G/TBT/N/CAN/740 24/02/2025	Canada	<i>Radiocommunications (ICS 33.060)</i> Consultation on RSS-247, Issue 4 Notice is hereby given by the Ministry of Innovation, Science and Economic Development Canada has amended the following standard: RSS-247, issue 4, Digital Transmission Systems, Frequency Hopping Systems and Licence-Exempt Local Area Network Devices in 902-928 MHz, 2400-2483.5 MHz, 5150-5350 MHz, and 5470-5895 MHz bands, sets out the requirements for the certification of frequency hopping systems (FHS), digital transmission systems (DTS) and combination (hybrid) systems operating in the bands 902-928 MHz, 2400-2483.5 MHz and 5725-5850 MHz. Additionally, this RSS also includes licence-exempt local area network (LE-LAN) and DTS devices operating in the bands 5150-5250 MHz, 5250-5350 MHz, 5470-5725 MHz, 5725-5850 MHz, and 5850-5895 MHz.	05/05/2025
G/TBT/N/CAN/741 24/02/2025	Canada	<i>Prescription status of medicinal ingredients for human use (ICS: 11.120; HS 3004.90)</i> Notice of Consultation on the Prescription Drug List (PDL): Nicotine Buccal Pouches (2 pages, English and French) The purpose of this Notice of Consultation is to provide an opportunity for the public and other interested stakeholders to comment on the proposal to revise the listing for "Nicotine or its salts" on the human use part of the Prescription Drug List (PDL). The proposal is to clarify the non-prescription use of nicotine buccal pouches by: amending part "d" of the qualifier of the listing to be specific to sprays and inhalers only, and adding a new part "f" to the qualifier that is specific to nicotine buccal pouches.	29/04/2025
G/TBT/N/CAN/742 24/02/2025	Canada	<i>Prescription status of medicinal ingredients for human use (ICS: 11.120; HS 3004.90)</i> Notice of Consultation on the Prescription Drug List (PDL): Nicotine Tablets (2 pages, English and French) The purpose of this Notice of Consultation is to provide an opportunity for the public and other interested stakeholders to comment on the proposal to revise the listing for "Nicotine or its salts" on the human use part of the Prescription Drug List (PDL). The proposal is to allow the non-prescription use of orally disintegrating or sublingual tablets by: adding a new part "g" to the qualifier of the listing to specifically exempt orally disintegrating or sublingual tablets containing 4 milligrams or less of nicotine per dosage unit.	29/04/2025
G/TBT/N/EU/1109 24/02/2025	European Union	<i>Fertilising products</i> Draft Commission Delegated Regulation amending Regulation (EU) 2019/1009 of the European Parliament and of the Council as regards conformity assessment procedures for EU fertilising products Annex IV of Regulation (EU) 2019/1009 lays down conformity assessment procedures for the assessment of fertilising products. Module A1 is amended as to introduce	25/04/2025

the requirement that detonation resistance tests for ammonium nitrate fertilisers of high nitrogen content shall be carried out only by laboratories with proven technical capacity. Module D1 is amended as to set a general audit frequency for recovered component materials, independent from the required output material sampling.

