G/TBT/N/CAN/772 02/03/2026	Canada	<i>Telecommunications (ICS 33.170)</i> Consultation on RSS-Gen, Issue 6 (48 pages in English, 50 pages in French) Notice is hereby given by the Ministry of Innovation, Science and Economic Development Canada has amended the following standard: RSS-Gen, issue 6, General requirements for compliance of radio apparatus, sets out the general requirements applicable to licensed and licence-exempt radio apparatus.	29/05/2026
G/TBT/N/CAN/773 02/03/2026	Canada	<i>Telecommunications (ICS 33.170)</i> Consultation on RSS-310, Issue 6 (10 pages in English, 10 pages in French) Notice is hereby given by the Ministry of Innovation, Science and Economic Development Canada has amended the following standard: RSS-310, issue 6, Licence-exempt radio apparatus: category II equipment, sets out the requirements for licence-exempt radio apparatus that is exempt from certification.	29/05/2026
G/TBT/N/EU/1193 02/03/2026	European Union	<i>Biocidal products and treated articles treated with or incorporating biocidal products</i> Draft Commission Implementing Decision (EU) on the non-approval of terbutryn, 1,2-Benzisothiazol-3(2H)-one (BIT), and tetrahydro-1,3,4,6-tetrakis(hydroxymethyl)imidazo[4,5-d]imidazole-2,5(1H,3H)-dione (TMAD) as existing active substances for use in biocidal products of product-types 9, 9, and 12, respectively, in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council This draft Commission Implementing Decision does not approve certain active substances in biocidal products pursuant to Regulation (EU) No 528/2012 of the European Parliament and of the Council. For these active substance/product-type combinations included in the review programme of existing active substances listed in Annex II to Regulation (EU) No 1062/2014, all the participants have withdrawn or are considered to have withdrawn their support. For these active substances the role of participant had not previously been taken over, but no notification has been submitted to the European Chemicals Agency. Therefore, all these active substance/product-type combinations should not be approved for use in biocidal products. As a consequence, also treated articles treated with or incorporating those active substances cannot be placed on the market in the Union 180 days after the decision.	01/05/2026
G/TBT/N/EU/1194 02/03/2026	European Union	<i>Biocidal products</i> Draft Commission Delegated Regulation (EU) amending Regulation (EU) No 528/2012 of the European Parliament and of the Council as regards the restriction of the use for the active substance carbon dioxide in Annex I, Category 6, thereto	01/05/2026

This draft Commission Delegated Regulation amends Regulation (EU) No 528/2012 of the European Parliament and of the Council as regards the restriction of the use for the active substance carbon dioxide in Annex I, Category 6, thereto. The relevant restriction of carbon dioxide in Annex I, Category 6, is amended and replaced by a new restriction.

Ukraine

Fruit jams, jellies, marmalades, sweetened chestnut puree
Draft Order of the Ministry of Economy, Environment and Agriculture of Ukraine "On Amendments to the Order of the Ministry of Agrarian Policy and Food of Ukraine No. 391 of 14 February 2024"

01/05/2026

The draft Order provides for amendments to the Order of the Ministry of Agrarian Policy and Food of Ukraine No. 391 "On Approval of the Requirements for Fruit Jams, Jellies, Marmalades and Sweetened Chestnut Puree" of 14 February 2024 (notified in document G/TBT/N/UKR/238/Add.1) and to the Requirements, by setting them out in a new version.

The proposed new version of the Requirements provides, in particular, for the following supplements:

-the possibility of using the names 'marmalade' and 'marmalade extra' instead of the names of food products "jam" and 'jam extra' respectively, except in cases where jam and jam extra are made from citrus fruits;

- an increase in the minimum total fruit content in the production of jam and extra jam, thereby reducing the amount of added sugar needed to achieve the minimum soluble dry matter content in these products, and contributing to healthier nutrition;

- the possibility of adding appropriate concentrated juices in the production of jam, jelly, as well as the addition of food additives that comply with the Requirements for Food Additives, approved by the Order of the Ministry of Health of Ukraine No. 45 "On Approval of Requirements for Food Flavours, Requirements for Food Additives and Requirements for Food Enzymes" of 8 January 2024. The draft Order also proposes to exclude provisions regarding the use of sulphur dioxide (E 220) or its salts (E 221, E 222, E 223, E 224, E 226 and E 227) in the processing of fruit raw materials. Furthermore, pursuant to the amendments proposed to paragraph 3 of Order of the Ministry of Agrarian Policy and Food of Ukraine No. 391 of 14 February 2024, the words "may be placed on the market for three years" shall be replaced with the words "may be produced and/or placed on the market for three years".

