<a href="#">G/TBT/N/BWA/140</a> 24/05/2022	Botswana	<p><i>Glass in building (ICS code(s): 81.040.20)</i></p> <p><b>BOS 161-2:2012 Safety and security glazing materials for buildings—Part 2: Burglar-resistant and vandal-resistant glazing materials;</b></p> <p>1.1 This specification covers requirements for the performance of burglar-resistant and vandal-resistant glazing materials intended for use in areas of buildings that may be subject to manual attack.</p> <p>1.2 This specification does not cover glazing materials that have been treated or are intended to be treated at any place other than the works of a manufacturer, nor does it cover requirements for properties of glazing materials after aging, or the performance of burglar-resistant and vandal-resistant glazing materials under fire conditions.</p> <p>NOTE 1 Guidance on the verification of the quality of burglar-resistant and vandal-resistant glazing materials produced to this specification is given in Annex A.</p> <p>NOTE 2 Provision (when relevant) of the 10 specimen sheets of security glazing material to be used for the impact test requires special agreement between the supplier and the purchaser.</p>	23/07/2022
<a href="#">G/TBT/N/BWA/141</a> 24/05/2022	Botswana	<p><i>Surface active agents (ICS code(s): 71.100.40)</i></p> <p><b>BOS 307:2015 CLEANING CHEMICALS FOR USE IN THE FOOD INDUSTRY;</b></p> <p>The Botswana Standard specifies general requirements for cleaning chemicals intended for use in the food industry. The standard sets minimum requirements for the safety of such cleaning chemicals, which are intended for use on food processing equipment and might come into contact with food products.</p> <p>NOTE The standard does not set cleaning performance standards. The user is urged to verify, by conducting suitable trials or tests either in the food processing plant or in the laboratory, that the cleaning chemicals are</p>	23/07/2022

suitable for the proposed application. Alternatively, proven compliance with an appropriate national standard should be requested.

<a href="#">G/TBT/N/BWA/142</a> 24/05/2022	Botswana	<i>Surface active agents (ICS code(s): 71.100.40)</i> <b>BOS 318:2018 High foam laundry detergent — Specification;</b> This Botswana Standard specifies characteristics of one type of powder laundry detergents intended for the washing (by hand and in domestic washing machines), in either hard or soft water, of textiles made of cotton and or synthetic fibre yarns.	23/07/2022
<a href="#">G/TBT/N/BWA/143</a> 24/05/2022	Botswana	<i>Glass in building (ICS code(s): 81.040.20)</i> <b>Safety and security glazing materials for buildings —Part 1: Safety performance of glazing materials under human impact;</b> 1.1 This standard covers the requirements for the performance of safety glazing materials in buildings with regard to injuries (cutting or piercing) sustained on human impact. 1.2 This standard covers the requirements for the performance of organic-coated safety glass in buildings only when the entire area of the glass pane is covered. NOTE Provisions on the use of safety glazing materials are contained in BOS 611, SANS 10400 Part N and SANS 17.	23/07/2022
<a href="#">G/TBT/N/BWA/144</a> 24/05/2022	Botswana	<i>Surface active agents (ICS code(s): 71.100.40)</i> <b>Detergents/ disinfectants based on quaternary ammonium compounds —Specification</b> This standard specifies requirements for two types of detergent-disinfectant based on quaternary ammonium compounds and other chemical agents (such as compatible surface-active agents and phosphates), that are miscible with water and intended for use on inanimate surface that are free from excessive dirt. The standard is intended for the evaluation of detergent-disinfectants based on quaternary ammonium compounds for general use. Quaternary ammonium compounds are organically substituted ammonium compounds in which the nitrogen compound has a valence of five. Four of the substituted radicals are alkyl or heterocyclic radicals and the fifth is an anion. Examples include cetrimide, benzalkonium chloride and benzethonium chloride. NOTE 1 Using this specification, it is not possible to determine the bactericidal activity of the undiluted product. Some dilution is always produced by the addition of inoculum, hard water and sterile skimmed milk. NOTE 2 If a product complies with the test requirements, it can be considered to be bactericidal, but it should not necessarily be inferred that the product is a suitable detergent-disinfectant for a defined purpose.	23/07/2022
<a href="#">G/TBT/N/BWA/145</a> 24/05/2022	Botswana	<i>Surface active agents (ICS code(s): 71.100.40)</i> <b>Detergents/ disinfectant based on stabilized inorganic chlorine compounds —Specification;</b> This standard specifies requirements for two types of detergent-disinfectants based on stabilized inorganic chlorine compounds and other chemical agents (such as compatible surface-active agents and phosphates) that are miscible with water intended for use on inanimate surfaces. The standard is intended for the evaluation of detergents-disinfectants based on stabilized inorganic chlorine compounds for general	23/07/2022