G/TBT/N/CHL/721 24/02/2025	Chile	<i>Gypsum plasterboard</i> NCh146/2:2024 Planchas o placas de yeso-cartón - Parte 2: Métodos de ensayo (Chilean Standard (NCh) No. 146/2:2024 Gypsum plasterboard - Part 2: Standard testing) (19 pages, in Spanish) The notified Standard establishes the standard testing methods for gypsum plasterboard.	25/04/2025
G/TBT/N/CHL/722 25/02/2025	Chile	<i>Fiber-cement, flat sheets, corrugated sheets and flat shingles</i> NCh1909:2024 Fibrocemento Planchas planas, planchas onduladas y tejas planas- Ensayos (Chilean Standard (NCh) No. 1909/2024: Fiber-cement - flat sheets, corrugated sheets and flat shingles - test methods) (24 pages, in Spanish) 1.1 The notified Standard establishes the test methods used to verify compliance with the requirements established in Chilean Standards (NCh) Nos. 186/1 and 186/2.1.2 It provides for the following test methods:(a) determination of geometric characteristics;(b) flexural strength;(c) density;(d) impermeability;(e) resistance to changes in temperature;(f) water absorption.1.3 This Standard applies to fiber-cement flat sheets, corrugated sheets and flat shingles.	26/04/2025
G/TBT/N/CHL/723 25/02/2025	Chile	<i>Gypsum boards with fibre-fabric facing</i> NCh3842/2:2024 Planchas o placas de yeso con revestimiento de tejido de fibra - Parte 2: Métodos de ensayo (Chilean Standard (NCh) No. 3842/2:2024: Gypsum boards with fibre-fabric facing - Part 2: Standard testing) (25 pages, in Spanish) The notified Standard establishes the standard testing methods for gypsum boards with fibre-fabric facing used in construction (ceilings, partitions, wall cladding, etc.).	26/04/2025
G/TBT/N/CHL/724 25/02/2025	Chile	<i>Cosmetics</i> Modificación del Decreto Supremo N°239, del 2003, del Ministerio de Salud, que Aprueba Reglamento del Sistema Nacional de Control de Cosméticos asociada a la Ley 21.646 (Amendment to Ministry of Health Supreme Decree No. 239, of 2003, approving the Regulations of the National Cosmetics Control System pursuant to Law No. 21.646) (13 pages, in Spanish) The Amendment to Ministry of Health Supreme Decree No. 239, of 2003, approving the Regulations of the National Cosmetics Control System pursuant to Law No. 21.646, is being submitted for public consultation. The amendments incorporate the necessary regulatory changes to implement and enforce Law No. 21.646. This Law amends the Health Code in order to prohibit, from its entry into force, the introduction into the domestic market of cosmetics that have been tested on animals to demonstrate their safety and efficacy.	21/04/2025

G/TBT/N/SAU/1387 25/02/2025	Saudi Arabia, Kingdom of	<i>Laundry appliances (ICS code(s): 97.060)</i> SASO 2885:2025 - “Electrical Clothes Washing Machines - Energy and Water Performance Requirements and Labelling” Draft of Updated version of standard number SASO 2885 "Electrical Clothes Washing Machines - Energy and Water Performance Requirements and Labelling". This standard specifies the Minimum Energy Performance Standard (MEPS) and testing requirements of electric mains-operated washing machines and washer-dryers with a capacity up to 25 kg, including built-in and multi-drum washing machines and washer-dryer, also electric mains-operated that can be powered by batteries.	26/04/2025
G/TBT/N/SAU/1388 25/02/2025	Saudi Arabia, Kingdom of	<i>Domestic electrical appliances in general (ICS code(s): 97.030)</i> SASO 2892:2025 - "Refrigerators, Refrigerator- Freezers And Freezers, Energy Performance, Testing and Labeling Requirements" Draft of Updated version of standard number SASO 2892 "Refrigerators, Refrigerator- Freezers And Freezers, Energy Performance, Testing and Labeling Requirements". This standard specifies the Minimum Energy Performance Standard (MEPS) and testing requirements of electric mains-operated refrigerators, refrigerator-freezers and freezers with a volume of more than 10 liters and less than or equal to 1500 liters.	26/04/2025
G/TBT/N/RWA/1170 26/02/2025	Rwanda	<i>External structures (ICS code(s): 91.090)</i> DRS 402: 2025, Garages — Construction and management requirements This Draft Rwanda Standard specifies the requirements for construction and management of motor vehicle repair garage. It is applicable to commercial repair garage and not applicable to residential garages (attached and detached garages) fueling stations or services stations and washing stations that performs car servicing works. It excludes garage waste management which is covered in RS 368.	27/04/2025
G/TBT/N/RWA/1171 26/02/2025	Rwanda	<i>Fertilizers (ICS code(s): 65.080)</i> DRS 603-1: 2025, Ammonium chloride fertilizer — Specification — Part 1: Solid This Draft Rwanda Standard specifies the requirements, sampling and test methods for solid ammonium chloride fertilizer.	27/04/2025
G/TBT/N/RWA/1172 26/02/2025	Rwanda	<i>Fertilizers (ICS code(s): 65.080)</i> DRS 604-1: 2025, Organo-mineral fertilizer — Specification — Part 1: Solid This Draft Rwanda Standard specifies the requirements, sampling and test methods for solid Organo-mineral fertilizer.	27/04/2025
G/TBT/N/RWA/1174 26/02/2025	Rwanda	<i>Fertilizers (ICS code(s): 65.080)</i> DRS 604-2: 2025, Organo-mineral fertilizer — Specification — Part 2: Liquid This Draft Rwanda Standard prescribes the requirements, sampling and test methods for liquid Organo-mineral fertilizer.	27/04/2025

