28/08/2023

Games with screens, flipper and other games, operated by coins, banknotes, bank cards, tokens or by other means of payment (excl. bowling alley equipment) (HS code(s): 950430); Domestic and commercial equipment. Entertainment. Sports (ICS code(s): 97); Gaming equipment 27/10/2023
DUS 2580: 2022 Gaming equipment —On-Line Monitoring and Control Systems (MCS) and Validation Systems —requirements;

This Draft Uganda Standard provides requirements for On-Line Monitoring and Control Systems (MCS) and Validation System requirements necessary to achieve certification when interfaced to Gaming Devices, for the purpose of communicating mandatory security events and electronic meters. This infers that all relevant monetary transactions at the Gaming Device level are handled through:

a) Credit Issuance:

- i. Coins or tokens accepted via approved coin acceptors;
- ii. Currency notes (Bills) accepted via approved bill validators; and
- iii. Approved Ticket/Voucher (Items) accepted via approved Bill/ Ticket/Voucher validators; or
- iv. Player Account Cards (cashless)

b) Credit Redemption:

- i. Coins or tokens paid by approved hoppers;
- ii. Handpays;
- iii. Ticket/Voucher (Items) paid by approved ticket/voucher printers; or
- iv. Player Account Cards (cashless).

Devices that have at least one transducer (sensor or actuator) for interacting directly with the physical world and at least one network interface (e.g., Ethernet, Wi-Fi, Bluetooth) for interfacing with the digital world; Cybersecurity labeling; IT Security (ICS code(s): 35.030) 10/10/2023
Cybersecurity Labeling for Internet of Things;

Proposed rule -In this document, the Federal Communications Commission (Commission) proposes measures to improve consumer confidence and understanding of the security of their connected devices--commonly known as Internet of Things (IoT) devices--that are woven into the fabric of their everyday lives. To provide consumers with the peace of mind that the technology being brought into their homes is reasonably secure, and to help guard against risks to communications, the Commission proposes a voluntary cybersecurity labeling program that would provide easily understood, accessible information to consumers on the relative security of an IoT device or product, and assure consumers that manufacturers of devices bearing the Commission's IoT cybersecurity label adhere to widely accepted cybersecurity standards. In this regard, the Commission's cybersecurity labeling program would help consumers compare IoT devices and make informed purchasing decisions, drive consumers toward purchasing devices with greater security, incentivize manufacturers to meet higher cybersecurity standards to meet market demand, and encourage retailers to market secure devices. The proposed

IoT label would offer a trusted, government-backed symbol for devices that comply with IoT cybersecurity standards.

G/TBT/N/USA/2042 28/08/2023	United States of America	<p><i>Canned tuna; Quality (ICS code(s): 03.120); Fish and fishery products (ICS code(s): 67.120.30)</i></p> <p>Fish and Shellfish; Canned Tuna Standard of Identity and Standard of Fill of Container;</p> <p>Proposed rule -The Food and Drug Administration (FDA or we) is proposing to amend the standard of identity and standard of fill of container for canned tuna. This action partially responds to a citizen petition submitted by Bumble Bee Foods, LLC, StarKist Co., and Tri Union Seafoods, LLC (doing business as Chicken of the Sea International). We tentatively conclude that this action, if finalized, will promote honesty and fair dealing in the interest of consumers.</p>	24/11/2023
G/TBT/N/AUS/160 30/08/2023	Australia	<p><i>The following chemicals, and products (finished goods) containing the following chemicals, when used for an industrial purpose (excluding agricultural, veterinary or therapeutic purposes):</i></p> <ul style="list-style-type: none">•Perfluorooctanoic acid (PFOA) and related substances•Perfluorooctane sulfonic acid (PFOS) and related substances•Perfluorohexane sulfonic acid (PFHxS) and related substances•Pentachlorobenzene (PeCB). <p>Proposed chemical management standards for four persistent organic pollutants;</p> <p>The Industrial Chemicals Environmental Management Standard (IChEMS) has been developed by all Australian governments to efficiently and effectively manage the risks of industrial chemicals to the environment, while providing consistent requirements for businesses across Australia. The IChEMS Register records standards for the environmental management of chemicals, including risk management measures for specific industrial uses. In turn, the Australian federal government and each state and territory government will enact legislation to implement the standards in their jurisdictions.</p> <p>The proposed decisions will assign the following chemicals, and products containing the chemicals, to Schedule 7 of the Register. This will prohibit their import, manufacture, use and export in Australia, with limited exceptions for unintentional trace contamination, research, disposal, and for articles (products) in use prior to the date of effect of the decision.</p> <ul style="list-style-type: none">•Perfluorooctanoic acid (PFOA), including any of its branched isomers, its salts and any related compound that contains a linear or branched perfluoroheptyl (C7H15C) group and which can degrade to linear or branched PFOA;•Perfluorooctane sulfonic acid (PFOS), including any of its branched isomers, its salts, perfluorooctane sulfonyl fluoride, and any substance containing a linear or branched perfluorooctane sulfonyl moiety and capable of degrading to PFOS (linear or branched);•Perfluorohexane sulfonic acid (PFHxS), including its linear and branched isomers, their salts and any substance containing a linear or branched perfluorohexylsulfonyl moiety that can degrade to PFHxS;	29/10/2023

La República de Ecuador comunica y da a conocer la Normativa Técnica Sanitaria para el control y vigilancia de los establecimientos y productos de tabaco comercializados a nivel nacional. La normativa ha sido expedida mediante la Resolución Nro. ARCSA-DE-2023-017-AKRG de 31 de mayo de 2023, por la Agencia Nacional de Regulación, Control y Vigilancia Sanitaria -ARCSA, Doctor Leopoldo Izquieta Pérez. La presente normativa técnica sanitaria entrará en vigencia a partir de su suscripción. El objeto es establecer los lineamientos, bajo las cuales se realizará el control y vigilancia de los productos de tabaco y así como también de los establecimientos que fabriquen, importen, distribuyen, comercialicen y expenden productos de tabaco.

Normativa Técnica Sanitaria para el control y vigilancia de los establecimientos y productos de tabaco comercializados a nivel nacional;

El objeto de la presente normativa técnica sanitaria es establecer los lineamientos, bajo las cuales se realizará el control y vigilancia de los productos de tabaco y así como también de los establecimientos que fabriquen, importen, distribuyen, comercialicen y expenden productos de tabaco. Las disposiciones establecidas en la presente normativa son de aplicación obligatoria a todas las personas naturales o jurídicas, nacionales o extranjeras dedicadas a la fabricación, almacenamiento, importación, distribución, comercialización y expendio de los productos de tabaco sujetos a control y vigilancia sanitaria en todo el territorio nacional; así como también de la determinación de sanciones a los incumplimientos de las habilitaciones sanitarias.