use. Examples include sodium hypochlorite stabilized with calcium hypochlorite and calcium hypochlorite stabilized with sodium carbonate plus boric acid. NOTE 1 Using this specification, it is not possible to determine the bactericidal activity of the undiluted product. Some dilution is always produced by the addition of inoculum, hard water and sterile skimmed milk. NOTE 2 If a product complies with the test requirements, it can be considered to be bactericidal product, but it should not necessarily be inferred that the product is a suitable detergent-disinfectant for a defined purpose.

<a href="#">G/TBT/N/BWA/146</a> 24/05/2022	Botswana	<i>Materials and articles in contact with foodstuffs (ICS code(s): 67.250)</i>	23/07/2022
		<p><b>BOS 337:2012 Plastics material for food contact use — Specification;</b> This standard specifies requirements for materials and the procedure for use during the various stages of production of plastics materials, coating and printing of plastics items for food contact and subsequent use. This includes such items as packages, domestic containers, wrapping materials, utensils or any other plastics items intended for food contact applications.</p>

		<p><b>Hand dish-washing and light duty detergent (liquid) — Specification;</b> This Botswana standard specifies the characteristics of liquid detergents for use in soft or hard water for hand dishwashing and for the cleaning of hard surfaces such as painted surfaces, floors, ceilings, ceramic and plastic tiles, and the surfaces of equipment.</p>	
<a href="#">G/TBT/N/TPKM/489</a> 24/05/2022	Chinese Taipei	<i>848140, 848180; Valves for liquefied petroleum gas cylinders</i>	23/06/2022
		<p><b>Proposal for Amendments to the Legal Inspection Requirements for Valves for Liquefied Petroleum Gas Cylinders;</b> In order to enhance protection of consumers from hazards arising from unsafe valves for liquefied petroleum gas cylinders, the Bureau of Standards, Metrology and Inspection (BSMI) intends to amend the inspection scheme of valves for liquefied petroleum gas cylinders, and update the inspection standard. The conformity assessment procedure for all such products will be Registration of Product Certification (Module II + Module VII).</p>	
<a href="#">G/TBT/N/RUS/133</a> 24/05/2022	Russian Federation	<i>Medicinal products</i>	17/06/2022
		<p><b>Draft amendment to the Guideline on Non-clinical Safety Studies for the Conduct of Clinical Trials and Marketing Authorization of Medicinal Products;</b> Granting the right to drug manufacturers to submit data from the full preclinical development program on individual components of a drug from a combination of 2 active substances at any stage of development, while limiting themselves to short-term studies of the combination itself.</p>	
<a href="#">G/TBT/N/USA/1870</a> 24/05/2022	United States of America	<i>848140, 848180; Valves for liquefied petroleum gas cylinders</i>	22/08/2022

**Current Good Manufacturing Practice, Certification, Postmarketing Safety Reporting, and Labeling Requirements for Certain Medical Gases**

Proposed rule -The Food and Drug Administration (FDA, the Agency, or we) is proposing new regulations that would amend the requirements concerning current good manufacturing practice (CGMP) and postmarketing safety reporting that apply to certain medical gases. FDA further proposes to establish regulations regarding certification of designated medical gases and amend the labeling regulations that apply to certain medical gases. This action, if finalized, will clarify the regulatory obligations of entities that manufacture, process, pack, label, or distribute certain medical gases, as well as reduce regulatory burden in this area. This proposed rule is intended to establish requirements that are more specifically tailored to the medical gas industry.

