<a href="#">G/TBT/N/UKR/218</a> 09/08/2022	Ukraine	<p><i>Food products and feeds</i></p> <p><b>draft Resolution of the Cabinet of Ministers of Ukraine "On Amendment to the Resolution of the Cabinet of Ministers of Ukraine of March 9, 2022 No. 234";</b> Resolution of the Cabinet of Ministers of Ukraine of March 9, 2022 No. 234 "On measures to ensure the uninterrupted supply of imported food products and feeds under the martial law regime" establishes that during martial law in Ukraine market operators may sell food products, information of which is provided in a language other than the official one, on the customs territory of Ukraine. Thus the consignments of such food products should be accompanied by obligatory information on the foodstuffs provided in the state language. Simplification of requirements for mandatory labeling of imported food products in the state language was introduced in order to ensure uninterrupted food supply to the population during the martial law. Currently, national food enterprises are able to meet the needs of Ukrainian consumers in safe and quality food products in compliance</p>	08/10/2022

with the requirements of food legislation. Therefore, the draft Resolution is intended to exclude the provision on the temporary possibility for the period of martial law to sell food products, information of which is provided in a language other than the state language, on the customs territory of Ukraine. The draft Resolution also stipulates that food products, information of which is provided in a language other than the state, imported into the territory of Ukraine before the entry into force of this Resolution, may be in circulation until their expiration date.

*EPA is proposing to add the DINP category to the toxic chemical list on the basis that the updated hazard assessment demonstrates that the proposed diisononyl phthalate (DINP) category meets the Emergency Planning and Community Right-to-Know Act (EPCRA) toxicity criterion.*

07/10/2022

**Addition of Diisononyl Phthalate Category; Community Right-to-Know Toxic Chemical Release Reporting;**

On 5 September 2000, in response to a petition filed under the Emergency Planning and Community Right-to-Know Act (EPCRA), EPA issued a proposed rule to add a diisononyl phthalate (DINP) category to the list of toxic chemicals subject to the reporting requirements under EPCRA and the Pollution Prevention Act (PPA). EPA proposed to add this chemical category to the EPCRA toxic chemical list based on its preliminary conclusion that this category met the EPCRA toxicity criterion. EPA has updated its hazard assessment for DINP and is proposing to add DINP as a category defined to include branched alkyl di-esters of 1,2 benzenedicarboxylic acid in which alkyl ester moieties contain a total of nine carbons. The updated hazard assessment demonstrates that the proposed DINP category meets the EPCRA toxicity criterion because the members of the category can reasonably be anticipated to cause cancer and serious or irreversible chronic health effects in humans; specifically, developmental, kidney, and liver toxicity. EPA is proposing to add the DINP category to the toxic chemical list on this basis and is requesting comment on the updated DINP hazard assessment and associated updated economic analysis.
