G/TBT/N/JOR/72 22/09/2025	Jordan	<i>Sugar and sugar products (ICS code(s): 67.180.10)</i> Sugar and sugar products – Chewing gum This draft standard specifies the requirements, composition, additives, contaminants, sampling, testing methods, packaging, storage, and labeling of chewing gum, including sweetened, sugar-free, and bubble gum varieties.	21/11/2025
G/TBT/N/KEN/1861 22/09/2025	Kenya	<i>Woven fabrics of cotton, containing >= 85% cotton by weight and weighing <= 200 g/m² (HS code(s): 5208); Textile fabrics (ICS code(s): 59.080.30)</i> DARS 657:2025 Textile — African prints — Specification; This Committee Draft African Regional Standard specifies requirements, tests methods, and sampling for woven printed fabrics made from cotton or cotton blend fabrics used for apparel.	12/11/2025
G/TBT/N/KEN/1862 22/09/2025	Kenya	<i>Blankets and travelling rugs of all types of textile materials (excl. table covers, bedspreads and articles of bedding and similar furnishing of heading 9404) (HS code(s): 6301); Products of the textile industry (ICS code(s): 59.080)</i> DARS 662:2025 Textiles — Blankets — Specification; This Working draft African Standard specifies requirements, test methods and sampling of blankets	12/11/2025
G/TBT/N/KEN/1863 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-1:2025 School clothing — Part 1: General requirements for school clothing; This part of ARS 1568 specifies the general requirements for the materials, workmanship, packaging, care-labelling, marking, test methods, and inspection of school clothing. Note: This standard is only intended to be used in combination with other parts containing specific requirements for school clothing performance and not on a stand-alone basis	12/11/2025
G/TBT/N/KEN/1864 22/09/2025	Kenya	<i>Clothing industry (ICS code(s): 61)</i> DARS 1568-2: School clothing — Part 2: Blazers; This part of African Standard specifies the requirements for the materials, sizes, make, packaging, sampling, labelling and marking for blazers.	12/11/2025
G/TBT/N/KEN/1865 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-3:2025: School clothing— Part 3: Trousers and shorts This part of African Standard specifies the requirements for the materials, sizes, make, packaging, sampling, care-labelling and marking for trousers and shorts.	12/11/2025
G/TBT/N/KEN/1866 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-4: School clothing — Part 4: Shirts;	12/11/2025

		This part of African Standard specifies the requirements for the materials, sizes, make, packaging, sampling, care labelling and marking for shirts.	
G/TBT/N/KEN/1867 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-6:2025: School clothing — Part 6: Dresses and tunics This part of African Standard specifies the requirements for the materials, sizes, make, packaging, sampling, care labelling and marking for dresses and tunics.	12/11/2025
G/TBT/N/KEN/1868 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-7: School clothing — Part 7: Skirts; This part of African Standard specifies the requirements for the materials, sizes, make, packaging, sampling, care labelling and marking for skirts.	12/11/2025
G/TBT/N/KEN/1869 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-9: School clothing — Part 9: Socks; This part of ARS 1568 specifies the requirements, test methods, and sampling of school socks.	12/11/2025
G/TBT/N/KEN/1870 22/09/2025	Kenya	<i>Clothes (ICS code(s): 61.020)</i> DARS 1568-10:2025: School clothing — Part 10: Sweaters and cardigans; This part of ARS 1568 specifies the requirements for the materials, size, and make of school sweaters and cardigans.	12/11/2025
G/TBT/N/KEN/1871 22/09/2025	Kenya	<i>Poultry and eggs (ICS code(s): 67.120.20)</i> DARS 1873: 2025 Poultry meat production — Ecolabelling and sustainability — Requirements; This African eco-labelling standard establishes principles, criteria, indicators and measurable performance levels for responsible African poultry meat production with regard to economic, social and environmental sustainability. This scope will include all classes of poultry meat production in large- and small-scale production and consumption.	21/11/2025
G/TBT/N/KEN/1872 22/09/2025	Kenya	<i>Animal husbandry and breeding (ICS code(s): 65.020.30);</i> <i>Milk and milk products (ICS code(s): 67.100)</i> DARS 1875:2025 Dairy goat production — Ecolabelling and sustainability — Requirements; This Draft African Standard specifies requirements for production, processing, manufacture and consumption for both domestic and commercial dairy goat with regard to the respective concepts of sustainability. It also applies to all aspect of animal welfare including slaughter.	21/11/2025
G/TBT/N/KEN/1873 22/09/2025	Kenya	<i>Plant growing (ICS code(s): 65.020.20)</i> DARS 1890:2025 Seaweed — Ecolabelling and sustainability — Requirements; This Draft African Standard specifies requirements for all aspects of production, processing, manufacture and consumption of seaweed for both domestic and commercial seaweed with regard to the respective concepts of the Sustainable Development Goals (SDGs).	21/11/2025

