**AVISO de consulta pública del Proyecto de Norma Oficial Mexicana PROY-NOM-041-NUCL-2025, Límites anuales de incorporación y concentraciones en liberaciones.**

Este proyecto tiene por objeto establecer los límites anuales de incorporación para el personal ocupacionalmente expuesto y las concentraciones derivadas en aire para zonas controladas, con el fin de dar cumplimiento al sistema de limitación de dosis establecido en el Reglamento General de Seguridad Radiológica. Asimismo, establecer los límites para el vertimiento a drenaje de cantidades residuales de material radiactivo; así como, establecer los criterios para liberaciones de efluentes radiactivos al ambiente, con el objeto de controlar la dosis al público.

**Draft Order of the Ministry of Health of Ukraine "On Approval of the Medicines Quality Certification Procedure for International Trade and Confirmation for Exported Active Pharmaceutical Ingredients"**

The draft Order proposes to establish the legal and organizational framework for the procedure of quality certification of medicines for international trade and confirmation of active pharmaceutical ingredients intended for export through the updating of terminology and aligning it with the Law No. 2469-IX "On Medicines" of 28 July 2022.

The Order of the Ministry of Health of Ukraine of 25 July 2022 No. 1310 "On Approval of the Medicines Quality Certification Procedure for International Trade and Confirmation for Exported Active Pharmaceutical

Ingredients” (notified in documents G/TBT/N/UKR/216 and G/TBT/N/UKR/216/Add.1) shall be repealed.

The draft Order also establishes that any procedure for quality certification of medicines for international trade and confirmation of active pharmaceutical ingredients intended for export, which has been initiated but not completed prior to the entry into force of this Order, shall be completed in accordance with the Procedure, approved by the Order of the Ministry of Health of 25 July 2022 No. 1310, which, for the purposes of completing such procedure, shall apply in the version effective as of the date of entry into force of this Order. Any decisions adopted following the completion of such procedure shall be issued in the forms approved by this Order.

#### **Draft Order of the Ministry of Health of Ukraine “Certain Issues Related to the Importation into the Customs Territory of Ukraine, Accounting, Storage, Use, Destruction, Disposal or Exportation from the Customs Territory of Ukraine of Investigational Medicines”**

The draft Order has been developed in accordance with the requirements of Paragraph 20 of Article 10 of the Law of Ukraine "On Medicines" No. 2469-IX of 28 July 2022, taking into account relevant European Union legislation.

The draft Order:

1) approves the Requirements for the importation into the customs territory of Ukraine, accounting, storage, use, destruction, disposal or exportation from the customs territory of Ukraine of investigational medicines and auxiliary medicines, which shall apply to the importation in Ukraine, accounting, storage, use, destruction, disposal or exportation from Ukraine of both unregistered and registered investigational medicinal products and auxiliary medicinal products used in the course and within the framework of clinical studies (trials);

2) establishes that:

the requirement that investigational medicines (excluding active pharmaceutical ingredients (APIs)), manufactured and released by the manufacturer's qualified person for use in clinical trials in Ukraine and imported from countries that are not Member States of the European Union or members of the European Free Trade Association that are parties to the Agreement on the European Economic Area, may be imported into the customs territory of Ukraine exclusively by business entities engaged in the importation of investigational medicines, shall apply from 1 January 2028; from the date of entry into force of this Order until 1 January 2028, investigational medicinal products imported into the customs territory of Ukraine from countries that are not Member States of the European Union or members of the European Free Trade Association that are parties to the Agreement on the European Economic Area may be imported by the sponsor or by a person authorized by the sponsor on the basis of a power of attorney and/or a contract for the importation of investigational medicinal products into the customs territory of Ukraine.

The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rulemaking to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of that use for that chemical substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination.</p> | 06/07/2026 |

*exceeding 150 mg/l or taurine, excluding substances naturally occurring in them.*

**Act of 17 October 2025 amending the Public Health Act (Journal of Laws of 2025, item 1698)**

The Act introduced a ban on the sale of beverages containing added caffeine or taurine to: 1. persons under 18 years of age; 2. educational institutions; 3. vending machines. Additionally, the Act stipulates that a producer or importer of a beverage containing added caffeine or taurine is required to label the unit packaging of the product with a visible, legible, and permanently affixed notice reading “Energy Drink” or “Energy Beverage.” The Act also includes penal provisions concerning the failure to comply with obligations related to the sale and labelling of beverages containing added caffeine or taurine.

Ukraine

*Non-food products*

**Draft Law of Ukraine “On the General Safety of Non-Food Products”**

This draft Law establishes essential rules on the safety of non-food products intended for consumers that are placed on the market or made available on the market of Ukraine.

This draft Law applies to products placed on the market or made available on the market in Ukraine with respect to safety requirements that are not covered by specific legislative acts (including technical regulations) governing the safety of such products.

This draft Law does not apply to:

services and works;

medicinal products and veterinary medicinal products;

food products;

live plants and animals, genetically modified organisms and genetically modified microorganisms used in contained use, as well as products of plant and animal origin directly related to their future reproduction;

animal by-products and derived products;

plant protection products;

equipment used for the transport or movement of consumers, where such equipment is directly operated by the provider of transport services supplied to consumers and is not operated by the consumers themselves;

aircraft falling within the categories specified by the Cabinet of Ministers of Ukraine on the basis of the relevant legislation of the European Union;

antiques.

The draft Law, in particular, provides for:

expanding and further specifying the list of economic operators. In addition to the previously defined categories of “manufacturer”, “authorised representative”, “importer”, “distributor”, and “consumer”, the draft introduces such categories as “economic operator”, “seller”, “fulfilment service provider” and “online marketplace provider”;

establishing clear obligations for manufacturers, importers, distributors and operators of online marketplaces to ensure the safety of non-food products placed on the market or made available on the market;

establishing an effective product traceability system throughout all stages of the supply chain, enabling rapid response to identified risks and the withdrawal and recall of unsafe products from the market;

09/08/2026

introducing specific requirements for distance sales and online platforms, including obligations to identify and remove or disable access to unsafe products offered online; improving market surveillance mechanisms of non-food products, promoting the use of digital tools and the exchange of information on unsafe products, as well as establishing a national digital portal on the safety of non-food products; establishing the liability of economic operators for breaches of product safety requirements.

The obligations of importers with regard to the placing of products on the market are set out in Article 12 of the draft Law.

The draft Law provides that, for a period of three years from its entry into force, the placing on the market of products that comply with the requirements of the Law of Ukraine No. 2736-VI “On General Product Safety” of 2 December 2010 and that were placed on the market before the entry into force of this Law shall not be prohibited or restricted solely on the grounds that such products do not comply with the requirements of this Law.

Upon the adoption and entry into force of this Law, the Law of Ukraine No. 2736-VI “On General Product Safety” of 2 December 2010 shall be repealed.

**Significant New Use Rules on Certain Chemical Substances (26-1)**

Proposed rule - The Environmental Protection Agency (EPA) is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for certain chemical substances that were the subject of premanufacture notices (PMNs) and are also subject to an Order issued by EPA pursuant to TSCA. The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rulemaking to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of that use for that chemical substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination.
