<a href="#">G/TBT/N/URY/63</a> 03/05/2022	Uruguay	<i>Leche y derivados</i> <b>Proyecto de Decreto por el cual se modifica el Capítulo 16 del Reglamento Bromatológico Nacional "Leche y Derivados"</b> Se modifica el Capítulo 16 del Reglamento Bromatológico Nacional relativo a leche saborizada o aromatizada, leche con agregados y bebida láctea.	02/07/2022
<a href="#">G/TBT/N/URY/64</a> 03/05/2022	Uruguay	<i>Alimentos sin lactosa, bajos en lactosa y reducidos en lactosa</i> <b>Proyecto de Decreto por el cual se derogan los artículos del Capítulo 29 del Reglamento Bromatológico Nacional</b> Se derogan algunos artículos del Reglamento Bromatológico Nacional, y se incorpora la Sección 2 -Alimentos sin lactosa, bajos en lactosa y reducidos en lactosa al Capítulo 32 ("Alimentos para fines especiales") del Reglamento Bromatológico Nacional.	02/07/2022
<a href="#">G/TBT/N/BRA/1375</a> 04/05/2022	Brazil	<i>Vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinised, whether or not refined, but not further prepared (HS code(s): 151620); Animal and vegetable fats and oils (ICS code(s): 67.200.10)</i> <b>MAPA Ordinance No.418, 30 March 2022ñ</b> MAPA Ordinance No. 418 Amends Annexes I, I* and III of Normative Instruction No. 49 of 22 December 2006, which approves the technical regulation on identity and quality of refined vegetable oils; sampling; complementary procedures; and the classification route for refined vegetable oils.	
<a href="#">G/TBT/N/TPKM/487</a> 04/05/2022	Chinese Taipei	<i>Mixtures containing perfluorocarbons "PFCs" or hydrofluorocarbons "HFCs", but not containing chlorofluorocarbons "CFCs" or hydrochlorofluorocarbons "HCFCs" (HS code(s): 382478); Motor cars and other motor vehicles principally designed for the transport of persons, incl. station wagons and racing cars (excl. motor vehicles of heading 8702) (HS code(s): 8703); Motor vehicles for the transport of goods, incl. chassis with engine and cab (HS code(s): 8704)</i> <b>Draft of Climate Change Response Act</b> The Environmental Protection Administration is proposing to revise to the Greenhouse Gas Reduction and Management Act to establish a resilient system that can react quickly to impacts of climate change and expedite the transition to net zero emission by introducing carbon tax and incentives for development of low carbon technology. Below is the summary of the revisions: -To rename the Act to be "Climate Change Response Act;" -To include the goal of net zero emissions by 2050; -To enhance the level of climate governance, designate the body for coordinating related affairs, and assign the responsibilities to different sectors; -To introduce climate change adaptation chapter, including basic capacity building, science-based risk assessment of climate change, and establishment of climate change governance and coordination mechanism between all levels of government, together with the existing mitigation chapter to make climate strategies complete; -To introduce the graded verification system according to the scope of emissions and the type of entities, in response to the rising demand for verification;	03/07/2022

- To introduce GHG emissions performance standards for certain equipment or industrial processes;
- To draw up permissible GHG emissions or mitigation requirements for the manufacture, importation, selling of motor vehicles;
- To impose carbon fee in stages on the direct and indirect GHG emissions, with the revenue being earmarked for GHG reduction, development of low carbon and negative emission technologies and industries, subsidies and awards for investments in GHG reduction technologies, to promote GHG reduction and low carbon economy development;
- To draw up regulations for imports: entities who import certain goods shall purchase reduction credits according to the differences in carbon emission; and
- To prohibit or restrict the manufacture, import, export, selling, use or emission of high global warming potential GHGs regulated by international environmental conventions, as well as products made with such GHGs. The EPA will announce the products subject to the control after adoption of the amendments. Such announcements will also be notified for Members' comments during the public hearing stage.

