G/TBT/N/CAN/690 20/02/2023	Canada	<i>Telecommunications ((ICS 33.170)</i> Consultation on RSS-199, Issue 4; Notice is hereby given by the Ministry of Innovation, Science and Economic Development Canada has amended the following standard: RSS-199 Issue 4, Broadband Radio Service (BRS) Equipment Operating in the Band 2500–2690 MHz, sets out the requirements for the certification of equipment used in the broadband radio service (BRS) operating in the frequency band 2500-2690 MHz.	29/03/2023
G/TBT/N/CAN/691 20/02/2023	Canada	<i>Cosmetic products (ICS Code 71.100.70)</i> Regulations Amending Certain Regulations Concerning the Disclosure of Cosmetic Ingredients made under the Food and Drugs Act and the Cannabis Act, 11 February 2023; This proposal would amend the Cosmetic Regulations to increase transparency in labelling of certain fragrance allergens present in cosmetics by: <ul style="list-style-type: none"> • requiring the disclosure of certain fragrance allergens on cosmetic labels within the list of ingredients. It is proposed to incorporate by reference, on an ambulatory basis, the fragrance allergens identified in the Annex III of the of the European Commission's Cosmetics Regulation, including the transition period set out in that Annex for future updates to substances identified for disclosure. This would align Canadian requirements with those of the European Commission with respect to fragrance allergen disclosure. • adding greater flexibility for the disclosure of ingredients on the labels of cosmetics sold in small packages; • improving regulatory oversight of cosmetics by clarifying terminology, strengthening the cosmetic notification requirements, and enhancing compliance and enforcement tools; and • making changes of an administrative nature to correct the publisher for a referenced document, to revise entries in the Schedule to the regulations, and to revise definitions to reflect current drafting conventions. 	22/04/2023
G/TBT/N/CHL/623 20/02/2023	Chile	<i>Productos para alimentación animal.</i> Establece codificación de productos importados para alimentación animal, evaluados por monografía de proceso.; Por medio del proyecto de resolución se propone: <ul style="list-style-type: none"> • Cumplir con lo estipulado en el Título IV, del Decreto N°4/2016, que aprueba el reglamento de alimento para animales, en el cual indica que en la etiqueta de los productos importados, se debe incorporar el código y fecha de autorización SAG. • Este código, será único e irreplicable, y se otorgará una vez que sea aprobado mediante resolución, y corresponde al expediente digital que contiene la monografía de proceso, resolución de aprobación, sus modificaciones, 	21/05/2023

y documentación adicional entregada por el importador, ya sea para cada producto o línea de proceso, según sea el caso.

Medical Devices

Regulations Amending the Medical Devices Regulations (Interim Order No. 3 Respecting the Importation and Sale of Medical Devices for Use in Relation to COVID-19),(56 pages, available in English and French) and the Order Amending the Fees in Respect of Drugs and Medical Devices Order (COVID-19 Medical Devices),

Regulatory amendments to the Medical Devices Regulations (MDR) will create a new permanent regulatory framework for COVID-19 medical devices. The amendments will allow for the continued importation and sale of over 800 COVID-19 medical devices authorized under Interim Order No. 3 Respecting the Importation and Sale of Medical Devices for Use in Relation to COVID-19 (the third interim order).As well, the amendments will maintain the regulatory flexibilities set out under the third interim order. The amendments will also permanently incorporate from the third interim order the expedited authorization pathways and certain flexibilities for COVID-19 medical devices that meet an urgent public health need.Once a COVID-19 medical device is no longer considered an urgent public health need, manufacturers will need to comply with additional requirements (e.g., hold a Medical Device Establishment License, obtain a Quality Management System certificate that is in compliance with the Medical Device Single Audit Program, pay applicable fees) if they wish to continue to import or sell their medical device in Canada. These are requirements that are normally met by manufacturers for other medical devices authorized inCanada.Consequential amendments will also be made to the MDR to provide greater alignment between the new regulatory framework and existing provisions.The MDR regulatory package will be accompanied by the Order Amending the Fees in Respect of Drugs and Medical Devices Order (COVID-19 Medical Devices) (Fees Order). The Fees Order will be amended to include fees for Class II to IV COVID-19 medical devicesonce the devices no longer meet the definition of an urgent public health need.Fees will apply for:

- the examination of applications to amend an authorization being filed; and
- annual right to sell fees

For COVID-19 medical devices that continue to meet an urgent public health need, fees will not apply.

ConsultationonRSS-247, Issue 3

03/05/2023

Notice is hereby given by the Ministry of Innovation, Science and Economic Development Canada has amended the following standard:RSS-247 (Issue 3) Digital Transmission Systems (DTSs), Frequency Hopping Systems (FHSs) and Licence-Exempt Local Area Network (LE-LAN) Devices. This standard sets out certification requirements for radio apparatus operating in the bands 902-928 MHz, 2400-2483.5 MHz and 5725-5850 MHz employing frequency hopping, digital modulation and/or a combination (hybrid) of both techniques. It also includes licence-exempt local area network (LE-LAN) devices operating in the bands 5150-5250 MHz, 5250-5350 MHz, 5470-5725 MHz, 5725-5850 MHz, and 5850-5895 MHz as specified in SP-5150MHz and in SMSE-012-22Decision on the Technical and Policy Framework for Radio Local Area Network Devices in the 5850-5895 MHz Band and for the Intelligent Transportation Systems in the 5895-5925 MHz Band.

Ukraine

Bioresources and products produced from aquatic bioresources

24/04/2023

Draft Law "On Ensuring the Traceability of Aquatic Bioresources and Products Produced from Aquatic Bioresources";

The draft Law defines the basic legal, economic and organizational principles for ensuring the traceability of aquatic bioresources and products produced from aquatic bioresources that are placed on the market in Ukraine, as well as imported (sent) into the customs territory of Ukraine and/or exported (sent) from it in order to ensure sustainable management of aquatic bioresources, prevent illegal, unreported and unregulated fishing, promote the preservation, rational use and protection of aquatic bioresources, as well as protect the rights and economic interest of business entities. Upon the entry into force of this Law, Law of Ukraine of February 06, 2003 No 486-IV "On Fish, Other Aquatic Living Resources and Food Products from Them" will be repealed.
