<a href="#">G/TBT/N/BRA/1233</a> 30/08/2021	Brazil	<i>Quality requirements, Other</i> <b>MJSP Ordinance No. 304, 26 July 2021</b> Technical standard related to portable weapons – Carbines and rifles for employment at Public Safety (NT-SENASP No. 004/2021).	
<a href="#">G/TBT/N/KOR/99703</a> 30/08/2021	Korea	<i>Seismic isolator in the telecommunication facilities</i> <b>Draft Amendment of the Technical Regulations for Safety and Reliability of Broadcasting and Communication Protocol</b> This regulation is to specify technical specifications of seismic isolator in the telecommunication facilities.1. Added technical standards for seismic isolators for telecommunication facilities (4 of Schedule 2) - Floor response spectrum standards (0.5~33.3 Hz) reflecting the earthquake characteristics of domestic buildings by accepting the non-structural element vibration table test standards of the American Society of Civil Engineers. - Provision of installation conditions for seismic isolators, performance verification methods, judgment conditions, etc.2. Expansion of targets for analysis and verification of seismic performance of telecommunication facilities (2.b.5-6 of Schedule 2) - It has been relaxed to allow analysis and verification of power equipment and ancillary equipment except for rectifiers.	29/10/2021
<a href="#">G/TBT/N/UGA/1374</a> 30/08/2021	Uganda	<i>Ready to Drink Alcoholic beverages</i> <b>DUS 1598:2021, Alcoholic beverages —Ready to Drink (RTD) — Specification, Second Edition Note: This Draft Uganda Standard was also notified to the SPS Committee</b> This Draft Uganda Standard specifies the requirements, sampling and test methods for Ready to Drink alcoholic beverages (RTD). This standard does not apply to the following categories of products for which other standards apply: Spirits, Wines, Liqueurs, Beers, Malt beverages, Cider and Perry, Mead, Distilled spirituous beverages.	29/10/2021
<a href="#">G/TBT/N/CHN/1624</a> 31/08/2021	China	<i>Boiler</i> <b>Regulation on Energy Conservation and Environmental Protection Technology for Boiler (Draft for Review)</b> In order to strengthen the supervision of boiler energy conservation and environmental protection, the State Administration for Market Regulation revised Supervision Administration Regulation on Energy Conservation Technology for Boiler and Energy Efficiency Test and Evaluation Regulation for Industrial Boiler issued by the former AQSIQ to form Regulation on Energy Conservation and Environmental Protection Technology for Boiler (Draft for Review) with 26	30/10/2021

