G/TBT/N/JPN/910 29/06/2026	Japan	<i>Radio equipment of a non-geostationary satellite communication system in the 700 MHz band for mobile services, utilizing a satellite constellation.</i> Partial Amendment of the Regulation for Enforcement of the Radio Act, etc.; Japan will amend the Regulation for Enforcement of the Radio Act, etc. to introduce technical requirements for radio equipment used in user terminals that are part of a non-geostationary satellite communication system in the 700 MHz band for mobile services, utilizing a satellite constellation.	28/08/2026
G/TBT/N/KOR/1358 29/06/2026	Korea, Republic of	<i>Pharmaceuticals</i> Partial amendment to the "Regulation for Pharmaceutical Approvals, Notifications and Reviews"; The Ministry of Food and Drug Safety of the Republic of Korea intends to amend the following provisions of the "Regulation for Pharmaceutical Approvals, Notifications and Reviews" A. If only the name of the "general test method" registered in the Korean Pharmacopeia or other official compendia notified by the Minister of Food and Drug Safety is changed, such change will be deemed to have been approved or notified. (Article 3-2) B. A legal basis will be established to allow the stability data for medical high-pressure gases to be substituted by evidence from prior use of previously approved or notified products. (Article 7) C. Provisions related to the Risk Management Plan (RMP) will be aligned with the amendment of higher-level legislation. (Article 7-2) D. Eligibility for multiple specifications for an active ingredient will be expanded to include orphan drugs for which quality-related data have been submitted. (Article 12) E. When obtaining approval for a new dosage form of an OTC drug with same route of administration, eligibility for reduced data requirements will be clarified by specifying what constitutes minor differences from previously approved/notified dosage forms. (Annex 1)	28/08/2026
G/TBT/N/TUR/236 29/06/2026	Türkiye	<i>This Communiqué covers electric mains-operated and gas-fired household tumble dryers, built-in household tumble dryers, multi-drum household tumble dryers and electric mains-operated household tumble dryers that can also be powered by batteries. (3) This Communiqué shall not apply to; a) household washer-dryers and household spin-extractors; b) Tumble dryers within the scope of Machinery Safety Regulation (2006/42/AT) published in the Official Gazette dated 3/3/2009 and numbered 27158; c) battery-operated household tumble-dryers that can be connected to the mains through an AC/DC converter purchased separately. (4) The requirements in Sections 2 and 3, and Section 6, points (1)(a) and (1)(b) of Annex II shall not apply</i>	28/08/2026

to household tumble dryers with a rated capacity for the eco programme of 3 kg or less.

DRAFT COMMUNIQUÉ ON AMENDING THE COMMUNIQUÉ (2023/2533/EU) (DGI-2024/3) REGARDING ECODESIGN REQUIREMENTS FOR HOUSEHOLD TUMBLE DRYERS (DGI-2026/...);

Amendments have been made to DRAFT COMMUNIQUÉ ON AMENDING THE COMMUNIQUÉ (2023/2533/EU) (DGI-2024/3) REGARDING ECODESIGN REQUIREMENTS FOR HOUSEHOLD TUMBLE DRYERS in line with the obligation to comply with the EU legislation.

LIST OF ENERGY-RELATED PRODUCTS COVERED BY THIS COMMUNIQUE1. Appliances designed, tested and marketed for household use:a) To be valid until 1/7/2025; tumble dryers and other clothes dryers,b) To be valid as of 1/7/2025; clothes dryers, but excluding household tumble dryers covered by Communiqué on Ecodesign Requirements for Household Tumble Dryers (2023/2533/EU)(SGM-2024/..) published in the Official Gazette dated ... and numbered ...,c) electric ovens including when incorporated in cookers;ç) electric hobs and hot plates;d) microwave ovens;e) toasters;f) fryers;g) coffee machines;ğ) grinders;h) equipment for opening or sealing containers or packages;ı) electric knives;i) other appliances for cooking and other processing of food, preparing beverages, cleaning, and maintenance of clothes, but excluding household dishwashers covered by Communiqué on Ecodesign Requirements for Household Dishwashers (2019/2022/EU) (SGM:2021/1), household washing machines and household washer-dryers covered by Communiqué on Ecodesign Requirements for Household Washing Machines and Household Washer-Dryers (2019/2023/EU) (SGM:2021/3) published in the Official Gazette dated 25/3/2021 and numbered 31434 and household tumble dryers covered by the Communiqué on Ecodesign Requirements for

28/08/2026

Household Tumble Dryers (2023/2533/EU) (SGM-2024/...) valid as of 1/7/2025;— appliances for hair cutting, hair drying, hair treatments, tooth brushing, shaving, massage and other body care appliances;— scales.