G/TBT/N/KEN/1874 22/09/2025	Kenya	<i>Animal husbandry and breeding (ICS code(s): 65.020.30); Meat, meat products and other animal produce (ICS code(s): 67.120)</i> DARS 1874:2025 Meat goat production — Ecolabelling and sustainability — Requirements; This Draft African Standard specifies requirements for production, processing, manufacture to consumption for both domestic and commercial goat with regard to the respective concepts of sustainability. It also applies to all aspect of animal welfare including slaughter.	21/11/2025
G/TBT/N/KEN/1875 22/09/2025	Kenya	<i>Animal husbandry and breeding (ICS code(s): 65.020.30); Animal feeding stuffs (ICS code(s): 65.120)</i> DARS 1876:2025 Environmental code of practices for poultry farms This Draft African Standard covers all aspects and requirements of poultry farming and feeds processing, for both domestic and commercial consumption with regards to the respective concepts of Sustainable Development Goals.	21/11/2025
G/TBT/N/KEN/1876 22/09/2025	Kenya	<i>Plant growing (ICS code(s): 65.020.20)</i> DARS 1880: 2025 Sustainable sugar — Ecolabelling and sustainability — Requirements; This African Standard establishes Good Agricultural Practices (GAP) for sustainable sugar production, harvesting, post-harvest processing and other related handling along the value-chain in order to obtain good quality product from the farm to the cup.	21/11/2025
G/TBT/N/KEN/1877 22/09/2025	Kenya	<i>Fishing and fish breeding (ICS code(s): 65.150)</i> DARS 1866:2025 Abalone — Ecolabelling and sustainability — Requirements; This Draft African Standard applies to harvesting of all classes of Abalone, from the seas, normal fresh and salt waters or in aquaculture, in small-scale or large-scale production, either for consumption or for their high prized ornamental shell and may extend to any value added secondary product.	21/11/2025
G/TBT/N/KEN/1878 22/09/2025	Kenya	<i>Milk and milk products (ICS code(s): 67.100)</i> DARS 1871 : 2025 Dairy production — Ecolabelling and sustainability — Requirements; This Draft African Standard covers all aspects and requirements of production, processing, manufacturing and consumption for both domestic and commercial dairy production with regard to the respective concepts of the Sustainable Development.	21/11/2025
G/TBT/N/KEN/1879 22/09/2025	Kenya	<i>Meat, meat products and other animal produce (ICS code(s): 67.120)</i> DARS 1870 : 2025 Sheep production — Ecolabelling and sustainability — Requirements; This Draft African Standard covers all aspects and requirements of production, processing, manufacture to consumption for both domestic and commercial Sheep with regard to the respective concepts of the Sustainability. The scope also extends to include all aspect of animal welfare including slaughter.	21/11/2025