<a href="#">G/TBT/N/TPKM/488</a> 04/05/2022	Chinese Taipei	<i>Asbestos-containing products</i> <b>Draft of Restrictions on the Importing of Asbestos-Containing Products</b> The Environmental Protection Administration (EPA) announced asbestos as a Class 2 toxic chemical substance on 1 May 1989. Relevant regulations for handling of asbestos have been amended several times, and the use of asbestos has gradually been restricted. The use of asbestos (such as domestic manufacture of asbestos-containing products) is currently prohibited except for research, experimentation, and educational purposes. As for the control of asbestos-containing products, numerous alternatives to asbestos-containing products are already available. Therefore, to align with the international trend, the EPA is further restricting the import of asbestos-containing products to achieve the goal of maintaining environmental safety. Restrictions on the importing of asbestos-containing products will take effect from the date of the announcement.	03/07/2022
<a href="#">G/TBT/N/EU/889</a> 04/05/2022	European Union	<i>Motor Vehicles</i> <b>Draft Commission Regulation amending Commission Regulation (EU) 2017/1151 as regards the emission type approval procedures for light passenger and commercial vehicles</b> This draft Commission Regulation amends Commission Regulation (EU) 2017/1151 by reflecting the adaptation to technical progress achieved in the UN World Forum for Harmonisation of Vehicle Regulations on the UN Regulation 154 for the Worldwide harmonised Light-duty vehicles Test Procedure (WLTP) and in the draft UN Regulation on Real Driving Emissions (RDE) test procedure. The proposal further improves the RDE test procedure and repeals obsolete provisions for the rules on access to vehicles On Board Diagnostics information and vehicle repair and maintenance information, which were incorporated into the Type-Approval Framework Regulation (EU) 2018/858.	03/07/2022

<a href="#">G/TBT/N/USA/1857</a> 05/05/2022	United States of America	<p><i>Menthol cigarettes; Domestic safety (ICS code(s): 13.120); Tobacco, tobacco products and related equipment (ICS code(s): 65.160)</i></p> <p><b>Tobacco Product Standard for Menthol in Cigarettes</b></p> <p>Proposed rule -The Food and Drug Administration (FDA, the Agency, or we) is proposing a tobacco product standard that would prohibit menthol as a characterizing flavor in cigarettes. Tobacco use is the leading preventable cause of death and disease in the United States. Menthol's flavor and sensory effects increase</p>	05/07/2022

appeal and make menthol cigarettes easier to use, particularly among youth and young adults. There are over 18.5 million menthol cigarette smokers ages 12 and older in the United States. This proposed product standard would reduce the appeal of cigarettes, particularly to youth and young adults, and thereby decrease the likelihood that nonusers who would otherwise experiment with menthol cigarettes would progress to regular smoking. In addition, the proposed tobacco product standard would improve the health and reduce the mortality risk of current menthol cigarette smokers by decreasing cigarette consumption and increasing the likelihood of cessation. FDA is taking this action to reduce the tobacco-related death and disease associated with menthol cigarette use. The proposed standard also is expected to reduce tobacco-related health disparities and advance health equity.

