<a href="#">G/TBT/N/EU/867</a> 24/01/22	European Union	<p><i>Bifenazate (pesticide active substance)</i>  <b>ICS codes: 65.100 (Pesticides and other agrochemicals);</b>  <b>Draft Commission Implementing Regulation renewing the approval of the active substance bifenazate in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011</b></p> <p>G/TBT/N/EU/867 This draft Commission Implementing Regulation provides that the approval of the active substance bifenazate is renewed in accordance with Regulation (EC) No 1107/2009. It is however, necessary to include certain conditions and restrictions, i.e. to restrict the use of plant protection products containing bifenazate to non-edible crops in permanent greenhouses and to require further confirmatory information. Existing authorised plant protection products containing bifenazate will be reviewed in accordance with the conditions and restrictions set in this act. The conditions and restrictions are based on the first evaluation of the substance for use as a pesticide active substance in the EU under Regulation (EC) No 1107/2009. The substance was formerly approved under Directive 91/414/EEC. This decision only concerns the placing on the market of this substance. Following restriction of the approval and the consequent expiry of all grace periods for stocks of products, separate legal action may be taken on Maximum Residue Levels and a separate notification will be made in accordance with SPS procedures in due time.</p>	25/03/22

Window or wall types, self-contained or "split-system" (HS: 841510), – Incorporating a refrigerating unit and a valve for reversal of the cooling/heat cycle (reversible heat pumps) (HS: 841581), – Other, incorporating a refrigerating unit (HS: 841582), – Parts (HS: 841590).</i></p> <p><b>Proposal for Amendments to Requirements on Minimum Energy Performance Standard and Energy Efficiency Rating Labeling and Inspection of Non-ducted Air Conditioning Machines</b></p> <p>G/TBT/N/TPKM/480 With a view to enhancing the efficiency of energy use, the Bureau of Energy intends to modify the minimum energy performance standards, energy efficiency rating labelling requirements.</p>	25/03/22
<a href="#">G/TBT/N/MDA/54</a> 24/01/22	Moldova, Republic of	<p><i>Appliances burning gaseous fuels</i>  <b>The draft of Government Decision for the approval of the Technical Regulation on appliances burning gaseous fuels, 44 pages, Romanian language</b></p> <p>G/TBT/N/MDA/54 Draft Technical Regulation lays down requirements for the placement on the market and the use of appliances burning gaseous fuels. The draft technical Regulation establishes requirements that any gas appliance or fittings must meet when being placed on the Moldovan market. The regulation covers domestic and non-domestic appliances and to fittings designed to be incorporated into such appliances. It includes appliances for cooking, heating, hot water production, refrigeration, lighting,</p>	25/03/22

washing, forced draught burners and heating bodies to be equipped with such burners. Fittings are safety devices, controlling devices or regulating devices and sub-assemblies. The appliances might be new or second hand, manufactured in Moldova or imported. The Regulation establishes obligations for manufacturers, importers and distributors of appliances and fittings. Manufacturers shall ensure that they have been designed and manufactured in accordance with the essential requirements set out in this regulation. Importers or distributors shall be considered a manufacturer and shall be subject to the same obligations when they place an appliance or a fitting on the market under his name or trademark or when they modify an appliance or a fitting considerably. This technical regulation establishes conformity assessment procedures for appliances burning gaseous fuels that must comply with their producers.

<a href="#">G/TBT/N/USA/1826</a> 25/01/22	United States of America	<i>Non-geostationary satellite orbit, fixed-satellite service (NGSO FSS)</i> <b>ICS codes:</b> 49.020 ( <i>Aircraft and space vehicles in general</i> ), 49.140 ( <i>Space systems and operations</i> ); <b>Spectrum Sharing Rules for Non-Geostationary Orbit, Fixed-Satellite Service Systems</b> G/TBT/N/USA/1826 Proposed rule - The Federal Communications Commission (FCC or Commission) proposes to revise its rules governing spectrum sharing among non-geostationary satellite orbit, fixed-satellite service (NGSO FSS) systems. The FCC proposes that its existing spectrum sharing mechanism for NGSO FSS systems will be limited to those systems approved in the same processing round. The FCC also proposes to adopt a rule providing that later-round NGSO FSS systems will have to protect earlier-round systems, and invites comment on how to define such protection. In addition, the FCC seeks comment on whether to sunset, after a period of time, the interference protection afforded to an NGSO FSS system because of its processing round status.	25/03/22

**Energy Conservation Program: Test Procedure and Energy Conservation Standards for Consumer Products; Consumer Air Cleaners**

G/TBT/N/USA/1827 Request for information - The U.S. Department of Energy ("DOE") is initiating rulemaking activities to consider potential test procedure and energy conservation standards for consumer air cleaners. Through this request for information ("RFI"), DOE seeks data and information regarding development and evaluation of a new test procedure that would be reasonably designed to produce test results which reflect energy use during a representative average use cycle for the product without being unduly burdensome to conduct. Additionally, this RFI solicits information regarding the development and evaluation of potential new energy conservation standards for consumer air cleaners, and whether such standards would result in significant energy savings, be technologically feasible and economically justified. DOE also welcomes written comments from the public on any subject within the scope of this document (including those topics not specifically raised), as well as the submission of data and other relevant information.

**Proposed Amendment to the Canadian Grade Compendium: Volume 3 – Processed Fruit or Vegetable Products. Part 1 Grades for Processed Fruit or Vegetable Products Packaged in Hermetically Sealed Packages White Potatoes (Diced or Cubed) (1 page, available in English and French)**

G/TBT/N/CAN/662 Certain processed fruit or vegetable (PFV) products must be graded in order to be marketed in import or interprovincial trade in Canada. PFV grades and requirements are maintained and enforced by the Canadian Food Inspection Agency (CFIA) in an incorporated by reference (IbR) document titled "Canadian Grade Compendium: Volume 3 – Processed Fruit or Vegetable Products", incorporated into the Safe Food for Canadians Regulations (SFCR). CFIA is proposing to change the requirements governing the size of certain grades of diced or cubed white potatoes packaged in hermetically sealed packages. The Proposed Amendment to the Canadian Grade Compendium: Volume 3 – Processed Fruit or Vegetable Products include increasing the maximum dice size to the following grades: Canada Fancy Canada Choice Canada Standard