G/TBT/N/KEN/1880 22/09/2025	Kenya	<i>Poultry and eggs (ICS code(s): 67.120.20)</i> DARS 1872:2025 Sustainable egg assurance scheme — Rearer, egg producer and packer standard; This Draft African Standard specifies requirements for poultry rearers, egg producers and packers for both domestic and commercial consumption of table eggs with regards to the respective concepts of Sustainable Development Goals (SDGs).	21/11/2025
G/TBT/N/KEN/1881 22/09/2025	Kenya	<i>Plant growing (ICS code(s): 65.020.20)</i> DARS 1879:2025 Sustainable banana — Ecolabelling and sustainability — Requirements; This Draft African Standard establishes Good Agricultural Practices (GAP) for sustainable banana. It also covers the entire value chain in production, harvesting, post-harvest processing and other activities related to handling in order to obtain good quality product. The scope therefore covers all aspects operation along the value chain from farm to gate and from gate to plate while ensuring food safety and sustainability.	21/11/2025
G/TBT/N/KEN/1882 22/09/2025	Kenya	<i>Fishing and fish breeding (ICS code(s): 65.150)</i> DARS 1867:2025 Shrimps/prawns — Ecolabelling and sustainability — Requirements; This Draft African standard establishes principles, criteria, indicators and measurable performance levels for responsible African Shrimps and Prawns (<i>Halitosis midae</i> also commonly known as South African Shrimps and Prawns or perlemoen) with regard to economic, social and environmental sustainability. This scope will include all classes of Shrimps and Prawns (an edible molluscs of warm seas, with shallow ear-shaped shell lined with a mother of pearl and pierced with a line of respiratory holes) under normal fresh and salt waters, in aquaculture, in large scale and small-scale production and consumption' this will include but not limited to; black, white, pink, red, green, flat, Japanese etc.	21/11/2025
G/TBT/N/KEN/1883 22/09/2025	Kenya	<i>Food products in general (ICS code(s): 67.040)</i> DARS 1100: 2025 Production and handling of food crops — Good agricultural practices; This Draft African Standard (DARS) establishes Good Agricultural Practices (GAP) for food crop production and handling during and after harvesting at farm level in order to obtain good quality produce, safe and fit for human consumption by taking environment, health, safety and welfare of workers into account.	12/11/2025
G/TBT/N/KEN/1884 22/09/2025	Kenya	<i>Maize or corn (HS code(s): 1005); Cereals, pulses and derived products (ICS code(s): 67.060)</i> DARS 1101: 2025 Production and handling of maize (Corn) grains — Good agricultural practices; This Draft African Standard (DARS) for <i>Zea mays</i> (maize) production in Africa establishes the principles, criteria, and requirements to ensure environmentally sound, economically viable, and socially responsible production of maize across the continent. It applies to smallholder, medium, and large-scale maize producers and extends to Maize aggregators, processors, and exporters. However, other stakeholders such as, Certification and	12/11/2025

ecolabeling bodies, Regulatory and policy institutions, Human and Labor rights civil societies, community participation groups, Stakeholders in intra-African and international maize trade may be involved in one way or another

G/TBT/N/KOR/1316 22/09/2025	Korea, Republic of	<i>Foods</i> Proposed Revision of the "Standard for Determining Unfair Labelling and Advertising of Foods"; MFDS is proposing to amend the Standard of Unfair Labeling or Advertising Content of Foods as follows: 1. Reorganizing advertisements for natural labeling, such as allowing for natural labeling of honey	21/11/2025
G/TBT/N/KOR/1317 22/09/2025	Korea, Republic of	<i>Food</i> Proposed Amendment of the "Labelling Standards for Foods"; The Ministry of Food and Drug Safety of Korea would like to revise the below statement from Foods Labeling Standards. The main points of the amendments are as follows: 1. Establishment of a new method of detailed labeling of food products, etc. that provides information electronically through barcodes such as QR codes 2. Establishing a new way to provide information electronically via barcodes	12/10/2025
G/TBT/N/KOR/1318 22/09/2025	Korea, Republic of	<i>Food</i> Proposed Amendment of the "Labelling Standards for Health Functional Foods"; The Ministry of Food and Drug Safety of Korea would like to revise the below statement from Health Functional Foods Labeling Standards. The main points of the amendments are as follows:1) Establishment of a new method of detailed labeling of food products, etc. that provides information electronically through barcodes such as QR codes2) In accordance with the labeling standards for health functional foods, a new provision has been established to allow the separated indication of the country of origin when ingredient names are included in the product description.	12/10/2025
G/TBT/N/KOR/1319 22/09/2025	Korea, Republic of	<i>Foods</i> Proposed Revision of the "Enforcement Rule of the Act on Labeling and Advertising of Foods"; The proposed amendment is to: - Establish a definition for the 'Best before date' - Allow authorities to review the safety of foods that are labeled only with the 'Date of manufacture' or are not labeled with either the 'Use-by date' or the 'Best before date' - Recommend the use of a 'Use-by date' or 'Best before date' if necessary	21/11/2025
G/TBT/N/CHE/299 22/09/2025	Switzerland	<i>Household tumble driers, range hoods, smartphones, mobile phones other than smartphones, cordless phones and slate tablets; ventilators, ventilators, stand-by.</i> Draft revision of the ordinance on energy efficiency; As part of the present revision of the Energy Efficiency Ordinance of November 1, 2017 (EnEV; SR 730.02), adaptations to EU law are being made.	21/11/2025

Energy efficiency requirements are adapted to EU law in Annexes 1.3 (tumble dryers), 1.7 (range hoods), 1.23 (mobile phones, cordless phones and tablets), 2.1 (Stand-by) and 2.6 (ventilators).