G/TBT/N/URY/100 26/02/2025	Uruguay	<i>Carnes y productos cárnicos: chacinado seco y chacinado cocido</i> Proyecto de Resolución N° 04/24 - Modificación de la Resolución GMC N° 63/18 - Reglamento Técnico MERCOSUR de Asignación de Aditivos y sus Límites Máximos para la Categoría de Alimentos: Categoría 8: Carnes y Productos Cárnicos El documento que se somete a consulta pública incluye al ácido acético, INS 260, con la función acidulante, límite de concentración 2g/100g y con la nota “solo para tratamiento de envoltorios naturales”, para la categoría de alimentos 8: Carnes y productos cárnicos, subcategorías 8.2.1.2 Chacinado seco y 8.2.1.3 Chacinado cocido, reglamentado en la Resolución GMC N° 63/18.	27/04/2025
G/TBT/N/URY/101 26/02/2025	Uruguay	<i>Maíz en grano y harinas o sémolas de maíz; Maní</i> Proyecto de Resolución N° 05/24 - Modificación de la Resolución GMC N° 25/02 - Reglamento Técnico MERCOSUR sobre Límites Máximos de Aflatoxinas Admisibles en Leche, Maní y Maíz El documento que se somete a consulta pública sustituye el ítem 3 del Anexo de la Resolución GMC N° 25/02, modificando los límites máximos aplicables para aflatoxinas en el caso de maní y maíz, a partir de la revisión de dichos umbrales en el ámbito del Codex Alimentarius.	27/04/2025
G/TBT/N/URY/102 26/02/2025	Uruguay	<i>Postres lácteos</i> Proyecto de Resolución N° 06/24 - Reglamento Técnico MERCOSUR sobre uso de Fosfatos en Postres Lácteos El documento que se somete a consulta pública reglamenta el uso de diferentes fosfatos con sus respectivos límites máximos de concentración, como aditivos con función estabilizante en postres lácteos.	27/04/2025
G/TBT/N/URY/103 26/02/2025	Uruguay	<i>Envases de PET postconsumo reciclado grado alimentario (PET-PCR grado alimentario) destinados al contacto con alimentos</i> Proyecto de Resolución N° 07/24 - Reglamento Técnico MERCOSUR sobre Envases de Polietilentereftalato (PET) Postconsumo Reciclado Grado Alimentario (PET-PCR Grado Alimentario) destinados a estar en contacto con alimentos (Derogación de la Resolución GMC N° 30/07) El documento que se somete a consulta pública reglamenta la utilización de envases de PET postconsumo reciclado grado alimentario (PET-PCR grado alimentario) destinados al contacto con alimentos, en virtud de estudios realizados que avalan nuevas tecnologías de reciclado de PET postconsumo.	27/04/2025
G/TBT/N/URY/99 26/02/2025	Uruguay	<i>Helados comestibles, confituras (caramelos, pastillas, confites, chicles, turrone, productos de cacao y con cacao, chocolates, bombones, baños rellenos y otros productos similares), salsas y condimentos, postres.</i> Proyecto de Resolución N° 03/23 Revisión 1 - Modificación de las Resoluciones GMC N° 53/98, 54/98, 07/06 y 08/06 sobre Aditivos Alimentarios El documento que se somete a consulta pública incluye al beta-caroteno de Blakeslea trispora, INS 160a(iii), con la función colorante y ciertos límites máximos de	27/04/2025

concentración, como aditivo alimentario para las categorías de alimentos 3. Helados comestibles, 5. Confituras (Caramelos, Pastillas, Confites, Chiclos, Turrónes, Productos de Cacao y con Cacao, Chocolates, Bombones, Baños Rellenos y otros Productos Similares), 13. Salsas y condimentos, y 19. Postres. La asignación de aditivos y sus concentraciones máximas para estas categorías de alimentos se encuentran reglamentados por las Resoluciones GMC N° 53/98, 54/98, 07/06 y 08/06 respectivamente.

