whole lentils of varieties (cultivars) grown from <i>Lens culinaris</i> Medic. Syn. <i>Lens esculenta</i> Moench. intended for human consumption.	15/04/2023
G/TBT/N/MWI/92 14/2/2023	Malawi	<i>(HS code(s): 22); (ICS code(s): 67.160.10)</i> DMS 1636:2020, Spirit cooler – Specification This draft Malawi standard specifies the requirements, method of sampling and test for ready to drink spirit based alcoholic beverages.	15/04/2023
G/TBT/N/USA/1965 14/2/2023	United States of America	<i>Renewable energy regulations; Quality (ICS code(s): 03.120); Environmental protection (ICS code(s): 13.020); Wind turbine energy systems (ICS code(s): 27.180)</i> Renewable Energy Modernization Rule Notice of proposed rulemaking - The first Outer Continental Shelf (OCS) renewable energy regulations were promulgated in 2009 by BOEM's predecessor, the Minerals Management Service (MMS). BOEM's renewable energy program has matured over the past 13 years, during which time BOEM conducted eleven auctions and issued and managed 27 active commercial leases. Based on this experience, the Department has identified opportunities to modernize its regulations to facilitate the development of offshore wind energy resources to meet U.S. climate and renewable energy objectives. This proposed rule contains reforms identified by the Department and recommended by industry since 2010, including proposals for incremental funding of decommissioning accounts; more flexible geophysical and geotechnical survey submission requirements; streamlined approval of meteorological (met) buoys; revised project verification procedures; reform of BOEM's renewable energy auction process; and greater clarity regarding safety requirements. This proposed rule would advance the Department of the Interior's (DOI) energy policies in a safe and environmentally sound manner that would provide a fair return to the U.S. taxpayer.	31/3/2023
G/TBT/N/USA/1966 14/2/2023	United States of America	<i>Recycling, plastic content; Quality (ICS code(s): 03.120); Environmental protection (ICS code(s): 13.020); Recycling (ICS code(s): 13.030.50); Plastics (ICS code(s): 83.080)</i> Plastic Content Reporting and Compliance Proposed rule - The Department of Resources Recycling and Recovery (CalRecycle) is proposing permanent regulations per Public Resources Code (PRC) section 14547 in response to Assembly Bill (AB) 793 that would adopt definitions for postconsumer recycled material, post-industrial recycled material, plastic material reclaimer, manufacturer of postconsumer recycled plastic, and clarify definitions for food-grade, and bottle-grade terms; recordkeeping and	21/3/2023

G/TBT/N/UKR/244 15/2/2023	Ukraine	<p>compliance requirements for beverage manufacturers; reporting requirements for beverage manufacturers, plastic material reclaimers, and manufacturers of postconsumer recycled plastic; petition requirements for an association to petition CalRecycle's Director to adjust the minimum postconsumer recycled content standard; and, requirements for beverage manufacturers to submit corrective action plans and requests for reducing administrative penalties. These proposed regulations would also amend section 2100 to make clear that failure to file a required report correctly and accurately by a beverage manufacturer, a plastic material reclaimer, or a manufacturer of postconsumer</p> <p><i>Materials and articles made of regenerated cellulose film intended for contact with foodstuffs</i></p> <p>Order of the Ministry of Health of Ukraine No. 2374 “On approval of the Requirements for materials and articles made of regenerated cellulose film intended for contact with foodstuffs” of December 29, 2022</p> <p>Ukraine notifies the adoption of the Order of the Ministry of Health No. 2374 “On approval of the Requirements for materials and articles made of regenerated cellulose film intended for contact with foodstuffs” of December 29, 2022 that establishes the requirements for materials and articles made of regenerated cellulose film intended for contact with food. The requirements apply to regenerated cellulose film which is intended to come into contact with foodstuffs or which does come into such contact and: - constitutes a finished product in itself; or - forms part of a finished product that contains other materials. The requirements do not apply to synthetic casings made from regenerated cellulose. With the adoption of the Order Ukraine implements norms specified by the Commission Directive 2007/42/EC of 29 June 2007 relating to materials and articles made of regenerated cellulose film intended to come into contact with foodstuffs.</p>	16/04/2023
G/TBT/N/GBR/55 15/2/2023	United Kingdom	<p><i>Products related to Water Closet (WC) Suites: Water Closet suites (flushing cisterns and pans etc.); Components for Water Closet Suites (inlet valves, flushing devices, cisterns etc.); Backflow prevention arrangements and devices for water systems. HS Code: Pl</i></p> <p>Amended Regulator Specifications made under Water Supply (Water Fittings) Regulations 1999 (106 pages in English).</p> <p>For clarity this notification is regarding the amendment of Regulator Specifications under the (Water Fittings) Regulations 1999 rather than</p> <p>These measures result from the Water Supply (Water Fittings) Regulations 1999 (‘the Regulations’), as they apply in England and Wales, and regulate how water systems are designed, installed and operated. The Regulations require water fittings to be an appropriate quality and standard and suitable for the circumstances in which they are used. To meet these requirements, Regulator Specifications can be approved to provide detailed performance characteristics to ensure, amongst other things, that a fitting will not cause contamination of the water supply thereby protecting human</p>	16/04/2023

		health. These measures amend the Regulator Specifications that relate to: the design and performance of Water Closet suites and their components; backflow prevention arrangements and their classifications; and, relevant testing requirements. The amendments, to prevent water from a Water Closet cistern backflowing into a clean drinking water supply, will: introduce a new backflow prevention arrangement for Water Closets; and, apply appropriate testing requirements. Regulator Specifications are relevant to the compliance of certain water fittings in Scotland with the Water Supply (Water Fittings) (Scotland) Byelaws 2014 and in Northern Ireland with the Water Supply (Water Fittings) Regulations (Northern Ireland) 2009.