The requirements for coffee machines in Appendix 3.2, which previously deviated from EU law, are repealed.

Electrical appliance

22/11/2025

BOS IEC 60335-2-7:2024 Household and similar electrical appliances - Safety - Part 2-7: Particular requirements for washing machines;

IEC 60335-2-7:2024 deals with the safety of electric washing machines for household and similar use, that are intended for washing clothes and textiles, their rated voltage being not more than 250 V for single-phase appliances and 480 V for other appliances including direct current (DC) supplied appliances and battery-operated appliances. This standard also deals with the safety of electric washing machines for household and similar use employing an electrolyte instead of detergent. Appliances not intended for normal household use but which nevertheless can be a source of danger to the public, such as appliances intended to be used by laymen in shops, in light industry and on farms, are within the scope of this standard. As far as is practicable, this standard deals with the common hazards presented by washing machines that are encountered by all persons in and around the home. However, in general, it does not take into account:

- persons (including children) whose: physical, sensory or mental capabilities; or lack of experience and knowledge prevents them from using the appliance safely without supervision or instruction.

DEAS 1284:2025, Code of hygienic practice for the transport of food in bulk and semi-packed food, First edition;

This draft East Africa Standard provides guideline on transportation of food in bulk and semi-packed food. This standard does not cover growing and gathering or fishing operations that occur prior to loading product into the food transportation unit for shipment, nor does it cover in-plant conveyance of product that occurs after unloading or after off-loading and emptying. Examples of foods excluded from this code are the following

- a) On farm movement of a product,
- b) Movement from the field to collection facility, packaging facility, or storage facility

G/TBT/N/BDI/647 23/09/2025	Burundi	<i>Food preparations, n.e.s. (HS code(s): 2106); Food technology (ICS code(s): 67)</i> DEAS 151: 2025, Hazard Analysis Critical Control Point (HACCP) Management System — Requirements for any organization in the food chain, Third edition; This Draft East African Standard specifies the requirements for establishment, implementation and maintenance of HACCP system as a preventive system to ensure food safety control measures at each step throughout the food chain from primary production to final consumption. This standard applies to all food handling organizations, regardless of size, which produce, manufacture, handle or supply food involved in one or more steps of the food chain. This includes organizations directly involved but not limited to feed producers, farmers, harvesters, producers of food ingredients, food manufacturers, food retailers, food services, catering services, organizations providing cleaning, transportation, storage and distribution services and other organizations indirectly involved including, but not limited to, suppliers of equipment, cleaning agents and packaging material, and other food contact materials.	22/11/2025

Examples of appliances that are within the scope of this standard are: – barbecues for indoor use; – breadmakers; – candy floss appliances; – contact grills (griddles); – cookers; – food dehydrators; – hotplates; – induction wok hotplates; – pop-corn makers; – portable ovens; – raclette grills; – radiant grills; – roasters; – rotary grills; – rotisseries; – toasters; – waffle irons; Appliances intended for normal household and similar use and that may also be used by laymen in shops, in light industry and on farms, are within the scope of this standard. However, if the appliance is intended to be used professionally to process food for commercial consumption, the appliance is not considered to be for household and similar use only.	24/11/2025
G/TBT/N/BWA/197 25/09/2025	Botswana	<i>Household and Electrical appliances</i> BOS IEC 60335-2-8:2022 Household and similar electrical appliances - Safety - Part 2-8: Particular requirements for shavers, hair clippers and similar appliances;	24/11/2025

IEC 60335-2-8:2022 deals with the safety of electric shavers, hair clippers, epilators, appliances used for manicure and pedicure and similar appliances intended for household and similar purposes, their rated voltage being not more than 250 V, including direct current (DC) supplied appliances and battery-operated appliances. Appliances not intended for normal household use, but which nevertheless possibly pose a source of danger to the public, such as appliances intended to be used by laymen in shops and on farms, are within the scope of this standard. Examples of such appliances are animal shearers. As far as is practicable, this standard deals with the common hazards presented by appliances that are encountered by all persons in and around the home. However, in general, it does not take into account

- persons (including children) whose physical, sensory or mental capabilities; or lack of experience and knowledge prevents them from using the appliance safely without supervision or instruction.