<a href="#">G/TBT/N/BWA/148</a> 25/05/2022	Botswana	<i>Films and sheets (ICS code(s): 83.140.10)</i> <b>BOS 823:2019 Plastic Pill bag —Specification;</b> This standard specifies requirements for primary packaging for pills and tablets made from low density polyethylene(LDPE) plastic.The standard is applicable to plastic packaging bags of zip lock top..	24/07/2022
<a href="#">G/TBT/N/BWA/149</a> 25/05/2022	Botswana	<i>Surface active agents (ICS code(s): 71.100.40)</i> <b>BOS 374:2020 Ammoniated liquid detergent cleaner — Specification;</b> This Botswana Standard specifies characteristics of an ammoniated liquid detergent cleaner that has a mild abrasive action and is suitable for the cleaning of hard surfaces, but is not suitable (either concentrated or diluted) for the cleaning of floors that have a coating of polish.	24/07/2022
<a href="#">G/TBT/N/BWA/150</a> 25/05/2022	Botswana	<i>Fruits and derived products (ICS code(s): 67.080.10)</i> <b>BOS 660:2014 Jam, jellies and marmalade — Specification;</b> This Botswana standard covers specification for jams, jellies and marmalades offered for direct consumption, including for catering purposes or for repacking if required by the purchaser. This Standard does not apply to:a) products when indicated as being intended for further processing such as those intended for use in the manufacture of fine bakery wares, pastries or biscuits;b) products which are clearly intended or labelled as intended for special dietary uses;c) reduced sugar products or those with a very low sugar content;d) products where the foodstuffs with sweetening properties have been replaced wholly or partially by food additive sweeteners.	24/07/2022
<a href="#">G/TBT/N/BWA/151</a> 25/05/2022	Botswana	<i>Medicaments (ICS code(s): 11.120.10)</i> <b>BOS 562:2013 Petroleum jelly —Specification;</b> This Botswana Standard specifies requirements for refined petroleum jelly in two colour grades (white and yellow), intended for use in pharmaceutical and cosmetic applications.	24/07/2022
<a href="#">G/TBT/N/BWA/152</a> 25/05/2022	Botswana	<i>Animal feeding stuffs (ICS code(s): 65.120)</i> <b>BOS 650:2014 Animal feeding stuffs —Sheep and goat feeds —Specification;</b>	24/07/2022

			The standard specifies requirements for sheep and goat compound feed.	
<a href="#">G/TBT/N/BWA/153</a> 25/05/2022	Botswana	<i>Welding consumables (ICS code(s): 25.160.20)</i> <b>BOS 89:2010 Covered steel electrodes for the manual arc welding of carbon and carbon manganese steels — Specification;</b> This specification covers requirements for covered steel electrodes suitable for the manual arc welding of carbon and of carbon manganese steels having an ultimate tensile strength not exceeding 650 MPa.NOTE 1 Requirements that must be specified by the purchaser are listed in Annex A.NOTE 2 Except under the standardization mark scheme, arrangements for obtaining the sample required in terms of 8.1.2 will in the case of electrodes of nominal diameter other than 4 mm, require special agreement between the supplier and the purchaser.NOTE 3 The coding system used in the specification consists of a section indicating general characteristics and a section indicating the specific properties of an electrode. Where so required in descriptions and in marking other than those on the container, the symbols indicating general characteristics only may be used to describe an electrode type, but each container of electrodes shall be marked with the complete coding in accordance with 7.2.NOTE 4 An example of the use of the coding system is given in Annex B.	24/07/2022	
<a href="#">G/TBT/N/BWA/154</a> 25/05/2022	Botswana	<i>Spring steels (ICS code(s): 77.140.25)</i> <b>BOS 60:2009 Road vehicles —Leaf springs — Specification;</b> This Botswana Standard covers general requirements for materials, leaf spring assembly and individual spring leaves for road vehicles.	24/07/2022	
<a href="#">G/TBT/N/BWA/155</a> 25/05/2022	Botswana	<i>Animal feeding stuffs (ICS code(s): 65.120)</i> <b>BOS 225:2014 Animal feeding stuffs —Broiler breeder feeds —Specification;</b> This Botswana Standard specifies the basic requirements for compounded broiler breeder feeds.	24/07/2022	
<a href="#">G/TBT/N/BWA/156</a> 25/05/2022	Botswana	<i>Lighting, signalling and warning devices (ICS code(s): 43.040.20)</i> <b>BOS 320:2009 Retro-reflectors (Reflex reflectors) - Specification;</b> This specification covers the requirements for sealed red, amber and clear (white) retro-reflectors (reflex reflectors) for use on road vehicles, including retro-reflectors that form part of light assemblies.This specification does not cover1.flexible retro-reflective material;2.retro-reflective warning signs; or3.retro-reflective registration plates.NOTE 1 Information that must be supplied by the test sponsor is given in Annex A.NOTE 2 Information regarding the verification of the quality of retro-reflectors produced to this specification, and the sampling plan to be used to assess compliance with the specification of a lot of retro-reflectors are given in Annex B.	24/07/2022	
<a href="#">G/TBT/N/BWA/157</a> 25/05/2022	Botswana	<i>vegetables and derived products (ICS code(s): 67.080.20)</i> <b>BOS 672:2015 Bottled tomato sauce —Specification;</b>	24/07/2022	