2. Information technology equipment intended primarily for use in the domestic environment, including printing equipment, but excluding desktop computers, integrated desktop computers and notebook computers covered by Communiqué on Ecodesign Requirements for Computers and Computer Servers (2013/617/EU) (SGM: 2021/14) published in the Official Gazette dated 25/3/2021 and bis numbered 31434, servers and data storage products covered by Communiqué on Environmentally Friendly Design Requirements for Servers and Data Storage Products (2019/424/EU) (SGM: 2021/15) published in the Official Gazette dated 25/3/2021 and bis numbered 31434, as well as electronic displays covered by Communiqué on Ecodesign Requirements for Electronic Displays (2019/2021 / EU) (SGM: 2021/5) published in the Official Gazette dated 25/3/2021 and bis numbered 31434.

3. Consumer equipment: a) radio sets; b) video cameras; c) video players; ç) hi-fi players; d) audio amplifiers; e) audio speakers; f) home theatre systems; g) media streaming devices; ğ) musical instruments; h) complex set top boxes and simple set-top boxes; ı) other equipment for the purpose of recording or reproducing sound or images, including signals or other technologies for the distribution of sound and image other than by telecommunications, but excluding electronic displays covered by Communiqué on Ecodesign Requirements for Electronic Displays (2019/2021/EU) (SGM: 2021/5) and projectors with mechanisms for exchanging the lenses with others with different focal length.

4. Toys, leisure and sports equipment: a) electric trains or car racing sets; b) games consoles; c) sports equipment; ç) other toys and leisure equipment.

5. Motor-operated adjustable furniture: a) height-adjustable desks; b) elevation beds and chairs, excluding medical devices and wheelchairs; c) other motor-operated adjustable furniture.

6. Motor-operated building elements: a) shutters; b) blinds; c) screens; ç) awnings; d) pergolas; e) curtains; f) doors; g) gates; ğ) windows; h) skylights; ı) other motor-operated building elements

DRAFT COMMUNIQUÉ ON AMENDING THE COMMUNIQUÉ (DGI-2026/...) ON ECODESIGN REQUIREMENTS REGARDING ELECTRICAL ENERGY CONSUMPTION OF STANDBY, OFF AND NETWORK-CONNECTED STANDBY MODES OF HOUSEHOLD AND OFFICE TYPE ELECTRICAL ELECTRONIC DEVICES (2023/826/EU) (DGI-2024/5);

Amendments have been made to the Draft Communiqué On Amending The Communiqué (Dgi-2026/...) On Ecodesign Requirements Regarding Electrical Energy Consumption Of Standby, Off And Network-Connected Standby Modes Of Household And Office Type Electrical-Electronic Devices (2023/826/EU) in line with the obligation to comply with the EU legislation.

wireless chargers, wireless charging pads and USB Type-C cables.

(2) This Communiqué shall not apply to:

a) uninterruptible power supplies, meaning devices that automatically provide backup power from storage when the electrical power from the mains power source drops to an unacceptable voltage level;

b) except for separate control gears in battery-operated products referred to in subparagraph (c) of Article 2 of Annex III of the Communiqué on Ecodesign Requirements for Light Sources and Separate Control Equipment (2019/2020/EU) (SGM:2021/11), published in the Official Gazette dated 6/8/2021 and numbered 31560, and not subject to any other exemption referred to in Annex III, the separate control gears defined in subparagraph (c) of the first paragraph of Article 5,

c) separate control gears for luminaires for emergency lighting,

ç) separate control gears for low luminous flux light sources;

d) EPS designed, tested and marketed to be used exclusively with medical devices, as defined in Medical Devices Regulation published in the Official Gazette dated 2/6/2021 and numbered 31499,

e) docking stations for autonomous appliances, meaning devices in which a battery-operated appliance that executes tasks requiring the appliance to move without any user intervention places itself for charging;

f) EPS designed, tested and marketed to be used exclusively with means of transport for persons or goods;

g) consumer products for which the primary load of the converted voltage within the consumer products themselves is not supplied to a separate end-use product.