- children playing with the appliance.

Attention is drawn to the fact that

- for appliances intended to be used in vehicles or on-board ships or aircraft, additional requirements can be necessary.

- in many countries additional requirements are specified by national health authorities, national authorities responsible for the protection of labour and similar authorities.

This standard does not apply to

- appliances intended to be used in locations where special conditions prevail, such as the presence of a corrosive or explosive atmosphere (dust, vapour or gas);

- massage appliances (IEC 60335-2-32).

- beauty care appliances incorporating lasers and intense light sources (IEC 60335-2-113).

- skin beauty care appliances (IEC 60335-2-115).

- appliances for medical purposes (IEC 60601).

Electric road vehicles (ICS code(s): 43.120)

24/11/2025

IEC 61851-1:2017 Electric vehicle conductive charging system - Part 1: General requirements;

IEC 61851-1:2017 applies to EV supply equipment for charging electric road vehicles, with a rated supply voltage up to 1 000 V AC or up to 1 500 V DC and a rated output voltage up to 1 000 V AC or up to 1 500 V DC. Electric road vehicles (EV) cover all road vehicles, including plug-in hybrid road vehicles (PHEV), that derive all or part of their energy from on-board rechargeable energy storage systems (RESS). The aspects covered in this standard include:

- the characteristics and operating conditions of the EV supply equipment;

- the specification of the connection between the EV supply equipment and the EV;

- the requirements for electrical safety for the EV supply equipment.

This third edition cancels and replaces the second edition published in 2010. It constitutes a technical revision.

This edition includes the following significant technical changes with respect to the previous edition:

- a) The contents of IEC 61851-1:2010 have been re-ordered. Numbering of clauses has changed as new clauses were introduced and some contents moved for easy reading.

The following lines give an insight to the new ordering in addition to the main technical changes.

b) All requirements from IEC 61851-22 have been moved to this standard, as work on IEC 61851-22 has ceased.

c) Any requirements that concern EMC have been removed from the text and are expected to be part of the future version of 61851-21-2.

d) Clause 4 contains the original text from IEC 61851-1:2010 and all general requirements from Clause 6 of IEC 61851-1:2010.

e) Clause 5 has been introduced to provide classifications for EV supply equipment.

f) Previous general requirements of Clause 6 have been integrated into Clause 4. Clause 6 contains all Mode descriptions and control requirements. Specific requirements for the combined use of AC and DC on the same contacts are included

Electrical accessories in general (ICS code(s): 29.120.01); Doors and windows (ICS code(s): 91.060.50) 24/11/2025

IEC 60335-2-97:2023 Household and similar electrical appliances - Safety - Part 2-97: Particular requirements for drives for shutters, awnings, blinds and similar equipment;

IEC 60335-2-97:2023 deals with the safety of electric drives for shutters, blinds and awnings, intended for household and similar purposes, their rated voltage being not more than 250 V for single-phase drives and 480 V for other drives, including direct current (DC) supplied appliances and battery-operated appliances. Examples of equipment that can be driven are

- spring controlled folding arm awnings.
- curtains.
- grilles covering doors and windows.
- projection screens.
- shutters covering doors and windows.
- draperies.

Drives can be supplied with a driven part.

Drives not intended for normal household use but that nevertheless can be a source of danger to the public, such as drives intended to be used by laymen in shops, in light industry, on farms and on industrial premises, are within the scope of this standard.

As far as is practicable, this standard deals with the common hazards presented by drives that are encountered by all persons in and around the home. However, in general, it does not take into account

- persons (including children) whose physical, sensory or mental capabilities; or lack of experience and knowledge prevents them from using the drive safely without supervision or instruction.
- children playing with the drive.

Domestic safety (ICS code(s): 13.120); Miscellaneous domestic and commercial equipment (ICS code(s): 97.180) 24/11/2025

IEC 60335-2-54:2022 Household and similar electrical appliances - Safety - Part 2-54: Particular requirements for surface-cleaning appliances for household use employing liquids or steam;

IEC 60335-2-54:2022 deals with the safety of electric cleaning appliances for household use that are intended for cleaning surfaces by using liquid cleansing agents or steam, their rated voltage being not more than 250 V including direct current (DC) supplied appliances and battery-operated appliances. It also covers wallpaper strippers and surface cleaning appliances incorporating heating elements or means for pressurizing the liquid container.