The draft Order developed in order to implement EU legislation.

The draft Order is also notified under the SPS Agreement.

Nuclear power plant engineering; Quality (ICS code(s): 03.120); Nuclear energy engineering (ICS code(s): 27.120)
Approval of the 2023 Edition of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code and Code Cases, Revision 41

28/04/2026

Proposed rule - The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to incorporate by reference the 2023 Edition of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code. This action is in accordance with the NRC's policy to

periodically update the regulations to incorporate by reference new editions of the ASME Codes and is intended to maintain the safety of nuclear power plants and to make NRC activities more effective and efficient. The NRC also is proposing to amend its regulations to incorporate by reference proposed revisions of three regulatory guides, which would approve new, revised, and reaffirmed code cases published by the ASME. This proposed action would allow nuclear power plant licensees and applicants to use the code cases listed in these draft regulatory guides as voluntary alternatives to engineering standards for the construction, inservice inspection, and inservice testing of nuclear power plant components. This proposed rule also incorporates minor editorial corrections. The NRC is requesting comments on this proposed rule, on the draft versions of three regulatory guides, and the draft version of an additional regulatory guide which will not be incorporated by reference.>

United States of America

Per- and Polyfluoroalkyl Substances; Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100)

Implementing Statutory Addition of Certain Per- and Polyfluoroalkyl Substances (PFAS) to the Toxics Release Inventory

Beginning With Reporting Year 2026

Final Rule - The Environmental Protection Agency (EPA or the Agency) is updating the list of chemicals subject to toxic chemical release reporting under the Emergency Planning and Community Right-to-Know Act >EPCRA) and the Pollution Prevention Act (PPA). Specifically, this action updates the regulations to identify one perfluoroalkyl substance that must be reported pursuant to the National Defense Authorization Act for Fiscal Year 2020 (FY 2020 NDAA) enacted on 20 December 2019.

As this action is being taken to conform the regulations to a Congressional legislative mandate, notice and comment rulemaking is unnecessary.

Cosmetics

Draft Decree on the Management of Cosmetics

Description of content:

1. This draft Decree regulates the management of cosmetics, including:

- a) Declaration of cosmetic products;
- b) Manufacture of cosmetics in Vietnam;
- c) Management of imported cosmetic products and issuance of Certificates of Free Sale for exported cosmetic products;
- d) Product information dossiers, labeling and advertising of cosmetics;
- e) Online dossiers, procedures, and record keeping;
- f) Inspection, monitoring and ensuring the safety and quality of cosmetic products;
- g) Recall of cosmetic products, revocation of the registration number of the cosmetic product declaration form, and cessation of receiving applications for cosmetic product declarations.

2. This draft Decree applies to domestic and foreign agencies, organizations, and individuals involved in activities related to cosmetic products in Vietnam.

01/05/2026

The Draft Decree consists of 10 Chapters and 52 Articles, specifically:

1. Chapter I – General Provisions (02 Articles)

Provides for the scope of regulation, subjects of application and interpretation of terms.

2. Chapter II – Cosmetic Product Notification (12 Articles), provides for:

- Requirements on the safety and quality of cosmetic products;
- Cosmetic products must be notified to the competent state management authority before being placed on the market;
- Dossiers and procedures for product notification, post-notification amendments, and applications for renewal of notification validity;
- Following notification and public disclosure of product information, the competent state authority shall conduct post-notification dossier review and carry out inspection and supervision of cosmetic products circulated on the Vietnamese market.