DRAFT COMMUNIQUÉ (2025/2052/EU) (DGI-2026/..) ON ECODESIGN REQUIREMENTS FOR EXTERNAL POWER SUPPLIES, WIRELESS CHARGERS, WIRELESS CHARGING PADS, BATTERY CHARGERS FOR PORTABLE BATTERIES OF GENERAL USE AND USB TYPE-C CABLES

(1) The purpose of this Communiqué is to lay down ecodesign requirements for the placing on the market or putting into service of external power supplies (EPS), battery chargers for portable batteries of general use, wireless chargers, wireless charging pads and USB Type-C cable pursuant to the implementation of the Regulation on the Ecodesign of Energy-Related Products, which entered into force by Presidential Decree No. 5187 dated February 4, 2022.

TOYS, GAMES AND SPORTS REQUISITES; PARTS AND ACCESSORIES THEREOF (HS code(s): 95); Toys (ICS code(s): 97.200.50) More detail on product coverage can be found in regulation 4 of the Toys (Safety) Regulations 2011

28/08/2026

The Toys (Safety) Regulations;

This measure will amend the Toys (Safety) Regulation 2011 as applicable in GB ("the Toys Regulations") It will amend permitted levels of cobalt the Toys Regulations. It will amend the Toy Regulations, to introduce permitted limits of cobalt following a derogation request. Cobalt is currently

classified as Carcinogenic, Mutagenic or Reprotoxic (CMR) under GB Classification, Labelling and Packaging (CLP) Regulations.

G/TBT/N/USA/2294 29/06/2026	United States of America	<i>Light motor vehicle brake systems; Quality (ICS code(s): 03.120); Braking systems (ICS code(s): 43.040.40); Passenger cars. Caravans and light trailers (ICS code(s): 43.100)</i> Federal Motor Vehicle Safety Standards; Modernization of FMVSS No. 135 To Accommodate ADS-Equipped Vehicles; Notice of proposed rulemaking - The National Highway Traffic Safety Administration (NHTSA) is proposing to amend Federal Motor Vehicle Safety Standard (FMVSS) No. 135, "Light vehicle brake systems." The proposed modifications would distinguish how regulations apply to vehicles with and without manually operated driving controls. The proposed modifications would clarify definitions, telltale requirements, performance requirements, and test procedures in the standard and remove sections that are no longer relevant. The stopping distance performance requirements, which address the primary safety purpose of the standard, would still apply to all subject vehicles. This rulemaking would remove unnecessary regulatory burdens and costs without detriment to vehicle safety.	28/08/2026
G/TBT/N/USA/2295 29/06/2026	United States of America	<i>Transport category airplanes and propulsion systems; Quality (ICS code(s): 03.120); Aerospace engines and propulsion systems (ICS code(s): 49.050)</i> Transport Airplane and Propulsion Certification Modernization; Notice of proposed rulemaking - The Federal Aviation Administration (FAA) proposes to amend various airworthiness regulations to modernize certain certification standards for transport category airplanes and propulsion systems. This rule would be both deregulatory and relieving by reducing the number of exemptions, special conditions, and equivalent level of safety findings required during the certification process. FAA expects that this proposal would reduce certification costs and time to certify new and changed products for both industry and FAA while maintaining or increasing the level of safety provided by the current regulations. FAA proposes to remove Special Federal Aviation Regulation (SFAR) No. 109 from part 25 and relocate certain of its requirements. Finally, this action would address industry and National Transportation Safety Board recommendations while also harmonizing FAA's regulations with international standards.	28/08/2026
G/TBT/N/USA/2296 29/06/2026	United States of America	<i>Motor vehicle tires and rims; Road vehicle tyres (ICS code(s): 83.160.10)</i> Agency Information Collection Activities; Notice and Request for Comment; 49 CFR Part 569, 571.110, 571.120 & 574, Compliance and Labeling of Motor Vehicle Tires and Rims; Notice and request for comments on a request for reinstatement with change of a previously approved information collection - The National Highway Traffic Safety Administration (NHTSA) invites public comments	28/08/2026

about our intention to request approval from the Office of Management and Budget (OMB) for reinstatement with change of a previously approved information collection. Before a Federal agency can collect certain information from the public, it must receive approval from OMB. Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. This document describes a collection of information for which NHTSA intends to seek OMB approval and solicits public comments on continuation of the requirements on tire identification and recordkeeping and the accuracy of the agency's revised estimates of the burden of the information collections. The cost estimate for this reinstatement has increased by \$37,000, from \$970,620 to \$1,007,620. This rise is primarily due to an estimated increase in the number of vehicles from 19,000,000 to 20,000,000, which has raised the number of rims from 95,000,000 to 100,000,000. As a result, the total annual costs for recordkeepers associated with rims have grown from \$703,000 to \$740,000. The higher vehicle estimate also increases the annual burden for information collection by new tire manufacturers, retreaders, and rim manufacturers to 278,913 hours, up from 274,491 hours in the previous request.