As far as is practicable, this standard deals with the common hazards presented by appliances that are encountered by all persons in and around the home. However, in general, it does not take into account

- persons (including children) whose physical, sensory or mental capabilities; or lack of experience and knowledge prevents them from using the appliance safely without supervision or instruction;
- children playing with the appliance.

Attention is drawn to the fact that

- for appliances intended to be used in vehicles or on board ships or aircraft, additional requirements can be necessary;
- in many countries additional requirements are specified by the national health authorities, the national authorities responsible for the protection of labour, and similar authorities.

Domestic safety (ICS code(s): 13.120); Kitchen equipment (ICS code(s): 97.040) 24/11/2025

EC 60335-2-35:2012+AMD1:2016+AMD2:2020 Household and similar electrical appliances - Safety - Part 2-35: Particular requirements for instantaneous water heaters;

IEC 60335-2-35:2012+A1:2016+A2:2020 deals with the safety of electric instantaneous water heaters for household and similar purposes and intended for heating water below boiling temperature, their rated voltage being not more than 250 V for single-phase appliances and 480 V for other appliances. Instantaneous water heaters incorporating bare heating elements are within the scope of this standard. Appliances not intended for normal household use but that nevertheless may be a source of danger to the public, such as appliances intended to be used by laymen in shops, in light industry and on farms, are within the scope of this standard. As far as is practicable, this standard deals with the common hazards presented by appliances that are encountered by all persons in and around the home. However, in general, it does not take into account persons (including children) whose physical, sensory or mental capabilities, or lack of experience and knowledge prevents them from using the appliance safely without supervision or instruction or children playing with the appliance. This fifth edition cancels and replaces the fourth edition published in 2002, including its Amendment 1 (2006) and its Amendment 2 (2009). The principal changes in this edition as compared with the fourth edition of IEC 60335-2-31 are as follows:

- converted notes to normative text (7.12, 7.102, 8.1.5, 22.104, and 22.109.3);
- deleted notes in 19.13, 22.109, and A.101;
- added Annex R and 22.108 for appliances with programmable electronic circuits and added requirements

for water heaters (22.50, 22.51). The attention of National Committees is drawn to the fact that equipment manufacturers and testing organizations may need a transitional period following publication of a new, amended or revised IEC publication in which to make products in accordance with the new requirements and to equip themselves for conducting new or revised tests. It is the recommendation of the committee that the content of this publication be adopted for implementation nationally not earlier than 12 months or later than 36 months from the date of publication. This publication is to be read in conjunction with IEC 60335-1:2010. This consolidated version consists of the fifth edition (2012), its amendment 1 (2016) and its amendment 2 (2020). Therefore, no need to order amendments in addition to this publication.

G/TBT/N/CZE/256 26/09/2025	Czech Republic	<i>'Instruments measuring water flow quantity' – water meters</i> Draft Measure of a General Nature No: 0111-OOP-C035-26 laying down metrological and technical requirements for specified measuring instruments, including test methods for type approval, verification and checking of specified measuring instruments: 'instruments measuring water flow quantity' – water meters; The regulation lays down the metrological and technical requirements for these specified measuring instruments, including the test methods for type approval and verification of specified measuring instruments – water meters. Water meters may be placed on the market and put into service in the Czech Republic as specified measuring instruments pursuant to Act No 505/1990 on metrology, as amended. Pursuant to this Act, specified measuring instruments are instruments that are included in the list of the types of specified measuring instruments (Decree No 345/2002) and, at the same time, intended (by the manufacturer/importer) for measurements of relevance to the protection of public interests in areas of consumer protection, contractual relations, imposition of sanctions, fees, tariffs and taxes, health protection, environmental protection,	30/11/2025

occupational safety, or the protection of other public interests protected by special legislation. This is therefore a purpose similar to the one defining specified products – non-automatic measuring instruments and scales pursuant to Directives 2014/31/EU and 2014/32/EU. The requirements of this legislation do not apply to measuring instruments not placed on the market in the Czech Republic for the above purposes, defined by Act No 505/1990 on metrology, as amended. The purpose of this notified legislation is to lay down metrological and technical requirements for these specified measuring instruments. This legislation also stipulates tests for type approval and verification of specified measuring instruments of this type.