<a href="#">G/TBT/N/CHN/1625</a> 31/08/2021	China	<p>articles. The regulation is to make requirements for energy conservation and environmental protection of the boiler within the scope of Special Equipment Catalogue and its auxiliary, monitoring and measuring instruments, water treatment systems and control systems, etc.</p> <p><i>Road motor vehicles</i></p> <p><b>Safety Technical Specification for Light Truck and Micro Passenger Car</b></p> <p>This document specifies safety technical specification for light truck and micro passenger car.</p>	30/10/2021
<a href="#">G/TBT/N/TPKM/464</a> 31/08/2021	Chinese Taipei	<p><i>Food for human consumption</i></p> <p><b>Draft Regulations Governing the Labeling of Prepackaged Honey and Its Syrup Products</b></p> <p>Based on the provisions of Article 22 of the Act Governing Food Safety and Sanitation, the Food and Drug Administration proposes to announce the labelling requirement for prepackaged honey and its syrup products to offer consumers the right of informed choice.</p>	30/10/2021
<a href="#">G/TBT/N/KOR/998</a> 31/08/2021	Korea	<p><i>Foods</i></p> <p><b>Amendment of “Act on Labelling and Advertising of Foods”</b></p> <p>Ministry of Food and Drug Safety of Republic of Korea is proposing to amend the “Act on Labelling and Advertising of Foods”. The main changes proposed are: Foods etc. shall be labelled braille, voice convertible code and sign language image convertible code for visually impaired persons and hearing-impaired persons on the containers, packages or package inserts.</p>	30/10/2021
<a href="#">G/TBT/N/USA/1770</a> 31/08/2021	USA	<p><i>Various Airplanes, flight instruments</i></p> <p><b>Airworthiness Directives; Various Airplanes</b></p> <p>Notice of proposed rulemaking - The FAA proposes to adopt a new airworthiness directive (AD) for various airplanes modified with certain configurations of Garmin G3X Touch Electronic Flight Instrument System installed per Supplemental Type Certificate (STC) No. SA01899WI or Garmin GI 275 Multi-Function Display System (MFDS) installed per STC No. SA02658SE. This proposed AD was prompted by a report of a fuel quantity disparity between the amount of fuel indicated and the actual amount of fuel. This proposed AD would require modifying the resistive fuel probe interface. The FAA is proposing this AD to address the unsafe condition on these products.</p>	12/10/2021
<a href="#">G/TBT/N/EGY/295</a> 01/09/2021	Egypt	<p><b>ICS codes: 71.100.70 (Cosmetics. Toiletries)</b></p> <p><b>The Ministerial Decree No. 221 /2021 (2 pages, in Arabic) mandating the Egyptian Standard ES 5884-1 for " Cosmetics – Oils Part 1: individual oils for direct use</b></p> <p>The Ministerial Decree No. 221/2021 (2 pages, in Arabic) gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 5884-1. This standard specifies the requirements that must be met by individual oils intended for direct use in</p>	31/10/2021

cosmetic, whether they are vegetable, animal or mineral oils, as well as butters that do not contain any additives of a medicinal effect, and test methods. This standard does not apply to essential oils or mixture of oils. Worth mentioning is that this standard complies with British pharmacopoeia 2007.

<a href="#">G/TBT/N/EGY/296</a> 01/09/2021	Egypt	<p><i>ICS codes: 91.140.60 (Water supply systems)</i></p> <p><b>The Ministerial Decree No. 221 /2021 (2 pages, in Arabic) mandating the Egyptian Standard ES 5969-2 "Water meters for cold potable water and hot water — Part 2: test methods"</b></p> <p>The Ministerial Decree No. 221 /2021 gives the producers and importers a six-month transitional period to abide by the Egyptian standard ES 5969-2. This part is applicable to the type evaluation and initial verification testing of water meters for cold potable water and hot water as defined in ES 5969-1 OIML R 49-1:2013. OIML Certificates of Conformity can be issued for water meters under the scope of the OIML Certificate System, provided that this part of standard  OIML R 49, ES 5969-2 OIML R 49-1:2013 and ES 5969-3 OIML R 49-3:2013 are used in accordance with the rules of the System. This part sets out details of the test programme, principles, equipment and procedures to be used for the type evaluation, and initial verification of a meter type. The provisions of this part also apply to ancillary devices, if required by national regulations. The provisions include requirements for testing the complete water meter and for testing the measurement transducer (including the flow or volume sensor) and the calculator (including the indicating device) of a water meter as separate units. Worth mentioning is that this standard is technically identical with ISO 4064-2:2014 (confirmed in 2019).</p>	31/10/2021
<a href="#">G/TBT/N/EGY/297</a> 01/09/2021	Egypt	<p><i>ICS codes: 13.220.10 (Fire-fighting)</i></p> <p><b>Ministerial Decree No. 220/2021(1page, in Arabic) mandating the Egyptian Standard ES 8442 "Rechargeable portable fire extinguishers that works with dry chemical powder"</b></p> <p>The Ministerial Decree No. 220/2021 (1 page, in Arabic) which mandates the Egyptian Standard ES 8442, gives the producers and importers a four-month transitional period to abide by the cancelled Egyptian Standard ES 734/2013 "Portable Dry Chemical Powder Fire Extinguishers" (69 pages, in Arabic) starting from 1 May 2021 until the end of the transitional period in 1 September 2021.</p>	31/10/2021
<a href="#">G/TBT/N/EGY/298</a> 01/09/2021	Egypt	<p><i>ICS codes: 13.100 (Occupational safety. Industrial hygiene)</i></p> <p><b>The Ministerial Decree No. 221/2021 (2 pages, in Arabic) mandating the Egyptian Standard ES 8471 for "Occupational health and safety- table of hazard materials and their handling"</b></p> <p>The Ministerial Decree No. 221/2021 (2 pages, in Arabic) gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 8471. This standard is concerned with clarifying a table</p>	31/10/2021