Draft National Technical Regulation on Safety and Environmental Protection for Automobiles (Proposed code: QCVN XXX:2026/BXD);

This draft National Technical Regulation specifies technical requirements for inspection, testing and certification of technical safety quality and environmental protection for newly manufactured, assembled and imported automobiles.

The Regulation includes provisions relating to engines, power transmission systems, braking systems, steering systems, lighting and signalling devices, and environmental protection requirements, including exhaust emissions and noise limits.

This draft National Regulation applies to organizations and individuals involved in the inspection, testing and certification of technical safety quality and environmental protection of automobiles

Draft Commission Implementing Decision repealing Implementing Decision (EU) 2023/2619 postponing the expiry date of the approval of hydrochloric acid for use in biocidal products of product-type 2 in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council;

This draft Commission Implementing Decision repeals the postponement of the expiry date of the approval of hydrochloric acid as an active substance for use in biocidal products of product type 2. On 26 October 2022, an application was submitted in accordance with Article 13(1) of the Regulation (EU) No 528/2012 of the European Parliament and of the Council (BPR) for the renewal of the approval of hydrochloric acid for PT 2. On 25 February 2026 the Agency adopted its opinion on hydrochloric acid for PT 2, having regard to the conclusions of the evaluating competent authority. Given the opinion of the Agency, it is appropriate to renew the approval of hydrochloric acid for PT 2. Consequently, a draft Implementing Regulation is being prepared to renew the approval of hydrochloric acid for PT 2 (examination procedure under Regulation (EU) No 182/2011).

Further to that Implementing Regulation, it is necessary to repeal the postponement of the expiry date of the approval of hydrochloric acid. The present draft Decision therefore intends to repeal Decision (EU) 2023/2619 postponing the expiry date of the approval of hydrochloric acid for PT 2.

Draft Order of the Ministry of Health of Ukraine "On Approval of Amendments to the Procedure for Issuing Permits for Parallel Import of Medicines, Amending Permits for Parallel Import of Medicines, Suspending, Cancelling and Terminating Permits for Parallel Import of Medicines";

The draft Order has been developed in accordance with the Law of Ukraine No. 2469-IX of 28 July 2022 "On Medicines", which provides for the establishment and operation of a single regulatory authority responsible for state control in the field of the circulation of medicines. The draft Order aims to clarify the procedure governing the parallel import of medicines following the establishment of a central executive authority with special status responsible for implementing state policy in the areas of the

development, market authorization, quality control, safety, and efficacy of medicines. The regulatory authority established for this purpose is the Ukrainian Pharmaceutical Agency (Ukrpharmagency).

The parallel import of medicines may be carried out by a business entity holding a licence to import medicines (a parallel importer), in accordance with the licensing conditions established by the Cabinet of Ministers of Ukraine, only after the Ukrainian Pharmaceutical Agency has granted the business entity a parallel import permit. Accordingly, the draft Order transfers the functions relating to the issuance, amendment, suspension, cancelling and termination of parallel import permits from the State Service of Ukraine on Medicines and Drugs Control and the State Enterprise "State Expert Center of the Ministry of Health of Ukraine" to the Ukrainian Pharmaceutical Agency.

G/TBT/N/USA/2297 30/06/2026	United States of America	<i>Tobacco products; Tobacco, tobacco products and related equipment (ICS code(s): 65.160)</i> Establishment Registration and Product Listing for Tobacco Products; Proposed rule - The Food and Drug Administration (FDA, the Agency, or we) is proposing regulations to prescribe the format, content, and procedures for establishment registration and tobacco product listing. Complete and accurate establishment registration and product listing information is important to accomplish statutory, regulatory, and public health objectives. Currently, only domestic owners and operators are required to register their establishments and list their tobacco products with FDA while foreign owners and operators are not subject to these requirements, creating significant gaps in Agency information. This action, if finalized, would extend registration and listing requirements to include owners and operators of foreign establishments.	14/09/2026

Buprofezin (pesticide active substance)

31/08/2026

Draft Commission Implementing Regulation concerning the non-renewal of the approval of the active substance buprofezin, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council, and amending Commission Implementing Regulation (EU) No 540/2011;

This draft Commission Implementing Regulation provides that the approval of the active substance buprofezin is not renewed in accordance with Regulation (EC) No 1107/2009. EU Member States shall withdraw authorisations for plant protection products containing buprofezin as an active substance. The non-renewal of approval is based on the first evaluation of the substance for use as a pesticide active substance in the EU under Regulation (EC) No 1107/2009. The substance was formerly assessed and approved under Directive 91/414/EEC. This decision only concerns the placing on the market of this substance and plant protection products containing it. Following non-approval and the expiry of all grace periods for stocks of products containing this substance, separate action will likely be taken on MRLs and a separate notification will be made in accordance with SPS procedures.

