**Pharmacists Ordinance (Amendment no. ) 5741-1981**

Israel's Ministry of Health announced a new draft amendment to the Pharmacists Ordinance [New Version] 5741-1981. This proposed amendment aims to reduce trade barriers by coordinating the Israeli import regime with The European Regulation (EC) No 1223/2009 on Cosmetic Products regarding prohibited substances in cosmetics, restricted substances, dyes, sunscreens and preservatives. and includes the following significant changes: Adopts of EU regulations to apply in Israel; Allows adequate cosmetics importers to import from EU member countries, UK or Switzerland, even if they do not have access to the cosmetic product information file or to its safety assessment.

31/03/2024

**Energy Sources Law (Amendment) 5784-2024**

The proposed law amendment aims to reduce the cost of living by decreasing regulations on importing electrical products. It adds a parallel import approval route that allows manufacturers and importers to submit proof that the product is included in an official European register instead of DoC. If this device is not required to be listed in a registry, then a proof that it is marketed in Europe will be required.

**Protection of Public Health Law (Food) (Amendment No. 5 and Temporary Provisions) (Expanding the Adoption of European law and its streamlining, and removing barriers to importing food through the European compliance route), 5784-2024**

The Ministry of Health publishes a draft amendment to the Protection of Public Health Law (Food) (Amendment No. 5 and Temporary Provisions) (Expanding the Adoption of European law and its streamlining and removing barriers to importing food through the European compliance route), 5784-2024. This amendment promotes and extends the food reform implemented in 2021, which aims to reduce the cost of living and is based on the European model. The major changes introduced in this amendment are as follows: Simplifies and streamlines the procedures for updating changes in European law and delegates the updating authority to the Food Service Director; Adopts an additional 20 European food regulations, including food labeling, food additives, and substances that come into contact with food and creates harmonization and compatibility between Israeli and European food safety legislation; Promotes significant ease to the importation of food marketed in the EU for Authorized Economic Operator AEO ("Appropriate Importer"); Extends the

obligation to manage a self-safety system to all food distributors. This requirement is necessary to regulate food labeling similar to that in Europe, especially for labeling foods that cause allergy or intolerance.

**and Safety Data Under the Toxic Substances Control Act (TSCA)**

Proposed rule - The Environmental Protection Agency (EPA or the Agency) is proposing to require manufacturers (including importers) of 16 chemical substances to submit copies and lists of certain unpublished health and safety studies to EPA. Health and safety studies sought by this action will help inform EPA's responsibilities pursuant to Toxic Substances Control Act (TSCA), including prioritization, risk evaluation, and risk management. The chemical substances being added by this proposed rule are: 4,4-Methylene bis(2-chloraniline) (CASRN 101-14-4); 4-tert-octylphenol(4-(1,1,3,3-Tetramethylbutyl)-phenol) (CASRN140-66-9); Acetaldehyde (CASRN75-07-0); Acrylonitrile (CASRN 107-13-1); Benzenamine (CASRN 62-53-3); Benzene (CASRN 71-43-2); Bisphenol A (CASRN 80-05-7); Ethylbenzene (CASRN 100-41-4); Naphthalene (CASRN 91-20-3); Vinyl Chloride (CASRN 75-01-4); Styrene (CASRN 100-42-5); Tribromomethane (Bromoform) (CASRN 75-25-2); Triglycidyl isocyanurate; (CASRN 2451-62-9); Hydrogen fluoride (CARN 7664-39-3); N-(1,3-Dimethylbutyl)-N'-phenyl-p-phenylenediamine (6PPD) (CASRN 793-24-8); and 2-anilino-5-[(4-methylpentan-2-yl) amino]cyclohexa-2,5-diene-1,4-dione (6PPD-quinone) (CASRN 2754428-18-5).

*Electrical stimulation devices intended for self-injurious behavior; Medical equipment (ICS code(s): 11.040); Domestic safety (ICS code(s): 13.120)*  
**Banned Devices; Proposal To Ban Electrical Stimulation Devices for Self-Injurious or Aggressive Behavior**

Proposed rule - The Food and Drug Administration (FDA, the Agency, or we) is proposing to ban electrical stimulation devices (ESDs) intended for self-injurious behavior (SIB) or aggressive behavior (AB). FDA has determined these devices present an unreasonable and substantial risk of illness or injury that cannot be corrected or eliminated by labeling. This proposal follows a court decision vacating a prior ban and amendment to the Federal Food, Drug, and Cosmetic Act clarifying our authority to ban a device for one or more intended uses. This action, if finalized, will mean ESDs for SIB and AB are adulterated and not legally marketed.