in which the hazardous materials are listed. This table is used in the case of transport and handling of hazardous materials. The table specifies the hazard class for the hazardous materials, methods of transportation, and the proper shipping name. It also specifies the type and capacity of packing containers and the quantities that can be shipped on ships boards or aircraft for each hazardous substance. This table is used by: 1- Any person transporting hazardous materials. 2- Any means of transportation for these hazardous materials by sea, air or railway. 3- Any person responsible for packing or labelling of hazardous materials. Worth mentioning is that this standard complies with 49 CRF 172.101 (2019) - Purpose and use of hazardous materials table.

<a href="#">G/TBT/N/EGY/299</a> 01/09/2021	Egypt	<p><b>ICS codes:</b> 67.120.10 (<i>Meat and meat products</i>), 67.120.20 (<i>Poultry and eggs</i>)</p> <p><b>Draft of Egyptian standard for "Luncheon Meat"</b></p> <p>This draft standard specifies the basic requirements and the descriptive standards for Luncheon Meat and Luncheon poultry meat. This standard cancelled and superseded both of ES 1114/2005 concerned with “Luncheon Meat” and ES 1696/2005 concerned with “Luncheon poultry meat”. Worth mentioning is that this draft standard is technically identical with Codex Stan No.89/1981 revision: 1991, 2014 and 2015 ”luncheon meat”.</p>	31/10/2021
<a href="#">G/TBT/N/SGP/61</a> 01/09/2021	Singapore	<p><i>Therapeutic products which may include products covered under HS code 30, such as 3006 for finished therapeutic products, and 3002 for biologic products (e.g. vaccines)</i></p> <p><b>[1] Health Products (Therapeutic Products) Regulations – Presentation of Therapeutic Products regulations 19 and 20 (5 pages including the schedules referenced; in English)</b></p> <p><b>[2] Guidance on Therapeutic Product Registration in Singapore: Applicable labelling requirements in Appendix 7 on Points to consider for Singapore Labelling (2 pages; in English)</b></p> <p>Therapeutic products in Singapore are subject to labelling requirements that are either legislated by law or mandated as HSA’s administrative requirements. Legislated labelling requirements, under the Health Products (Therapeutic Products) Regulations, are subject to HSA’s surveillance programme. Administrative labelling requirements, specified in the Guidance on Therapeutic Product Registration in Singapore, are included as part of product registration application.</p>	31/10/2021

**Protecting Against National Security Threats to the Communications Supply Chain Through the Equipment Authorization Program and the Competitive Bidding Program**

Proposed rule - The Commission proposes to revise rules related to its equipment authorization processes to prohibit authorization of any "covered" equipment on the recently established Covered List. The Commission also seeks comment on whether to require additional certification relating to national security from applicants who wish to participate in the Commission's competitive bidding auctions. This action explores steps the Commission can take to further its goal of protecting communications networks from communications equipment and services that pose a national security risk. Comments are due 20 September 2021. Reply comments are due October 18, 2021. Written comments on the Paperwork Reduction Act proposed information collection requirements must be submitted by the public, Office of Management and Budget (OMB), and other interested parties on or before 18 October 2021.