Agglomerated wood charcoal, Wood charcoal

31/08/2026

Amendments to Standards and Quality Criteria for Wood Products;

1. Delete the quality requirements for moisture content, ash content, and higher heating value from the quality criteria for Agglomerated wood charcoal and Wood charcoal, and newly establish fixed carbon content as a quality requirement for Wood charcoal ([Annex 14], [Annex 15]).
2. Add safe use instructions to the labelling requirements for Agglomerated wood charcoal and further classify the raw materials to be indicated on the labelling of Wood charcoal ([Annex 14], [Annex 15]).
3. Update the referenced standards to their latest versions and harmonize the labelling methods with those for other wood fuel products ([Annex 14], [Annex 15]).
4. Delete the quality requirements and test methods for Agglomerated wood charcoal for the ignition of honeycomb coal briquettes ([Annex 14]).

Type 1, Type 2 and Type 3 hazardous substances (only for 31/08/2026
the items under the Thai FDA's responsibility)

**Draft Notification of the Ministry of Public Health
regarding the Import Exemption from Compliance with
the Hazardous Substances Act, B.E. 2535 (1992), of
Hazardous Substances under the Responsibility of the
Food and Drug Administration, B.E. ...;**

(1) The following Notifications of the Ministry of Public
Health shall be repealed:- Notification of the Ministry of
Public Health regarding the Import Exemption from
Compliance with the Hazardous Substances Act, B.E. 2535
(1992), relating to Notification, Application for Licensing
and Application for Registration of Hazardous Substances
under the Responsibility of the Food and Drug
Administration, B.E. 2548 (2005);- Notification of the
Ministry of Public Health regarding the Import
Exemption from Compliance with the Hazardous
Substances Act, B.E. 2535 (1992), relating to Notification,
Application for Licensing and Application for Registration
of Hazardous Substances under the Responsibility of the
Food and Drug Administration (No. 2), B.E. 2568 (2025).

(2) Revising the criteria, conditions, and required
documentation for exemption from compliance with the
Hazardous Substances Act, B.E. 2535 (1992), to import
hazardous substances for the following purposes:

- a hazardous substance imported for personal use;

- a hazardous substance imported for occasional purposes;
 - a hazardous substance imported for exhibitions;
 - a hazardous substance imported for the use of, or transfer to, an agency that shall comply with the international standards for the utilization of such hazardous substance;
 - a hazardous substance imported to be transferred to a Ministry, sub-Ministry, Department, local administrative office, state enterprise, state agency, Red Cross, International Red Cross, or an international agency under the law on the protection of the operation of the United Nations and specialized agencies in Thailand.
- (3) Prescribing the criteria, conditions, and required documentation for exemption from compliance with the Hazardous Substances Act, B.E. 2535 (1992), regarding the importation of hazardous substances for the new purpose: the production of foreign films or commercials in Thailand.
- (4) The importation of hazardous substances under items (2) and (3) shall not be for sale and must be approved by the FDA in accordance with the criteria and conditions annexed to this draft notification.
- (5) The submission of required import documentation shall be primarily made through the designated electronic network of the FDA. In the event that such submission cannot be completed via the FDA's network, the documentation shall be submitted at the Food and Drug Checkpoint where the importation takes place.

Foods with Nutrient Function Claims

01/09/2026

Outline of the Partial Amendment to the Food Labelling Standards based on the Food Labelling Act

Foods with Nutrient Function Claims mean foods that are intended for persons seeking to supplement nutrients and that bear claims indicating the functions of such nutrients. The nutrients subject thereto comprise 20 types (1 fatty acid, 6 minerals, and 13 vitamins). Based on the "Dietary Reference Intakes for Japanese (2025)" and other relevant references, the wording of nutrient function claims and cautions for consumption, and the minimum and maximum levels of nutrients content, will be amended.