<p><a href="#">G/TBT/N/USA/1858</a> 05/05/2022</p>	<p>United States of America</p>	<p><i>Cigars; Domestic safety (ICS code(s): 13.120); Tobacco, tobacco products and related equipment (ICS code(s): 65.160)</i>  <b>Tobacco Product Standard for Characterizing Flavors in Cigars</b>  Proposed rule -The Food and Drug Administration (FDA or Agency) is proposing a tobacco product standard that would prohibit characterizing flavors (other than tobacco) in all cigars and their components and parts. Characterizing flavors in cigars, such as strawberry, grape, cocoa, and fruit punch, increase appeal and make the cigars easier to use, particularly among youth and young adults. Over a half million youth in the United States use flavored cigars. This proposed product standard would reduce the appeal of cigars, particularly to youth and young adults, and thereby decrease the likelihood of experimentation, development of nicotine dependence, and progression to regular use. FDA is taking this action to reduce the tobacco-related death and disease associated with cigar use. The proposed standard also is expected to reduce tobacco-related health disparities and advance health equity.</p>	<p>05/07/2022</p>
<p><a href="#">G/TBT/N/VNM/220</a> 05/05/2022</p>	<p>Viet Nam</p>	<ul style="list-style-type: none"> <li>-Cordless telephone equipment (HS code: 8517.11.00);</li> <li>-27 MHz civil band angle modulation radio equipment (HS code: 8517.12.00);</li> <li>-Single-side and/or duplex amplitude-modulated radio equipment in the civil band 27 MHz (HS code: 8517.61.00; 8517.12.00; 8517.62.59);</li> <li>-Equipment for low-speed data transmission in the 5.8 GHz frequency band applied in the field of transportation (HS code: 8517.62.59);</li> <li>-C band VSAT equipment (HS code: 8517.62.59);</li> <li>-Ku band VSAT equipment (HS code: 8517.62.59);</li> <li>-Terrestrial mobile terminal station of the global system of non-geostationary satellite mobile communications in the band 1 GHz - 3 GHz (HS code: 8517.62.59);</li> <li>-Landing angle indicator in aeronautical radio navigation systems (HS code: 8526.91.10);</li> <li>-Radio transmitters, receivers and transmitters specialized for positioning and remote measurement (except equipment used offshore for the oil and gas industry) (HS code: 8517.62.59, 8517.62.69);</li> <li>-Radio navigation equipment (HS code: 8526.91.10, 8526.91.90);</li> <li>-Fifth generation (5G) mobile communication terminal (HS code: 8517.12.00, 8517.62.59);</li> <li>-Fifth generation (5G) mobile communication base station equipment (HS code: 8517.61.00);</li> </ul>	<p>04/07/2022</p>

-Fifth generation (5G) mobile communication repeater (HS code: 8517.62.59);  
 -Low power wide area network (LPWAN) radio equipment (HS code: 8517.61.00; 8517.62.21; 8517.62.59; 8517.62.69; 8517.62.99; 8517.69.00; 9015.10.90; 9026.80.20);

 -Terrestrial mobile radio equipment with removable antenna for analog voice (HS code: 8517.12.00).

**Draft national technical regulation on Electromagnetic Compatibility for Radio Equipment**

The draft National technical regulation on Electromagnetic Compatibility for Radio Equipment is based on ETSI EN 301 489-1 V2.2.3 (2019-11). The draft National technical regulation specifies general Electromagnetic Compatibility (EMC) requirements for radio equipment and related ancillary equipment. This draft National technical regulation applies to Vietnamese and foreign organizations and individuals that manufacture and trade in equipment covered by this regulation in the territory of Vietnam. This draft National technical regulation is intended to supersede QCVN 18:2014/BTTTT

**Draft national technical regulation on NB IoT User Equipment**

The draft National technical regulation on NB IoT User Equipment is based on ETSI EN 301 908-1 V15.1.1 (2021-09) and ETSI EN 301 908-13 V13.2.1 (2022-02). The draft National technical regulation specifies requirements for radio access parts of NB IoT terminal equipment operating on all or one of the bands specified in Table 1 of the National technical regulation. This draft National technical regulation applies to Vietnamese and foreign organizations and individuals that manufacture and trade in equipment covered by this regulation in the territory of Vietnam.

 -Cordless telephone equipment (HS code: 8517.11.00).

**Draft National technical regulation on electrical safety requirements for telecommunication and information terminal equipment**

The draft National technical regulation on electrical safety requirements for telecommunication and information terminal equipment is based on IEC 62368-1:2018, Audio/video, information and communication technology equipment -Part 1: Safety requirements. This draft National technical regulation

		<p>specifies electrical safety requirements for telecommunication and IT terminal equipment. This draft National technical regulation do not cover electrical safety requirements for interfaces designed and intended to connect to telecommunication and IT networks. This draft technical regulation applies to Vietnamese and foreign organizations and individuals that manufacture and trade in equipment covered by this regulation in the territory of Viet Nam. This draft National technical regulation is intended to supersede the article 2.4 of QCVN 22:2010/BTTTT.</p>
