<a href="#">G/TBT/N/EU/934</a> 10/11/2022	European Union	<p><i>Ethyl alcohol of agricultural origin (spirit drinks and aromatised wine products)</i></p>	09/01/2023

**Draft Commission Implementing Regulation amending Regulation (EC) No 2870/2000 laying down Community reference methods for the analysis of spirit drinks, and repealing Regulation (EEC) No 2009/92 determining Community analysis methods for ethyl alcohol of agricultural origin in the preparation of spirit drinks, aromatized wines, aromatized wine-based drinks and aromatized wine-product cocktails;**

During the discussions on the draft Commission Delegated Regulation (notified to the WTO on 1 February 2022 under reference [G/TBT/N/EU/868](#)) amending Regulation (EU) 2019/787 to update the definition of and requirements for ethyl alcohol of agricultural origin, national experts pointed out to the fact that there was no longer an EU Regulation in place determining the reference methods for the analysis of EAAO.

It was therefore decided to draft the enclosed Implementing Regulation, which identifies reference methods already laid down for spirit drinks in Regulation (EC) No 2870/2000 that are to be applied to the analysis of the technical requirements for EAAO.

09/01/2023

**Requirements on Minimum Energy Performance Standard and Energy Efficiency Rating Labelling and Inspection of water chilling packages using the vapor compression cycle.;**

The Bureau of Energy proposes to amend "Requirements on Minimum Energy Performance Standard and Energy Efficiency Rating Labelling and Inspection of water chilling packages using the vapor compression cycle" in order to ensure implementation of such Requirements. The amendments mainly involve Clause 4 (adding the acceptance of energy efficiency test reports from AHRI approved Test Stands) and Clause 12 (conditions of applying for renew registration numbers). The minimum energy performance standards and test methods (referencing CNS 12575) remain unchanged.

**Proposed Partial Amendment to the "Public Notification of Standards, Methods and Application Procedure for Type Approval of Meteorological Instruments";**

The Korea Meteorological Administration proposes partial amendment to the Public Notification of Standards, Methods and Application Procedure for Type Approval of Meteorological Instruments.

The Proposed Amendment

- adds a sea water thermometer to the detailed standards for type approval of electronic thermometers and their test methods;
- specifies that performance tests can be conducted only with a weather sensor, if the output of a weather sensor is a pulse, or if the observation values after digital signal processing can be checked immediately; and

		- adds the standards for the ratio of collected observations to stability tests under the detailed standards for type approval of snow-depth sensors and their test methods.

**Safety Standard for Adult Portable Bed Rails;**

Notice of proposed rulemaking; notice of opportunity for oral presentation of comments -The U.S. Consumer Product Safety Commission (Commission or CPSC) has determined preliminarily that there is an unreasonable risk of injury and death associated with entrapment hazards from adult portable bed rails (APBRs). To address these risks, the Commission proposes a rule under the Consumer Product Safety Act (CPSA) to require that APBRs meet the requirements of the applicable voluntary standard on APBRs, with modifications. The Commission is providing an opportunity for interested parties to present written and oral comments on this notice of proposed rulemaking (NPR). Like written comments, any oral comments will be part of the rulemaking record.
