Ukraine

controlled substances (ozone-depleting substances and fluorinated greenhouse gases), goods and equipment containing ozone-depleting substances and fluorinated greenhouse gases.

17/05/2024

The list of controlled substances, as well as goods and equipment, if they contain controlled substances, covered by the notified measure, is attached to this notification.

draft Order of the Ministry of Environmental Protection and Natural Resources of Ukraine "On Approval of the Procedure for Labelling of Controlled Substances, Goods and Equipment"

the draft Order provides for the approval of the Procedure for labelling of controlled substances, goods and equipment, which determines uniform requirements for information to be indicated when labelling them, the exact wording of the text for labelling of controlled substances intended for use for specific purposes, as well as requirements for placement, readability and durability of labelling.

The labelling shall, in particular, indicate the following information: whether the good or equipment contains or utilizes controlled substances; the common industrial name and chemical name of the controlled substance contained or used; the actual or estimated quantity of controlled substances in the good measured in mass units, and the equivalent of ozone-depleting potential or global warming potential, global warming potential.

In accordance with the Procedure the following goods/equipment are subject to mandatory labelling: refrigeration equipment; air-conditioning equipment; heat pumps; fire protection equipment; electrical switchgear; aerosol dispenser that contain fluorinated greenhouse gases, with the exception of metered dose inhalers for the delivery of pharmaceutical ingredients; all fluorinated greenhouse gas containers; fluorinated greenhouse gas-based solvents; organic Rankine cycles; foam materials and pre-blended polyols.

The Procedure will apply to business entities - operators of controlled substances that import, export and place on the market ozone-depleting substances, fluorinated greenhouse

gases, goods and equipment containing them. The draft Order is developed pursuant to part three of Article 3, Articles 12 and 13 of the Law of Ukraine "On Regulation of Economic Activities Involving Ozone Depleting Substances and Fluorinated Greenhouse Gases", which stipulate that goods and equipment containing ozone-depleting substances and fluorinated greenhouse gases may be placed on the market only if they are properly labelled. The information to be included in the labelling and the minimum requirements for labelling are set out in Articles 12 and 13 of the mentioned Law. The Procedure is also developed based on the requirements provided for in Article 12 of Regulation (EU) No 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006 and Commission Implementing Regulation (EU) 2015/2068 of 17 November 2015 establishing, pursuant to Regulation (EU) No 517/2014 of the European Parliament and of the Council, the format of labels for products and equipment containing fluorinated greenhouse gases.

G/TBT/N/USA/2106 18/03/2024	United States of America	<p><i>Electric bicycles; Protection against dangerous goods (ICS code(s): 13.300); Cycles (ICS code(s): 43.150)</i></p> <p>Electric Bicycles; Advance Notice of Proposed Rulemaking; Request for Comments and Information</p> <p>Advance notice of proposed rulemaking - The Consumer Product Safety Commission (CPSC or Commission) is considering developing a rule to address the risk of injury associated with electric bicycles (e-bikes). This advance notice of proposed rulemaking (ANPR) initiates a rulemaking proceeding under the Consumer Product Safety Act (CPSA) and the Federal Hazardous Substances Act (FHSA). We invite comments concerning the risk of injury associated with mechanical hazards of e-bikes, potential regulatory alternatives, the economic impacts of various approaches, existing voluntary standards, and plans to develop new standards to address these risks.</p>	14/05/2024
G/TBT/N/TUR/210 19/03/2024	Türkiye	<p><i>Lentils</i></p> <p>Turkish Food Codex - Communiqué on Lentil 2023/35</p> <p>This Communiqué covers product definitions and features, quality criteria and labelling requirements of lentils. Currently, Turkish Food Codex- Communiqué on Lentil (2003/25) is in force in Türkiye. This draft communiqué will enter into force on the date of publication and replace the current communiqué. The content of the Communiqué has been drafted without making any changes in the main issues, only the references to the legislation and the names of the Ministries have been adjusted according to the current situation. A transitional period is foreseen for the compliance with the new provisions.</p>	05/06/2024
G/TBT/N/GBR/77 19/03/2024	United Kingdom	<p><i>Method of production labelling proposals cover unprocessed pork, chicken and egg and certain minimally processed pork, chicken and egg products. The scope of products covered by any country of origin labelling reforms will be confirmed post-consultation.</i></p> <p>Consultation on fairer food labelling</p>	07/05/2024

This notification intends to make Members aware of a consultation on options to improve transparency and consistency around food labelling in the UK. This consultation seeks views on proposals to improve and extend mandatory method of production labelling for both domestic and imported products, for all unprocessed pork, chicken and eggs and certain prepacked and loose minimally processed products containing pork, chicken or egg. The consultation also seeks views and evidence on possible interventions that may improve consumer understanding of the origin of certain foods, including how and where origin information is displayed, and on which products origin information should be mandatory. Members are invited to look at the consultation and submit comments through the consultation process if they are interested. The next steps will be determined following a review of consultation responses.

Israel

Products and commodities subject to Mandatory Standards
Standards Law (Compliance with European regulation requirements) (Amendment no. _) 5784-2024

21/05/2024

The Minister of Economy and Industry announced a draft amendment to Israel's Standards Law. This amendment significantly reforms Israel's import regime.

The proposed amendment aims to reduce the regulatory and bureaucratic burden on manufacturers, importers, and retailers. It promotes competition and encourages free international trade, by adding an alternative route to importing and marketing goods subject to a mandatory standard. The new alternative route relies on European regulations, reduces regulatory requirements at the import stage, and focuses on market surveillance and sampling goods at the ports according to a new risk management system. According to this new regime, manufacturers and importers that promote self-enforcement or submit documents showing that the goods were marketed in Europe, will be subject to facilitated import requirements. This proposed amendment also includes an indirect amendment to update Israel's Import and Export Decree accordingly.