Infraestructura habilitante, en particular, instalaciones de producción, refinación, transporte, almacenamiento, distribución y almacenamiento de combustibles líquidos derivados del petróleo y biocombustibles.

29/03/2025

Modifica el Decreto Supremo N° 160, de 2008, del Ministerio de Economía, Fomento y Reconstrucción, que aprueba el reglamento de seguridad para las instalaciones y operaciones de producción y refinación, transporte, almacenamiento, distribución y abastecimiento de combustibles líquidos.

Esta modificación reglamentaria tiene por objeto actualizar la normativa vigente sobre el diseño y construcción de tanques de almacenamiento de combustibles líquidos con el propósito de que la industria energética disponga de alternativas que permitan garantizar mayor seguridad, eficiencia y sostenibilidad en la operación.

Regulations on the Supervision and Administration of Drug Production for Export

The purpose of the "Regulations on the Supervision and Administration of Drug Production for Export" is to regulate the drug manufacturing activities of Chinese manufacturers exporting drugs to other countries or regions, and to require the implementation of GMP. It mainly includes the following contents: general provisions, basic requirements, entrusted manufacturing for export, export drug archives, export certification documents (general requirements for export certification documents, Certificate of a Pharmaceutical product, Written confirmation for active substances exported to EU), supervision and management, and supplementary provisions.

28/04/2025

National Standard of the P.R.C., Protective clothing—Chemical protective clothing

This document specifies the classification and coding, technical requirements, test methods, marking and packaging of chemical protective clothing.

		This document applies to chemical protective clothing used in workplace operations and emergency rescue.
G/TBT/N/CHN/1992 27/02/2025	China	<i>protecting clothing against mechanical risks</i>(HS code(s): 28/04/2025 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protecting clothing—Protection against mechanical risks This document specifies the performance classification, technical requirements, test equipment, test methods, marking, packaging, storage, and the information to be provided by the manufacturer for protecting clothing against mechanical risks. This document applies to protective aprons, trousers and vests used with hand-held knives, as well as clothing that provides similar protection to body parts for accident prevention.
G/TBT/N/CHN/1994 27/02/2025	China	<i>oil-repellent, soil-release, antistatic clothing</i>(HS code(s): 28/04/2025 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing—Oil-repellent, soil-release, antistatic clothing This document specifies the technical requirements, test methods, marking and information to be provided by the manufacturer for oil-repellent, soil-release, and antistatic clothing. This document applies to oil-repellent, soil-release, and antistatic clothing worn by workers in the petroleum, petrochemical and other industries.
G/TBT/N/CHN/1995 27/02/2025	China	<i>protective clothing for sandblasting operations</i>(HS code(s): 28/04/2025 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing — Protective clothing for sandblasting operations This document specifies the technical requirements, test methods, marking and instructions to be provided by the manufacturer for protective clothing used in sandblasting operations. This document applies to protective clothing designed to protect the entire body or parts of the body from abrasives and injuries during the sandblasting process, and emphasizes the importance of combining with appropriate respiratory protection.
G/TBT/N/CHN/1996 27/02/2025	China	<i>ensembles and garments for protection against cold</i>(HS code(s): 28/04/2025 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing—Ensembles and garments for protection against cold This document specifies the technical requirements, test methods, marking, and information provided by the manufacturer of ensembles and garments for protection against cold. This document applies to cold weather protective clothing used in cold environments.
G/TBT/N/CHN/1997 27/02/2025	China	<i>protective clothing against microwave radiation</i>(HS code(s): 28/04/2025 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing—Protective clothing against microwave radiation This document specifies the requirements, test methods, marking and instructions for use of Protective clothing

