- b) Any single-phase non-ducted room air-conditioners (Split type non-inverter air-conditioner) with one or more than one indoor unit (cooling capacity of 7.1 kW or lower) c) Any single-phase non-ducted room air-conditioners (Split type inverter air-conditioner) with one or more than one indoor unit (cooling capacity of 7.1 kW or lower)

ENERGY EFFICIENCY (STANDARD AND LABELLING) ORDER, 2021;

To control the importation and sales of the inefficient electrical appliance & product (ie, air conditioning) into the country. Requirement on Energy Efficiency (Minimum Energy Performance Standards and Energy Labelling).

- 1. Energy Efficiency (Minimum Energy Efficiency Standards and Energy Labelling) Regulations, 2022 aims to describe the standards and labelling part of regulated goods for instance the specification of air conditioner to meet the minimum energy performance standards. Content of the Regulation:
- •Registration requirements -Clause 4
- •Minimum energy efficiency standards –Clause 5
- •Energy label requirements –Clause 6
- •Display and affixing of energy label–Clause 72.

Energy Efficiency (Standards and Labelling) (Registrable Goods) Order, 2022 specifies types of regulated goods under the Energy Efficiency (Standards and Labelling) order, 2021.Content of the order:

•Registrable goods –Clause 2

Consumer clothes dryers; Centrifuges, including centrifugal 24/10/2022 dryers; filtering or purifying machinery and apparatus, for liquids or gases. (HS code(s): 8421); Environmental protection (ICS code(s): 13.020); Laundry appliances (ICS code(s): 97.060)

Energy Conservation Program: Energy Conservation Standards for Consumer Clothes Dryers;

Notice of proposed rulemaking and announcement of public meeting -The Energy Policy and Conservation Act, as amended ("EPCA"), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including consumer clothes dryers. EPCA also requires the U.S. Department of Energy ("DOE") to periodically determine whether more stringent standards would be technologically feasible and economically justified, and would result in significant energy savings. In this notice of proposed rulemaking ("NOPR"), DOE proposes amended energy conservation standards for consumer clothes dryers, and also announces a public meeting to receive comment on these proposed standards and associated analyses and results.
