This Standard does not apply for tissue culture plantlets".	30/12/2022
G/TBT/N/BRA/1453 01/11/2022	Brazil	<i>Organic chemicals (HS code(s): 29)</i> Normative Instruction No. 11, 17 October 2022; Procedures and requirements for registration of remediated products, renewal, prior consent for import, authorization for research and experimentation and provides other measures.	

G/TBT/N/BRA/1454 01/11/2022	Brazil	<i>Organic chemicals (HS code(s): 29)</i> MJSPOrdinance No. 204, 21 October 2022; Procedures for the control and supervision of chemicals and defines the chemicals subject to control by the Federal Police.	
G/TBT/N/JPN/752 01/11/2022	Japan	<i>Tractors (other than tractors of heading 87.09). (HS code(s): 8701); Motor vehicles for the transport of ten or more persons, including the driver. (HS code(s): 8702); Motor cars and other motor vehicles principally designed for the transport of persons (other than those of heading 87.02), including station wagons and racing cars. (HS code(s): 8703); Motor vehicles for the transport of goods. (HS code(s): 8704); Motorcycles(including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; side-cars. (HS code(s): 8711); Carriages for disabled persons, whether or not motorised or otherwise mechanically propelled. (HS code(s): 8713); Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof. (HS code(s): 8716)</i> The Partial amendments of the "Public Notice that Prescribes Details of Safety Regulations for Road Transport Vehicles", etc Requirement of the Automated Driving System to bring the vehicle to a standstill safely after occurrence of a Dynamic Driving Task (DDT) performance-relevant system failures, or upon Operational Design Domain (DDT) exits.Requirement of the Data Storage System for Automated Driving (DSSAD), equipped in an automated vehicle which is not covered by UN Regulation No. 157 (Automated Lane Keeping Systems), to record data regarding lane changes.	31/12/2022
G/TBT/N/JPN/753 01/11/2022	Japan	<i>Tractors (other than tractors of heading 87.09). (HS code(s): 8701); Motor vehicles for the transport of ten or more persons, including the driver. (HS code(s): 8702); Motor vehicles for the transport of goods. (HS code(s): 8704)</i> The Partial amendments of the "Public Notice that Prescribes Details of Safety Regulations for Road Transport Vehicles", etc. Introduction of the test procedure of solid particle number measurement method for the exhaust gas emissions from vehicles with Gross Vehicle Weight (GVW) exceeding 3.5 tons (excluding those with a seating capacity of no more than 9 passengers used exclusively for passenger use) which equip a diesel engine or a gasoline direct injection engine.	31/12/2022
G/TBT/N/UKR/234 01/11/2022	Ukraine	<i>Quick-frozen food products</i> Draft Order of the Ministry of Agrarian Policy and Food of Ukraine "On approval of Hygienic requirements for quick-frozen food products intended for human consumption"; The draft Order: 1) introduces the definition of quick-frozen food products in the legislation of Ukraine; 2) establishes general principles that have to be met by quick-frozen food products; 3) determines the level of temperature that has to be maintained at the facilities engaged in handling, storage, warehousing, transportation and/or circulation of quick-frozen food products;	31/12/2022

4) establishes the requirements for freezing equipment and the list of cryogenic substances (liquids) allowed to be used for quick freezing of food products;

5) establishes the peculiarities of labeling of quick-frozen food products.

Food products that complied with the requirements of the legislation on safety and certain food quality indicators, which was in force before the entry into force of this order, but do not meet the requirements of this order, may be produced and/or put into circulation within three years after the entry into force of this order and be in circulation until the minimum expiration date. The draft Order is designed to implement Commission Regulation (EC) No 37/2005 of 12 January 2005 on the monitoring of temperatures in the means of transport, warehousing and storage of quick-frozen foodstuffs intended for human consumption, Council Directive 89/108/EEC of 21 December 1988 on the approximation of the laws of the Member States relating to quick-frozen foodstuffs for human consumption.

The draft Order is also notified in accordance with the requirements of the Agreement on the Application of Sanitary and Phytosanitary Measures.

Chemical Substances (22-2.5e); Environmental protection (ICS code(s): 13.020); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100)

30/11/2022

Significant New Use Rules on Certain Chemical Substances (22-2.5e);

Proposed rule -The Environmental Protection Agency (EPA) is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for chemical substances that were the subject of premanufacture notices (PMNs) and are also subject to Orders issued by EPA pursuant to TSCA. The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the use, under the conditions of use for that chemical substance, within the applicable review period. Persons may not commence manufacture or processing for the significant new use until EPA has conducted a review of the notice, made an appropriate determination on the notice, and has taken such actions as are required by that determination.

Republic of

Pharmaceuticals

Proposed amendments to the "Korean Pharmacopoeia"; The revision aims to provide reasonable support for proper pharmaceutical quality management by harmonizing standards and specifications in The Korean Pharmacopoeia with global standards and specifications. Moreover, the revision includes adding to the licorice origin species a species which the standard conformity with the existing species and the possibility of domestic cultivation were verified to lay the foundation for the localization of licorice. In addition, to advance standards and specifications and distribute high-quality medicines by improving some of the

These 26 chemicals and chemical groups have been identified as toxic chemicals and precursors under the Chemical Weapons Convention (CWC), and are currently regulated by Singapore Customs, as the National Authority for the Chemical Weapons Convention (NA(CWC)), through the Chemical Weapons (Prohibition) Act (CWPA) and the Chemical Weapons (Prohibition) Regulations. Under the	03/01/2023

CWPA, depending on the CWC Schedule that the chemicals belong to, companies are required to apply for a NA(CWC) licence from Singapore Customs if they are engaged in activities including the import, export, production, processing, consumption and local sale and distribution of these chemicals. From July 2023, NEA will also be regulating these 26 chemicals and chemical groups under the EPMA and EPM (HS) Regs. Once the regulations take effect, companies will be required to apply for a Hazardous Substances (HS) licence/permit from NEA for the import, export, manufacture, sale, transport, storage and/or use of these chemicals and of products containing these chemicals. Accordingly, companies engaged in activities involving any of these chemicals would have to comply with the requirements on the import, export, manufacture, offer for sale, transport, storage and/or use of hazardous substances, that are stipulated in the EPMA and EPM (HS) Regs. These include, inter alia, labelling and other requirements for the containers/tanks and vehicles that are used to store or transport the chemicals, as well as other specific safety and documentational requirements.

Phasedown of Hydrofluorocarbons: Allowance Allocation Methodology for 2024 and Later Years;

Proposed rule -The U.S. Environmental Protection Agency is proposing to amend existing regulations to implement certain provisions of the American Innovation and Manufacturing Act, as enacted on 27 December 2020. This rulemaking proposes to establish the methodology for allocating hydrofluorocarbon production and consumption allowances for the calendar years of 2024 through 2028. EPA is also proposing to amend the consumption baseline to reflect updated data and to make other adjustments based on lessons learned from implementation of the hydrofluorocarbon phasedown program thus far, including proposing to: codify the existing approach of how allowances must be expended for import of regulated substances; revise recordkeeping and reporting requirements; and implement other modifications to the existing regulations.