		against microwave radiation with an applicable frequency range of 300 MHz to 40 GHz. This document applies to reflective microwave radiation protective clothing produced by methods such as metal fiber blending and fabric metallization, and also to absorptive microwave radiation protective clothing that uses absorbing materials to attenuate microwave radiation.	
G/TBT/N/CHN/1998 27/02/2025	China	<i>protective clothing against rain for occupational use</i>(HS code(s): 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing—Protective clothing against rain for occupational use This document specifies the technical requirements, test methods, inspection rules and markings of protective clothing against rain for occupational use. This document applies to protective clothing against rain for occupational use both in outdoor and indoor wet conditions, including water and rainfall environments.	28/04/2025
G/TBT/N/CHN/1999 27/02/2025	China	<i>repellent shield clothing</i>(HS code(s): 621710); (ICS code(s): 13.340.10) National Standard of the P.R.C., Protective clothing—Repellent shield clothing This document specifies the technical requirements, test methods, marking, information to be provided by the manufacturer, and packaging for insect repellent shield clothing. This document applies to protective clothing with insect-repellent properties, worn by workers in environments infested with insects such as mosquitoes and ants.	28/04/2025
G/TBT/N/CHN/2000 27/02/2025	China	<i>high-pressure carbon dioxide fire extinguishing systems</i>(HS code(s): 842410); (ICS code(s): 13.220.10) National Standard of the P.R.C., General technical specifications for components of carbon dioxide fire extinguishing systems This document specifies the requirements, the flow calculation method and verification, inspection rules, operation instructions, fire extinguishing agent filling, packaging, transportation and storage for high-pressure carbon dioxide fire extinguishing systems and their components. The corresponding test methods are also described. This document applies to the design, manufacturing and inspection of high-pressure carbon dioxide fire extinguishing systems.	28/04/2025
G/TBT/N/CHN/2001 27/02/2025	China	<i>pressure stabilized type water supply equipment used for fire-protection, pressure boosting type water supply equipment used for fire-protection</i>(HS code(s): 841410); (ICS code(s): 13.220.10) National Standard of the P.R.C., Fixed water supply equipment used for fire-protection —Part 3: Pressure boosting and stabilizing type water supply equipment used for fire-protection This document specifies the basic parameters, equipment composition and common components, appearance and identification, control functions, smart and IOT functions, water supply capacity, continuous operation, sealing performance, water pressure strength, and operating noise	28/04/2025

requirements, as well as the requirements for key components of pressure stabilized type water supply equipment and pressure boosting type water supply equipment used for fire-protection. It also provides methods for classification and model compilation, as well as the corresponding test methods. This document applies to the design, manufacture, and inspection of pressure stabilized type water supply equipment and pressure boosting type water supply equipment used for fire-protection.

Cosmetic
Draft Revision of Regulation of the Indonesian Food and Drug Authority Number 21 Year 2022 on Procedures for Cosmetic Notify Submission

28/04/2025

This regulation is the revised draft version from Regulation of The Indonesian FDA Number 21 Year 2022 on Procedures for Cosmetic Notify Submission. Once this new regulation is enacted, the previous regulation (Regulation of The Indonesian FDA Number 21 Year 2022 on Procedures for Cosmetic Notify Submission) will be revoked. The content of this draft regulation primarily outlines the requirements for cosmetics to be notified, which must include a valid PIF (Product Information File) to ensure that products meet the necessary standards both prior to and during their distribution in Indonesia. The company or person responsible for placing the cosmetic product in the market shall keep the following information readily accessible to the regulatory of the Member State concerned at the address specified on the label.

Protective clothing for use where there is a risk of entanglement with moving parts (HS code(s): 6101; 6102; 6103; 6113; 6114; 6201; 6202; 6203; 6210; 6211; 6214); (ICS code(s): 13.340.10)

28/04/2025

SI 1258 Part 2 - Protective clothing for use where there is a risk of entanglement with moving parts

The existing Mandatory Standard, SI 1258 part 2, dealing with protective clothing for use where there is a risk of entanglement with moving parts, shall be declared voluntary. This declaration aims to remove unnecessary trade obstacles and lower trade barriers. These products are listed in Israel Medical Devices Law 5772-2012, which requires pre-

registering in a Recognized Country and presenting a CE or FDA certification proving compliance with European and/or US Regulations for medical devices or other recognized regulatory bodies. The registration process in the Medical Devices Register is sufficient, and there is no need for duplication or regulatory overlap. The standard does not apply to consumer products but to products used by industrial workers to ensure their safety when working with moving machinery.

The Occupational Safety Regulations (Personal Protective Equipment), 5757-1997, apply to personal protective clothing in the workplace.

Under these Regulations, personal protective equipment should conform to the relevant Israeli standard or, if no Israeli standard exists, to one of the following standards: EN, DIN, ISO, ANSI, or another standard, with the approval of the Chief Labor Inspector. In other words, the standard's requirements are compulsory.

In light of the above and to eliminate regulatory duplication, the Minister of Economy and Industry declares this standard voluntary.