3. Chapter III – Manufacture of Cosmetics in Viet Nam (07 Articles), provides for:

- Cosmetic manufacturing establishments must satisfy requirements relating to personnel, facilities, equipment and quality management systems, and shall be subject to periodic assessment every three (03) years or extraordinary inspection;
- Establishes unified conditions for the issuance of the Certificate of Eligibility for Cosmetic Manufacture and the CGMP Certificate;
- Decentralization to Provincial People's Committees the authority to issue, amend and revoke the Certificate of Eligibility for Cosmetic Manufacture and the CGMP Certificate;
- Provides specific cases for revocation of the Certificate of Eligibility for Cosmetic Manufacture.

4. Chapter IV – Management of Imported Cosmetics and Issuance of Certificates of Free Sale (CFS) for Exported Cosmetics (03 Articles), provides for:

- Imported cosmetic products must be notified prior to customs clearance, except in cases such as importation for research or testing purposes, importation by diplomatic missions, personal gifts not intended for commercial purposes, etc.;
- Provisions on the issuance of Certificates of Free Sale (CFS) for domestically manufactured cosmetic products intended for export.

5. Chapter V – Product Information File (PIF), Advertising and Labelling of Cosmetics (03 Articles), provides for:

- Cosmetic products placed on the market must have a Product Information File (PIF) in accordance with ASEAN guidelines;
- Labelling of cosmetic products shall comply with the legislation on goods labelling, and mandatory labelling requirements shall be implemented in accordance with the ASEAN Cosmetic Agreement;
- Cosmetic advertising shall comply with the law on advertising and shall not require prior content approval.

6. Chapter VI – Online Dossiers, Procedures and Electronic Record Retention (03 Articles)

Provides for requirements applicable to online dossiers; provisions on online procedures; and electronic record retention.

7. Chapter VII – Inspection, Supervision and Assurance of Cosmetic Safety and Quality (04 Articles), provides for:

- Detailed provisions on post-notification dossier review;
- Detailed provisions on specialized inspection. Cosmetic products that have undergone compliant post-notification dossier review shall not be subject to re-inspection;
- Risk-based prioritization for quality inspection according to the level of risk posed by cosmetic products;
- Specification of competent authorities designated to conduct sampling and testing of cosmetic products for quality control.

8. Chapter VIII – Recall of Cosmetic Products, Revocation of Notification Receipt Numbers and Suspension of Acceptance of Notification Dossiers (04 Articles), provides for:

- Cases of recall of cosmetic products; cases of revocation of notification receipt numbers and suspension of acceptance of notification dossiers;
- Forms, competence and responsibilities relating to the recall of cosmetic products.

9. Chapter IX – Organization of Implementation (09 Articles)

Provides for the responsibilities of ministries, sectors, organizations and individuals engaged in the manufacture and trading of cosmetic products.

10. Chapter X – Implementation Provisions (05 Articles)

Provides for transitional provisions, entry into force, reference clauses and responsibilities for implementation.

The amendment introduces a new paragraph aligned with the final paragraph of Annex 2 to Directive 94/11/EC of the European Parliament and of the Council of 23 March 1994 on the approximation of the laws, regulations and administrative provisions of the Member States relating to labelling of the materials used in the main components of footwear for sale to the consumer, taking into account national legislation. The proposed paragraph reads as follows: "The scope of the Technical Regulation on Labelling the Materials Used to Manufacture the Main Components of Footwear for Sale to the Consumer extends to products included in Group 64 of the Ukrainian Classification of Goods for Foreign Economic Activity (UKT ZED), and which, according to the definition of the term "footwear" belong to the types of footwear listed in this Annex, taking into account the provisions of paragraph 4 of the said Technical Regulation". The draft Order has been developed to ensure full alignment of the Technical Regulation with Directive 94/11/EC.</p>	04/05/2026
<p>G/TBT/N/UKR/373 05/03/2026</p>	Ukraine	<p><i>Tobacco products ingredients</i></p> <p>Resolution of the Cabinet of Ministers of Ukraine No. 233 "On the implementation of a pilot project for the electronic submission and publication of information (reporting) on the ingredients and emissions of tobacco products" of 18 February 2026</p>	04/04/2026

