Euro 6/VI Consultation document 2. DRAFT Land Transport Rule: Vehicle Exhaust Emissions Amendment 2023 The New Zealand Government is proposing to phase-in new emissions standards for the following groups of vehicles (when they are imported into the country): light vehicles, heavy vehicles, motorcycles/mopeds, and used disability vehicles. The emissions standards would be phased-in over five years. The relevant proposals include: · Shifting the minimum requirement for used imports from Euro 4/IV to Euro 5/V from 1 Feb 2024, including for disability vehicles; · Phasing in the shift from Euro 5/V to Euro 6/VI on used imports and new vehicles (including new disability vehicles) in several steps, between late 2024 and the start of 2028. · Allowing more time for used disability vehicles, which will shift to Euro 6d from 1 January 2028 at the latest. · Introducing an emissions requirement for mopeds and motorcycles. Requiring Euro 4 from 1 Feb 2025 and then Euro 5 from 1 Jan 2027. Aotearoa New Zealand currently accepts the use of several regional standards (European, Japanese, American, and Australian) and global standards (United Nations Economic Commission for Europe (UNECE[1])) to demonstrate emissions levels. This approach shall continue where broad equivalence is possible.</p>	14/07/2023

The proposed Amendment Rule change also includes some minor technical changes to outdated and redundant information in the rule.
