This RFI seeks input in four areas to support medium and heavy-duty (MHD) battery electric vehicles (EV) (DOT vehicle classes 4 through 8) including: unique EV charger and station needs; vehicle charging patterns; MHD EV charger technology and standardization; and workforce, supply chain, and manufacturing to support charging of MHD battery EVs. The goal is to inform appropriate future Federal Government activities to support the development and deployment of EV chargers to support the anticipated needs of MHD EV original equipment manufacturers, fleet operators, drivers, charging station operators, and electric utilities. Comments should also address how to balance</p>	12/11/2024

advances in technology with the need to expeditiously build out the national EV charging infrastructure, including support for MHD segments.

Cars (M1, M2, M3), trucks (N1, N2, N3), motorcycles (2-and 3-wheelers), mopeds, tractors, non-road mobile machinery, trailers (O1, O2, O3, O4) and agricultural vehicles, etc. The affected vehicle types correspond to those mentioned in EU-regulations 2018/858/EU, 167/2013/EU and 168/2013/EU. 26/11/2024

Executive order on technical requirements for vehicles and their equipment and use;

- Technical requirements for vehicles and their equipment when vehicles have obtained or are to obtain a national, individual approval. EU type-approved vehicles that have not been modified are thus not covered.
- Corresponding rules for modified vehicles that must be approved, regardless of whether the vehicles were originally EU type-approved or not.
- Regulation of the use of vehicles in places where the Danish Traffic Regulation Act applies.