This Botswana standard prescribes the requirements and the method of test for tomato sauce.

<a href="#">G/TBT/N/BDI/247</a> 25/05/2022	Burundi	<p><i>Crude oil, whether or not gossypol has been removed (HS code(s): 151221); Animal and vegetable fats and oils (ICS code(s): 67.200.10)</i></p> <p><b>DEAS 298:2022 Edible cottonseed oil — Specification;</b></p> <p>This East African Standard specifies the requirements and methods of sampling and test for peanut butter derived from seeds of peanuts (groundnuts) of the species <i>Arachis hypogaea</i> L. for human consumption.</p>	24/07/2022
<a href="#">G/TBT/N/EU/893</a> 25/05/2022	European Union	<p><i>Waste, as defined in Directive 2008/98/EC on waste.</i></p> <p><b>Proposal for a Regulation of the European Parliament and of the Council on shipments of waste and amending Regulations (EU) No 1257/2013 and (EU) No 2020/1056 (COM(2021) 709 final);</b></p> <p>This Proposal for a Regulation would replace the current Regulation (EC) 1013/2006 on shipments of waste.</p> <p>This draft Regulation establishes procedures and control regimes for the shipment of waste, depending on the origin, destination and route of the shipment, the type of waste shipped and the type of treatment to be applied to the waste at its destination. It provides the procedural rules for shipping waste both within, through, from and to the Union.</p> <p>New approaches as compared to the current Regulation are proposed:</p>	23/08/2022

- the shift to the exchange of procedural information and documentation via electronic means;
- new rules that will require both economic operators and public authorities to verify that waste exported from the EU is treated in a sustainable manner in the countries of destination. Concretely, exports of EU non-hazardous waste to third non-OECD countries would only be allowed where these countries have indicated their willingness and ability to receive (certain) waste. Also, exporting companies would be obliged to ensure that the facilities in third countries where their waste is destined to, are independently audited to verify that the received waste will be managed in an environmentally sound manner. For exports to third countries that are members of the OECD, a monitoring mechanism and a safeguard measure are proposed to avoid that a surge in the export of waste from the EU creates environmental or public health problems in the countries of destination;
- stronger enforcement of waste shipment rules, including an enhanced role for the EU's anti-fraud office (OLAF).

		<b>Notice of Availability: Voluntary Standards Evaluation Under the Portable Fuel Container Safety Act of 2020;</b> Notice of availability -The Consumer Product Safety Commission (Commission or CPSC) is announcing the availability of a draft document titled, "Voluntary Standards Evaluation Under the Portable Fuel Container Safety Act (PFCSA) of 2020." The PFCSA requires the Commission, not later than 27 June 2023, to promulgate a final rule to require flame mitigation devices in portable fuel containers that impede the propagation of flame into the container 15 U.S.C. 2056d(b)(1). The PFCSA states, however, that the Commission is not required to promulgate a final rule if the Commission determines that the requirements for an exception relating to voluntary standards are met. 15 U.S.C. 2056d(b)(3)(A). Specifically, the Commission may rely on voluntary standards instead of the required rulemaking for a class of portable fuel containers within the scope of the Act if certain requirements are met.