The Resolution approves the Procedure for the implementation of a pilot project for the electronic submission and publication of information (reporting) on the ingredients and emissions of tobacco products and has been developed to implement the provisions of Article 11-1 of the Law of Ukraine "On Measures to Prevent and Reduce the Use of Tobacco Products and Their Harmful Impact on Public Health". Pursuant to this Resolution, manufacturers and importers of tobacco products and herbal smoking products shall submit electronic reports on the ingredients of tobacco products, herbal smoking products and their emissions through the "eTobacco" system. Such reporting shall be submitted for the first time within three months after information on the launch of the "eTobacco" system is published on the official website of the State Service of Ukraine for Food Safety and Consumer Protection. Reporting shall be submitted in accordance with the procedure established under Article 11-1 of the Law of Ukraine Measures to Prevent and Reduce the Use of Tobacco Products and Their Harmful Impact on Public Health", as determined by the Ministry of Health of Ukraine. The use of the "eTobacco" system, as well as the creation, processing, protection and transmission of information through the system, shall be provided free of charge. On behalf of manufacturers/importers of tobacco products, the "eTobacco" system shall be used by the head of the entity and/or their authorized representatives. Access to the "eTobacco" system shall be provided to users through their electronic user accounts. The Resolution also provides that the pilot project on the electronic submission and publication of information (reporting) on the ingredients and emissions of tobacco products shall be implemented for a period of two years from the date of entry into force of this Resolution. This pilot project is consistent with the provisions of Directive 2014/40/EU of the European Parliament and of the Council of 3 April 2014 on the approximation of the laws, regulations and administrative provisions of the Member States concerning the manufacture, presentation and sale of tobacco and related products and repealing Directive 2001/37/EC, Commission Implementing Decision (EU) 2015/2186 of 25 November 2015 establishing a format for the submission and making available of information on tobacco products and Commission Implementing Decision (EU) 2016/787 of 18 May 2016 laying down a priority list of additives contained in cigarettes and roll-your-own tobacco subject to enhanced reporting obligations. The digital platform "eTobacco" is designed as a prototype of the EU Common Entry Gate (EU-CEG).

Proposed amendments to the "Labelling Standards for Genetically Modified Foods"

The ministry of Food and Drug Safety(MFDS) of the Republic of Korea proposes to amend the Labelling Standards for Genetically Modified Foods. The main amendments are as follows:Even when genetically modified DNA or proteins are not detectable in the final products, foods manufactured or processed using genetically modified

ingredients shall be subject to genetically modified food labelling requirements, including: soy sauce, saccharides, edible fats and oils as defined under the Korean Food Code. 2. In consideration of industry preparedness and related circumstances, the dates of entry into force are set as follows: Soy sauce: effective from 31 December 2026 Saccharides, edible fats and oils: effective from 31 December 2027

See ICS codes table attached.

Electricity (Safety) Amendment Regulations 2025 and Gas (Safety and Measurement) Amendment Regulations 2025

Amendments to the Electricity (Safety) Regulations 2010 (the ESR) and the Gas (Safety and Measurement) Regulations 2010 (the GSMR) will update approximately 440 citations of standards, alongside a range of technical updates. The Electricity (Safety) Regulations 2010 and the Gas (Safety and Measurement) Regulations 2010 (the regulations) set benchmarks for safe electricity and gas networks, installations, appliances, and associated fittings in New Zealand. The key changes are:

- Updates to 50 citations in Schedule 2 of the Electricity (Safety) Regulations 2010, primarily to the latest available version of the same

standard, including in relation to solar technologies.

- Updates to 309 citations in Schedule 4 of the Electricity (Safety) Regulations 2010, primarily to the latest available version of the same standard.

- Introduction of 53 new citations in Schedule 4 of the Electricity (Safety) Regulations 2010, addressing a range of technologies, including (but not limited to) refrigerating systems, electrical vehicles, and transportable tools.

- Updates to 22 citations in Schedule 1 of the Gas (Safety and Measurement) Regulations 2010, primarily to the latest available version of the same standard.

o Additional to citation updates, these changes will also:

- Update references to Gas compliance bodies in the Gas (Safety and Measurement) Regulations 2010 to recognise current European, Australian, and British gas certification bodies.

- Restructure parts of Schedule 4 of the Electricity (Safety) Regulations 2010 to better categorise products covered in these regulations.

o These changes ensure the regulations are as up to date as possible and meet international standards. This will remove existing barriers and costs for both consumers and suppliers and move us closer in line to our international counterparts.
