The standards used for testing and inspection of ready mixed paint (synthetic resin type), enamel, emulsion paint, solvent-base masonry paint, and fire-retardant paints for buildings have been revised. The BSMI proposes to adopt the revised standards, including the relevant errata, to ensure that such products continue to meet applicable safety requirements. In addition, in response to concerns over the risks associated with excessive volatile organic compounds (VOCs) and hazardous heavy metals in chlorinated rubber finish paint and polyurethane wood paint, the BSMI proposes to make these two products subject to mandatory inspection before they are placed on the market. The applicable conformity assessment procedures will be Type-Approved Batch Inspection or Registration of Product Certification.

Les fertilisants mis sur le marché conformément à la réglementation nationale et utilisés en France. Les fertilisants mis sur le marché conformément au règlement (UE) n°2019/1009 et utilisés en France ne sont pas concernés. 16/08/2026

Arrêté modifiant la teneur maximale en cadmium de certaines matières fertilisante ainsi que les apports maximaux admissibles de ce contaminant lors de l'utilisation des matières fertilisantes;

Cet arrêté interministériel modifie deux arrêtés en fixant un calendrier d'abaissement des teneurs maximales admissibles en cadmium pour certaines matières fertilisantes et supports de culture d'une part, ainsi que pour les apports maximaux admissibles de cadmium lors de l'utilisation des matières fertilisantes d'autre part. Il s'applique pour les matières fertilisantes et supports de culture mis sur le marché et utilisés dans les conditions prévues par les articles L. 255-2 à L. 255-4 et par les 1°, 3° et 5° de l'article L. 255 5. Il ne s'applique pas aux matières fertilisantes et supports de culture mis sur le marché et utilisés dans les conditions prévues par le 2° de l'article L. 255-5 qui correspond aux fertilisants conformes au règlement (UE) n° 2019/1009.

Les deux arrêtés modifiés sont :

- Arrêté fixant les valeurs et modalités d'appréciation des critères d'innocuité et de sortie de statut de déchet des matières fertilisantes et supports de culture ;

Arrêté fixant les apports maximaux admissibles en éléments traces métalliques et en composés traces organiques lors de l'utilisation des matières fertilisantes

Medicines

17/07/2026

Draft Order of the Ministry of Health of Ukraine "Certain Issues Concerning the Assessment of Registration Dossier Materials";

The draft Order has been developed in accordance with the requirements of the Law of Ukraine "On Medicines" No. 2469-IX of 28 July 2022, taking into account the relevant European Union legislation. The main objective of the draft Order is to align the procedures for medicine registration with the Law of Ukraine "On Medicines" and to establish a unified and modern framework for the submission and assessment of registration dossier materials. The draft Order establishes new procedures for the assessment of medicine registration dossier materials in relation to:

- state registration and re-registration of medicines;
- indefinite extension of state registration;
- submission and assessment of variations (changes) to the registration dossier during the validity of the registration.

The draft Order approves:

- the procedure for the assessment of registration dossier materials;
- application forms for registration, re-registration and variations;
- requirements for the content and scope of the registration dossier;
- requirements for the submission of variations to the dossier;
- requirements for the Summary of Product Characteristics, package leaflet and labeling;

- templates for clinical and non-clinical study reports;
- the procedure for providing scientific advice to applicants;
- the procedure for determining the significance of the clinical benefit of new therapeutic indications for reference medicines registered in Ukraine;

• the list of herbal substances, herbal preparations and herbal combinations used in traditional herbal medicines.

It is also proposed, under the draft Order, to declare as repealed the Order of the Ministry of Health of Ukraine of 26 August 2005 No. 426 "On Approval of the Procedure for the Examination of Registration Materials for Medicines Submitted for State Registration (Re-registration), as well as the Examination of Materials on Amendments to Registration Materials During the Validity Period of the Registration Certificate".

