<a href="#">G/TBT/N/EU/1087</a> 30/09/2024	European Union	<p><i>The implementing regulation covers cybersecurity certification of ICT products based on the Common Criteria standards. Today, ICT products that undergo Common Criteria certification typically include integrated circuits, smart cards and related products (cryptographic elements, microcontrollers, dedicated software), network devices and systems (routers, switches, access points) and products for digital signatures (cryptographic modules, hardware security modules, secure servers).</i></p> <p><b>Draft Commission Implementing Regulation amending Implementing Regulation (EU) 2024/482 as regards applicable international standards and correcting that Implementing Regulation</b></p> <p>In the EU Common Criteria-based cybersecurity certification scheme (EUCC), the state-of-the-art documents contain information that is relevant for its implementation. The amending implementing regulation will introduce in the EUCC one updated and one new state-of-the-art document, respectively related to the accreditation of Information Technology Security Evaluation Facility (ITSEFs) and accreditation of certification bodies (CBs). Furthermore, the amendment includes a clarification related to the applicable version of the Common Criteria standards and it defines transition rules between the former and latest version. Lastly, the amendment also introduces some corrections in the text to clarify the interpretation of certain articles.</p>	29/11/2024
<a href="#">G/TBT/N/JPN/835</a> 30/09/2024	Japan	<p><i>Liquefied petroleum gas (LPG) equipment and appliances (including portable liquefied petroleum gas burners)</i></p> <p><b>Revision to the Order for Enforcement of the Act on the Securing of Safety, the Optimization of Transaction of Liquefied Petroleum Gas and the Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Products Concerning the Ministry of Economy, Trade and Industry.</b></p> <p>"Portable liquefied petroleum gas burners" will be specified as "liquefied petroleum gas appliances, etc." and "specified liquefied petroleum gas appliances, etc." and the technical requirements for these products are also specified.</p>	29/11/2024
<a href="#">G/TBT/N/USA/2151</a> 30/09/2024	United States of America	<p><i>Chemical substances; Environmental protection (ICS code(s): 13.020); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100)</i></p> <p><b>Significant New Use Rules on Certain Chemical Substances (21-3.F)</b></p> <p>Proposed rule - EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for chemical substances that were the subject of premanufacture notices (PMNs). The chemical substances received "not likely to present an unreasonable risk" determinations pursuant to TSCA. The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rulemaking to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of use for that chemical</p>	28/10/2024

substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination.

Motorcycles and mopeds are hereinafter collectively referred to as 'vehicles'; manufacture and assembly are hereinafter abbreviated as 'SXMLR'. Three-wheeled vehicles with a mass of more than 400 kg are considered motor vehicles according to TCVN 6211 and are also tested for emissions according to this standard. This draft National technical regulation applies to agencies, organizations and individuals with activities related to the production and import of vehicles.</p>	09/11/2024
<a href="#">G/TBT/N/VNM/323</a> 30/09/2024	Viet Nam	<p><i>Pneumatic tyres of motorcycles and mopeds</i></p>	09/11/2024

**The draft National Technical Regulation of pneumatic tyres of motorcycles and mopeds**

This draft National technical regulation stipulates the inspection of technical safety quality of pneumatic tires (hereinafter referred to as tires) for motorcycles and mopeds (group L). The draft National technical regulation does not apply to tires specially designed for off-road vehicles, with the NHS symbol (not for highway use); tires specially designed for racing vehicles; and tires used for national defense and security purposes. This draft National Technical Regulation applies to establishments manufacturing and importing tires, manufacturing and assembling motorcycles and mopeds, and agencies, organizations and individuals involved in the inspection, testing and certification of technical safety quality and environmental protection for tires.

<a href="#">G/TBT/N/VNM/324</a> 30/09/2024	Viet Nam	<i>Two-wheeled motorcycles</i> <b>Draft National technical regulation on the third level of gaseous pollutant emission for new assembled, manufactured and imported two-wheeled motorcycles</b> This draft National technical regulation stipulates the emission limits, emission test(s) and method(s) and management requirements to inspect the third level of gaseous pollutants emissions for newly manufactured, assembled (hereinafter abbreviated as SXLR) and imported two-wheeled motorcycles (hereinafter referred to as vehicles). This draft National technical regulation applies to agencies, organizations and individuals involved in the manufacture and import of vehicles.	09/11/2024

This request for public comment follows the Agency's grant on 10 July 2024, of a TSCA petition received on 11 April 2024, which requested that EPA address via TSCA the regulation of PFOA, PFNA, and PFDA formed during the fluorination of plastic containers used for a variety of household consumer, pesticide, fuel, automotive, and other industrial products.</p>	29/11/2024
<a href="#">G/TBT/N/ARG/458</a> 02/10/2024	Argentina	<p><i>Todos los productos alcanzados por los reglamentos técnicos dictados por la Secretaría de Industria y Comercio</i></p> <p><b>Marco General de Evaluación de la Conformidad</b></p> <p>La Resolución notificada aprueba el Marco General de Evaluación de la Conformidad, aplicable a los reglamentos técnicos dictados en el ámbito de la Secretaría de Industria y Comercio del Ministerio de Economía. Dicho Marco General prevé disposiciones con relación a los organismos de evaluación de la conformidad; procedimientos de evaluación de la conformidad; marcado de conformidad; procedimientos específicos tales como admisión de equivalencia técnica, adaptación al mercado local, ingreso de mercadería sin derecho a uso; vigilancia de mercado; entre otros. Consiste en una revisión y reordenamiento de la normativa vigente en materia de evaluación de la conformidad, tendiente a la simplificación normativa, desburocratización del Estado y facilitación del comercio. Flexibiliza el régimen vigente y amplía los mecanismos previstos para el reconocimiento de los resultados de evaluación de la conformidad, a la vez que introduce un cambio de enfoque en el control del cumplimiento a través del fortalecimiento de la vigilancia de mercado. Establece, asimismo,</p>	

requisitos relativos al marcado de conformidad. Respecto de los reglamentos técnicos vigentes que, a la fecha de publicación de la medida, prevean sistemas de certificación de acuerdo a la Resolución SCT N° 197/2004 derogada por la medida, deberá entenderse que son sustituidos por los esquemas de certificación equivalentes previstos en la Norma ISO/IEC 17067 (punto 3.2.2.1 del Anexo). Se derogan las Resoluciones SICyM N° 799/1999, SDCyC N° 237/2000, SCT N° 197/2004, SC N° 282/2014, SCI N° 344/2021; y las Disposiciones Nros. 178/2000 y 747/2001 de la ex Dirección Nacional de Comercio Interior; sus modificatorias y complementarias. ### **Proposal for Amendments to the Legal Inspection Requirements for Fire Doors of Buildings**

Ensuring fire doors comply with updated safety standards is crucial for maximizing protection in buildings during a fire, as improvements in materials, construction methods, and safety knowledge have enhanced their performance. To address this, the Bureau of Standards, Metrology, and Inspection (BSMI) is proposing amendments to the current fire door requirements. These include adopting the 2016 version of the inspection standard CNS 11227-1 and introducing factory inspections as part of the conformity assessment process. Measures will also be taken to allow the acceptance of test reports based on the previous 2002 version for certain conditions.
