Government Regulation No. 28 of 2024 on Implementation of Law No. 17 of 2023 regarding Health

Government Regulation No. 28 of 2024 is an implementing regulation of Law No. 17 of 2023 that provides further provisions, affirmations, and explanations of regulations regarding the following matters: 1) implementation of health measures; 2) management of medical personnel and health workers; 3) health care facilities; 4) pharmaceuticals, medical devices, and health supplies; 5) health information systems; 5) implementation of health technology; 6) management of extraordinary events and outbreaks; 7) health funding; 8) community participation; and 9) guidance and supervision. The eighth section of this GR regulates the management of non-communicable diseases (Articles 190-204), including the control of sugar, salt, and fat consumption in processed foods, including fast food. The provisions regarding the content of sugar, salt, and fat include: The determination of maximum content limits for sugar, salt, and fat will be further coordinated by considering risk assessment and/or international standards. Every person who produces, imports, or distributes processed food, including fast food, shall comply with the maximum content limits of sugar, salt, and fat and include the relevant nutrition labels on processed food packaging or information media for fast food. Business actors that do not comply with the content limits are prohibited from advertising, promotion, and sponsorship at certain times, locations, or to certain target groups, and are prohibited from distributing in certain areas. The use of ingredients that are at risk of causing non-communicable diseases in processed food production is also restricted or prohibited. Administrative consequences for violations of the sugar, salt, and fat content limits in processed food could be subject to business actors in the form of written warnings, administrative charges, temporary suspension of production or distribution activities, withdrawal of products from circulation, and revocation of business licenses.

UAE GCC Technical Regulation for Terrestrial Radio Receiver Specifications for AM/FM/T-DAB+

This GCC Regulation shall apply to all producers, manufacturers, importers, and retailers who wish to sell radio receivers and all other products that have built-in radio receivers in the GCC countries. This specification shall be used to assess the eligibility of a product for use in the GCC countries. This specification covers devices which can receive terrestrially transmitted AM, FM, and T-DAB+ radio services. Some of these devices may also receive other digital radio services via alternative delivery platforms, such as the Internet. This specification does not cover details of a receiver intended to receive digital services via these alternative delivery platforms. This specification covers many types of receivers, including home receivers, portable receivers, devices integrated into the vehicle dashboard, and aftermarket devices mounted in the dashboard, behind the dashboard, to the vehicle windscreen, or elsewhere. This specification

covers devices whose sole function is to receive radio services, and also devices that have one or more other functions in addition to receiving radio services.

Establece y actualiza disposiciones y requisitos derivados de la ley n° 21.349, que deben cumplir fabricantes, productores, formuladores, envasadores, importadores, comercializadores y distribuidores de productos fertilizantes y bioestimulantes y deroga r

En la medida notificada, se revisan y actualizan los requisitos que deben cumplir los insumos denominados fertilizantes y bioestimulantes, respecto a sus etiquetas y parámetros a declarar. Además, se establece un formato de etiquetado y se contemplan plazos para la adecuación del mercado. Por otro lado, se actualizan los requisitos de etiquetado de fertilizantes y bioestimulantes para avanzar en la implementación de la ley N° 21.349 sobre la composición, etiquetado y comercio de estos insumos, y su reglamento específico, de tal manera de asegurar por un lado que los agricultores reciban productos de calidad y que cumplan con los beneficios que indican en sus etiquetas, y por otro lado, evitar la contaminación de suelos con elementos indeseables. Mayores detalles pueden ser revisados en el documento adjunto a esta notificación

Draft Act amending the Act on Packaging and Packaging Waste Management and certain other acts - Projekt ustawy o zmianie ustawy o gospodarce opakowaniami i odpadami opakowaniowymi oraz niektórych innych ustaw

Regulation that introduce the deposit-refund system in Poland was adopted in 2023 (<https://isap.sejm.gov.pl/isap.nsf/DocDetails.xsp?id=wdu20130000888>) The ongoing draft of Act (number 760) at website of Sejm of the Republic of Poland <https://sejm.gov.pl/Sejm10.nsf/druk.xsp?documentId=EE57E2A4A19DF549C1258BC7003E3A85>, clarify the legal regulations on the deposit-refund system regarding the issuance, withdrawal and amendment of the permit to operate the system. The draft also includes legal regulations that establish: that deposit follows the packaging throughout the whole sales chain, the exclusion from the obligation to collect in Deposit -refund system: packaging for beverages that are milk, yogurt or other drinking dairy products, packaging covered by the system is required to display a label on such

packaging with the deposit system logo (<https://www.gov.pl/web/klimat/oznakowanie-opakowan-w-systemie-kaucyjnym>) the obligation for shops to collect reusable glass packaging if the unit sells such beverages. the definition of the launch of the deposit system indicates a date no earlier than 1 October 2025. In connection to this, provisions have been introduced to adapt the procedure for updating permits (Article 7), the rules for calculating the level of selective collection of packaging waste in 2025 (Article 9), and time provisions regarding related obligations in this period (Article 10). This solution will extend the deadline for retail outlets to adapt their premises and change procedures for collecting packaging in stores by half a year. Entrepreneurs will benefit from the additional time to develop a method of cooperation between operators and ensure compatibility of systems.

Notice of proposed rulemaking (NOPR) and request for comment - The U.S. Department of Energy ("DOE") proposes to amend the test procedures for residential and commercial clothes washers and consumer clothes dryers to update the test cloth specifications. DOE also proposes to reorganize the test procedures for improved readability. DOE is conducting this rulemaking to address specific issues and to make minor corrections to the current test procedures. However, this rulemaking does not satisfy the statutory requirement that, at least once every 7 years, DOE review the test procedures for clothes washers and consumer clothes dryers. DOE is seeking comment from interested parties on the proposal.

Decreto del Poder Ejecutivo de fecha 24 de octubre de 2024 por el cual se incorpora la Resolución GMC N° 18/23 -"Reglamento Técnico MERCOSUR sobre Clasificación de Productos de Higiene Personal, Cosméticos y Perfumes"

Se actualiza la clasificación de los productos de higiene personal, cosméticos y perfumes con el fin de priorizar las acciones reguladoras sobre aquellos productos que, por el público al que se encuentran destinados, su área de aplicación, su condición de formulación particular o su propósito de uso, requieren mayor grado de vigilancia sanitaria. La nueva normativa se aplicará en el territorio de los Estados Partes del MERCOSUR, al comercio entre ellos y a las importaciones extrazona.