15/07/2026

Energy Conservation Program: Energy Conservation Standards for Distribution Transformers;

Request for information - A Presidential determination issued on 20 April 2026, found that grid infrastructure supply chains, including distribution transformers and electrical core steel, are essential to national defense, and that U.S. industry faces critical constraints from limited domestic product capacity, extended procurement timelines, and foreign supply dependence. The U.S. Department of Energy ("DOE") is initiating an information and data gathering effort to understand how the energy conservation standards for distribution transformers adopted in an April 2024 final rule (notified as G/TBT/N/USA/682/Rev.1/Add.2), with compliance required in 2029, interact with these national security considerations, including impacts on domestic manufacturing capacity, supply chain resilience, and the availability and cost of key materials. DOE is also seeking information on whether the revised energy conservation

standards result in special hardship, inequity, or unfair distribution of burdens, including investment needs and market conditions associated with redesigning equipment to comply by the 2029 compliance date.

Proposed amendments to the "Regulation on Safety of Pharmaceuticals, etc.";

The Ministry of Food and Drug Safety (MFDS) is amending the "Regulation on Safety of Pharmaceuticals, etc." as follows:

A. Easing the reporting requirement for API changes (Article 17)The threshold for allowing API (active pharmaceutical ingredients) changes to be reported rather than registered has been relaxed from "10-fold or more" to "more than 10-fold" for changes in batch size.

B. Simplifying packaging labeling requirements (Deletion of Article 71, Item 5)Labeling requirements for 'specifications of active ingredients' on containers and packaging have been removed.

C. Strengthening supply chain management for national essential medicines (Insertion of Article 102-4)The scope of medicines requiring a stable supply due to temporary surges in demand has been defined, even if they are not designated as national essential medicines.

D. Establishing operating rules for Korea Institute of Natural Products Safety Management and Research (Insertion of Article 103-2)

Procedures for collecting fees and actual expenses for Natural Products Safety Management and Research have been established, as prescribed by Prime Minister's decree under the Pharmaceutical Affairs Act.

E. Ensuring consistency across laws and regulations (Article 102-5, etc.)Related articles have been reorganized following the amendment of the "Pharmaceutical Affairs Act" and "Regulation on Safety of Pharmaceuticals, etc."

G/TBT/N/UKR/390 18/06/2026	Ukraine	<i>Plastic products</i> Draft Law of Ukraine "On the Reduction of the Impact of Plastic Products on the Environment"; The draft Law lays down the legal and organizational framework for reducing the negative impact of certain types of plastic products on the environment and human health, and for promoting the transition to a circular economy, in particular through measures aimed at preventing and reducing the generation of waste resulting from the use of such products. The draft Law establishes requirements governing the production, import, placing on the market and making available on the market of certain single-use plastic products, oxo-degradable plastic products and fishing gear containing plastic. The draft Law provides, inter alia, for: •the establishment of measures to reduce the consumption of certain single-use plastic products; •restrictions on the production and placing on the market of certain single-use plastic products and oxo-degradable plastic products; •ensuring that single-use plastic products with plastic caps and lids may be placed on the market only if the caps and lids remain attached to the container during the product's intended use; •the establishment of a target for recycled plastic content in plastic beverage bottles; •labelling requirements for certain single-use plastic products; •the establishment of extended producer responsibility schemes for certain single-use plastic products, as well as for fishing gear containing plastic placed on the market; •the separate collection of plastic beverage bottles; •the establishment of measures to inform consumers and encourage responsible consumer behaviour with a view to reducing waste generated from single-use plastic products covered by the draft Law; •the establishment of reporting and record-keeping systems; •liability for non-compliance with the requirements established by the draft Law. The draft Law has been developed on the basis of Directive (EU) 2019/904 of the European Parliament and of the Council of 5 June 2019 on the reduction of the impact of certain plastic products on the environment, taking into account the need for transitional periods to enable economic operators to adapt to and implement the measures laid down therein.	17/08/2026
