These draft standards relate to the painting industry and include specifications and codes of practice for building painting, various types of solvent-borne and waterborne paints, road marking paints, and textured coatings.	25.05.2026
G/TBT/N/UKR/375 30.03.2026	Ukraine	<i>Veterinary medicinal products</i> Draft Resolution of the Cabinet of Ministers of Ukraine “On Approval of the Regulation on State Registration of	29.05.2026

Veterinary Medicinal Products and Repealing Certain Resolutions of the Cabinet of Ministers of Ukraine”

The draft Resolution aims to establish state registration requirements for placing veterinary medicinal products manufactured industrially or by a method involving an industrial process on the market.

The draft Resolution provides for:

- procedures for state registration of veterinary medicinal products, including submission of applications and the required documents in electronic form; examination of applications by the State Service of Ukraine on Food Safety and Consumer Protection; timelines for decision-making; grounds for suspending the processing of applications; procedures, timelines and fees for assessment of registration dossier materials by the authorized (designated) authority; grounds for taking a decision on the state registration or refusal of such registration;
- requirements for applications, registration dossiers and other documents attached to the application, package leaflet, labelling of veterinary medicinal products;
- conditions for the suspension, restoration and termination of the state registration;
- time limits for remedying deficiencies specified in the notification of suspension of the application processing.

The draft Resolution also proposes to establish transitional periods for certain provisions, taking into account the relevant transitional provisions of the Law of Ukraine "On Veterinary Medicine and Animal Welfare", in particular:

non-application of the requirement to submit documents confirming compliance of manufacturing sites with GMP requirements of (until 1 July 2027); possibility to submit applications and other documents in paper form (until 1 March 2030); non-application of requirements for the registration dossier and supporting documents regarding the research, testing, and risk assessment of genetically modified organisms (until 16 September 2026) and non-application of requirements for confirming compliance with relevant good practices in the registration dossier (until 1 July 2032).

The draft Resolution is developed to align national legislation in the field of animal health and welfare with EU law. It is also notified under the SPS Agreement.

8701 - Tractors (other than tractors of heading 8709)8702 - 29.05.2026

*Motor vehicles for the transport of ten or more persons, including the driver*8703 - *Motor cars and other motor vehicles principally designed for the transport of persons (other than those of heading 8702), including station wagons and racing cars*8704 - *Motor vehicles for the transport of goods*8705 - *Special purpose motor vehicles, other than those principally designed for the transport of persons or goods (for example, breakdown lorries, crane lorries, fire fighting vehicles, concrete-mixer lorries, road sweeper lorries, spraying lorries, mobile workshops, mobile radiological units)*
Automated Vehicles (Marketing Restrictions) Regulations 2026

These Regulations set out a list of restricted terms for the purposes of section 78 of the Automated Vehicles Act 2024 (“the Act”). That section provides that restricted terms may be used in connection with road vehicles only if used in connection with authorised automated vehicles. Subject to

		potential defences provided for by section 78 of the Act, a person commits an offence by using a restricted term in connection with the promotion or supply to Great Britain of a road vehicle, or of a product intended for use as equipment of a road vehicle, if the road vehicle is not an authorised automated vehicle. An authorised automated vehicle is a road vehicle authorised under section 3 of the Act for use as an automated vehicle.

The draft legislation consists of a single article, comprising one paragraph, divided into two subparagraphs. Paragraph 1(a): provides for the insertion of a new article in Part Four of Legislative Decree No. 152 of 3 April 2006, introducing the requirement for biodegradability and compostability for the packaging listed therein. Furthermore:	31.05.2026

- reference is made to the obligations to comply with the legislation on the use of materials intended to come into contact with food and the relevant provisions on waste management;

- the procedures for defining the exemptions provided for in accordance with Annex V, point 2, and Article 25(4) of Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste are regulated.

Paragraph 1, point (b): provides for the insertion of a new paragraph into Article 261 of Legislative Decree No 152 of 3 April 2006, in order to provide for specific administrative penalties for failure to comply with the obligations referred to in point (a) of the proposal.

The Order establishes detailed requirements regarding: 1) the determination of the list of food products covered by this regulation, specifically raw milk, drinking milk, dairy	31.05.2026

products and spreadable fats, including butter, margarine, spreads and fat blends;
 2) all types of drinking milk;
 3) the definition of specific designations for dairy products and spreadable fats used in certain countries and languages;
 4) the labeling and presentation of food products. For example, the labeling of spreadable fats must indicate the fat content as a percentage;
 5) the procedures for verifying the declared fat content in spreadable fats.

This Order also provides that milk, dairy products and spreadable fats that comply with the requirements of the legislation on safety and certain food quality indicators in effect prior to the entry into force of this Order, but do not meet all or specific provisions of the Requirements for milk, dairy products and spreadable fats approved by this Order, may remain in circulation until the end of their minimum shelf life or the expiration date (use-by date). The Order is also notified under the SPS Agreement.
