Draft National technical regulation on radio access equipment operating in the 6 GHz band

This draft National Technical Regulation (NTR) specifies the technical requirements and measurements method for 6 GHz Wireless Access Systems including Radio Local Area Network (WAS/RLAN) equipment operating within all or parts of the frequency band from 5 945 MHz to 6 425 MHz. This draft national technical regulation describes spectrum access requirements to facilitate spectrum sharing with other equipment. The HS code of radio access equipment operating in the 6 GHz band is 85176251, as prescribed in Circular No. 31/2022/TTBTC dated June 8, 2022 of the Minister of Finance promulgating the List of Vietnam's export and import goods. Other technical specifications related to antenna ports and emissions from the housing ports of radio equipment, that are not covered by this draft NTR, shall be specified in the relevant NTR and product standards for effective use of radio frequency spectrum.
