		<p>This draft Regulation of the European Parliament and of the Council on packaging and packaging waste aims to harmonise the rules for placing packaging on the EU market while fostering packaging sustainability and circularity. It lays down sustainability requirements for placing packaging on the EU market related to its composition, design with the view to packaging minimisation, recyclability, use of secondary raw materials in plastic packaging, compostability and requirements on reusable packaging. In order to reduce the generation of packaging waste, it restricts the use of some packaging formats and establishes obligations on economic operators and Member States, including packaging reuse and waste prevention targets. As regards recycling targets and the related rules on their calculation, it maintains obligations from the existing EU packaging legislation (European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste).</p>

Paragraph 1 of Article 7 of this Act stipulates that tobacco products designated by the central competent authority (hereinafter referred to as “the products”) shall be submitted by the manufacturers and/or importers to the central competent authority for application for the health risk assessment review and granted by the central competent authority before manufacturing or importing the products. Paragraph 2 of Article 7 of this Act stipulates that if new health risk(s) related to the tobacco products that have been declared to the central competent authority is/are discovered, the central competent authority may designate the tobacco products as the products that shall be submitted for application for the health risk assessment review within a specified period of time and order the recall of the products and suspension from manufacturing or importing the products within a specified period of time. If the products are not granted by the central competent authority under the health risk assessment review, the central competent authority shall order the recall or destruction of the products within a period of time and prohibit the manufacture and/or importation of the products. To provide legitimate grounds for the application and review, the Regulations of the Health Risk Assessment Review of Designated Tobacco Products (Draft) are stipulated in pursuant to the authorization under Paragraph 3 of Article 7 of this Act, and the main points are as follows: The source of law for these regulations (Article 1). The obligor and time limit of and exemption from the submission of the products for application for the health risk assessment review (Article 2). The application form, documents and data that shall be submitted by the manufacturers or importers of the products (Article 3). The methods by which the central competent authority conducts health risk assessment review (Article 4). The circumstances in which the application for the health risk assessment review shall be denied (Article 5). The central competent authority may require the manufacturers and/or importers of the products which have been granted by the central competent authority under the health risk assessment review to submit post-market monitoring and control mechanisms (Article 6). The amount of the fee for applying for the health risk assessment review is determined by the central competent authority (Article 7). The products that are denied under the health risk assessment review shall not be submitted by the same applicant for application for the health risk assessment review within one year (Article 8).
